Demographics : School District #32 (Williamsburg - Bushwick, Bedford Stuyvesant - Crown Heights, Pelham - Throgs Neck, and Sunset Park),
Brooklyn

Survey data collected at Borough level (no school district level data available).

Childhood Asthma and Lead Exposure : School District #1 (Chelsea - Clinton, Union Square - Lower East Side, Lower Manhattan, Greenwich Village - Soho, Gramercy Park - Murray Hill, East Harlem, and Central Harlem - Morningside Heights), Manhattan

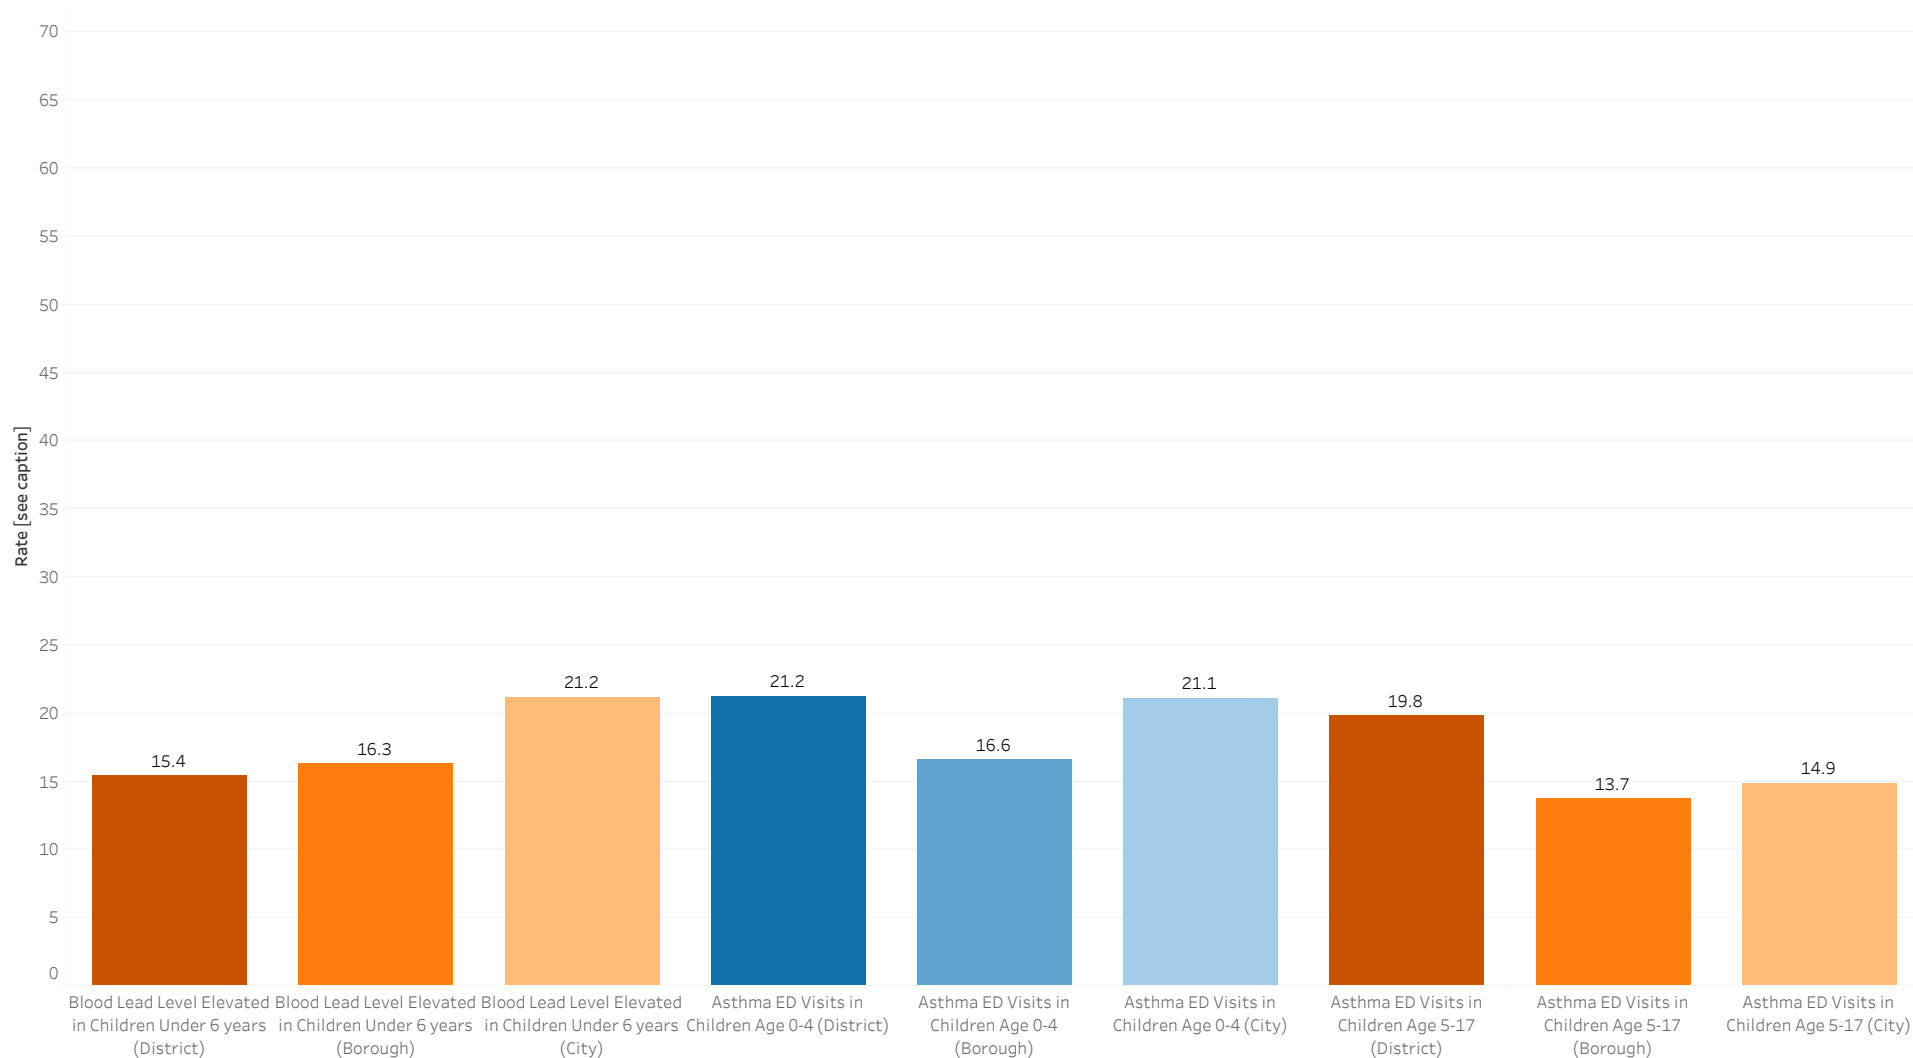

Blood lead level elevated (≥ 5 $\mu\text{g}/\text{dL}$) is presented as the average rate per 1,000 residents tested. Asthma Emergency Department visits are presented as average annual rate per 100,000 residents in the specified age group.

Childhood Asthma and Lead Exposure : School District #2 (Chelsea - Clinton, Union Square - Lower East Side, Lower Manhattan, Greenwich Village - Soho, Gramercy Park - Murray Hill, East Harlem, Central Harlem - Morningside Heights, and Upper East Side), Manhattan

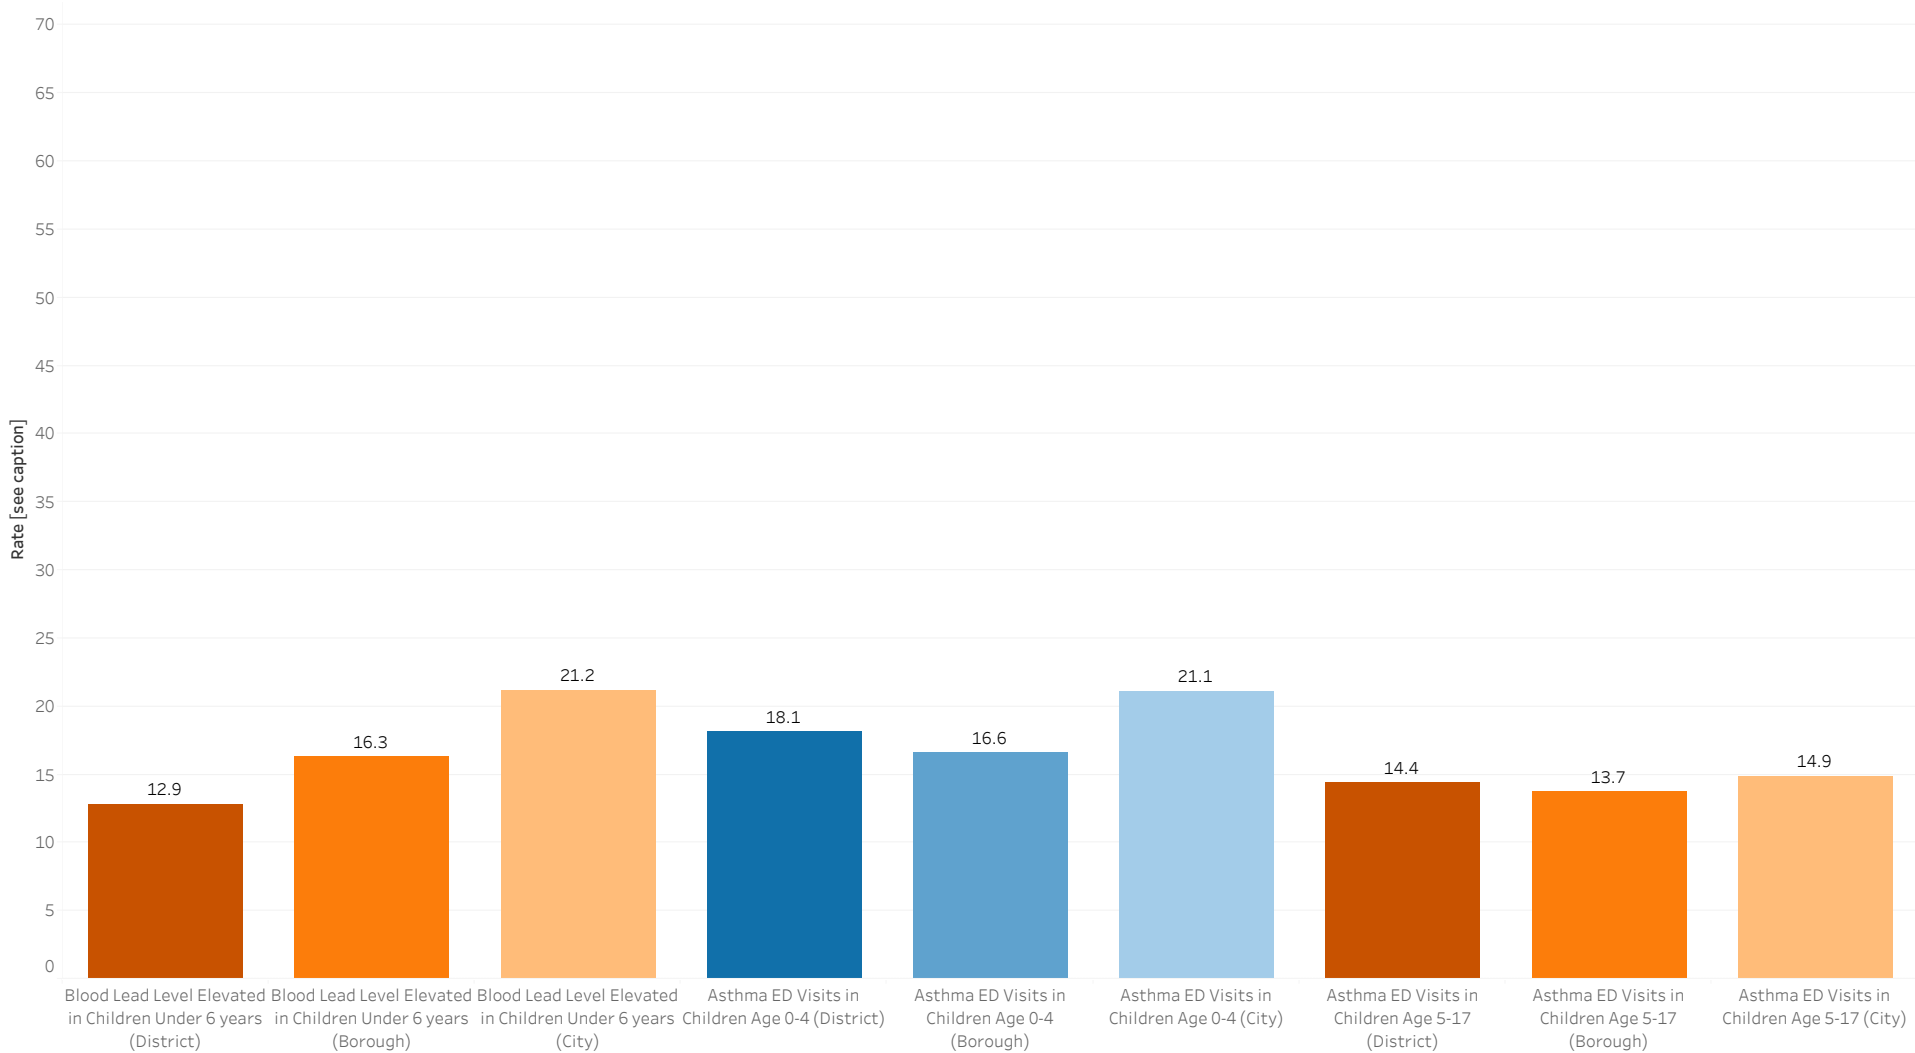

Blood lead level elevated (≥ 5 $\mu\text{g}/\text{dL}$) is presented as the average rate per 1,000 residents tested. Asthma Emergency Department visits are presented as average annual rate per 100,000 residents in the specified age group.

Childhood Asthma and Lead Exposure : School District #3 (Chelsea - Clinton, Central Harlem - Morningside Heights, Upper East Side, Upper West Side, East Harlem, Williamsburg - Bushwick, Washington Heights - Inwood, and Union Square - Lower East Side), Manhattan

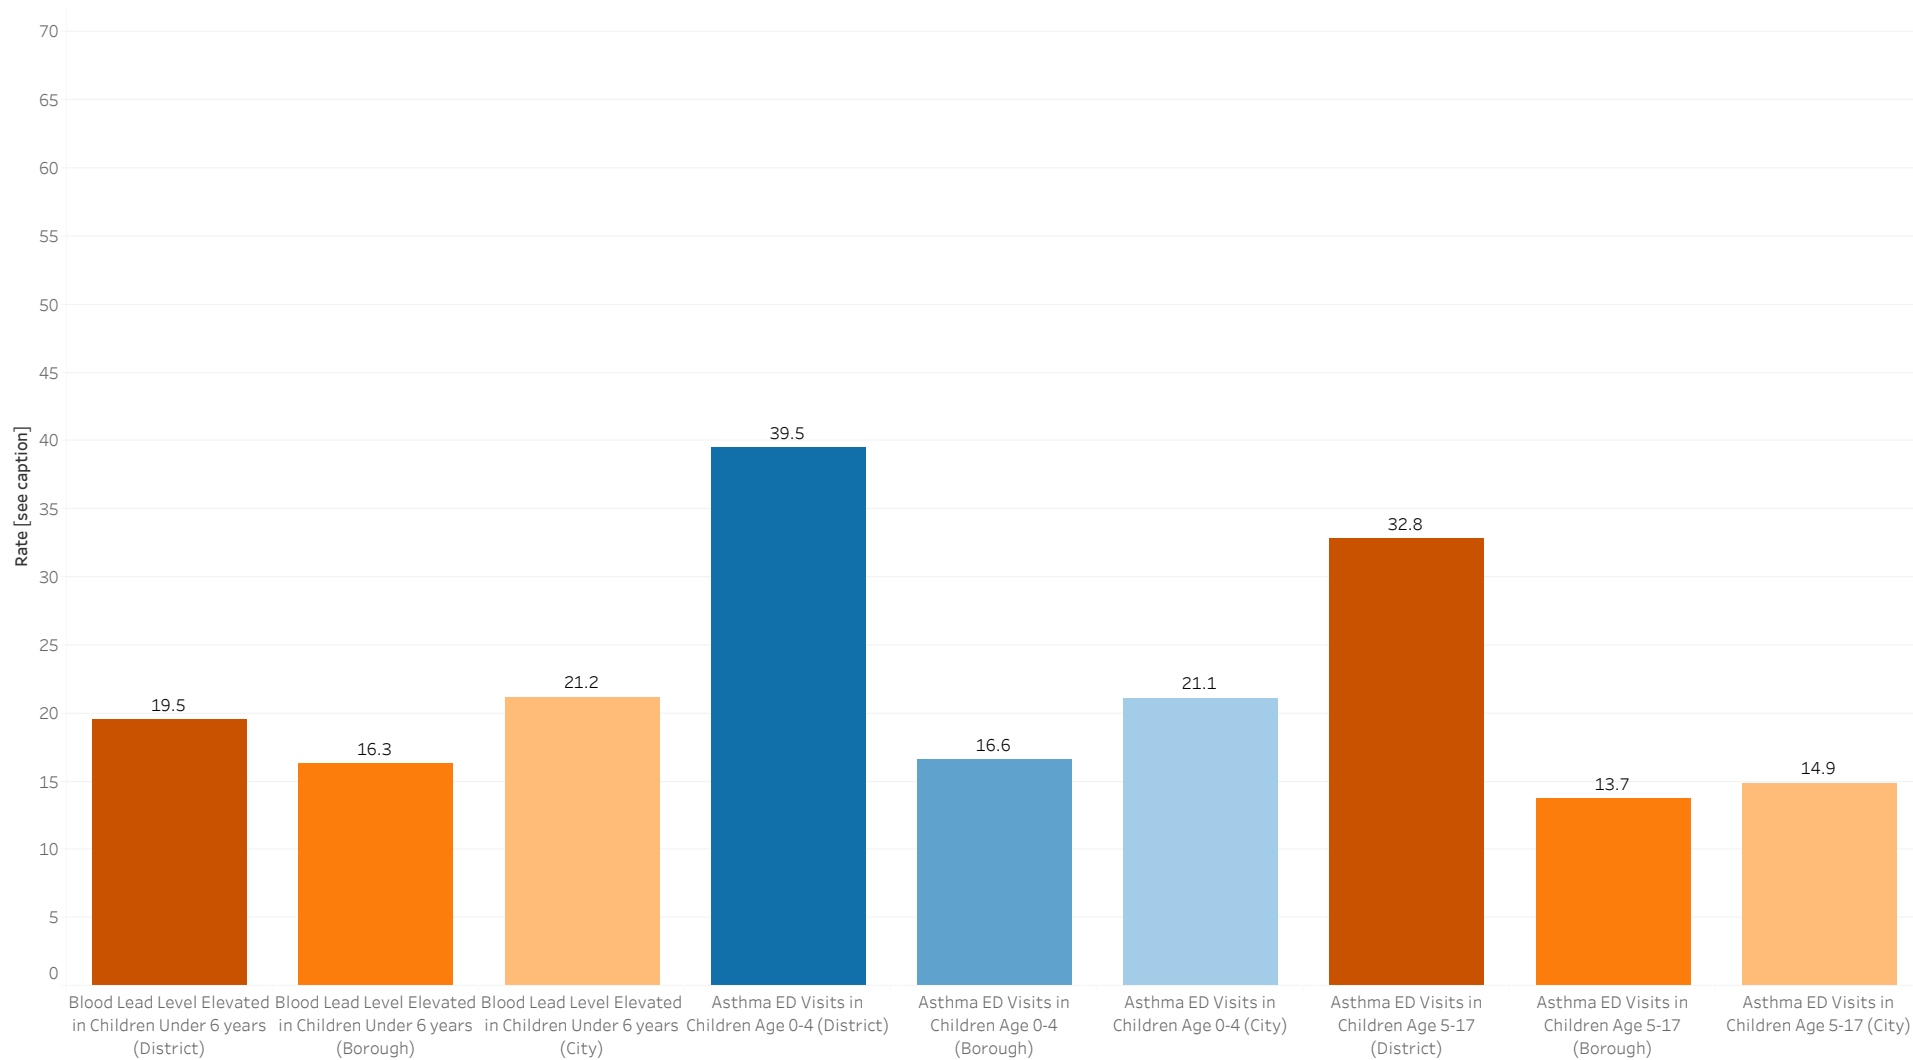

Blood lead level elevated (≥ 5 $\mu\text{g}/\text{dL}$) is presented as the average rate per 1,000 residents tested. Asthma Emergency Department visits are presented as average annual rate per 100,000 residents in the specified age group.

Childhood Asthma and Lead Exposure : School District #4 (Upper East Side, East Harlem, and Union Square - Lower East Side), Manhattan

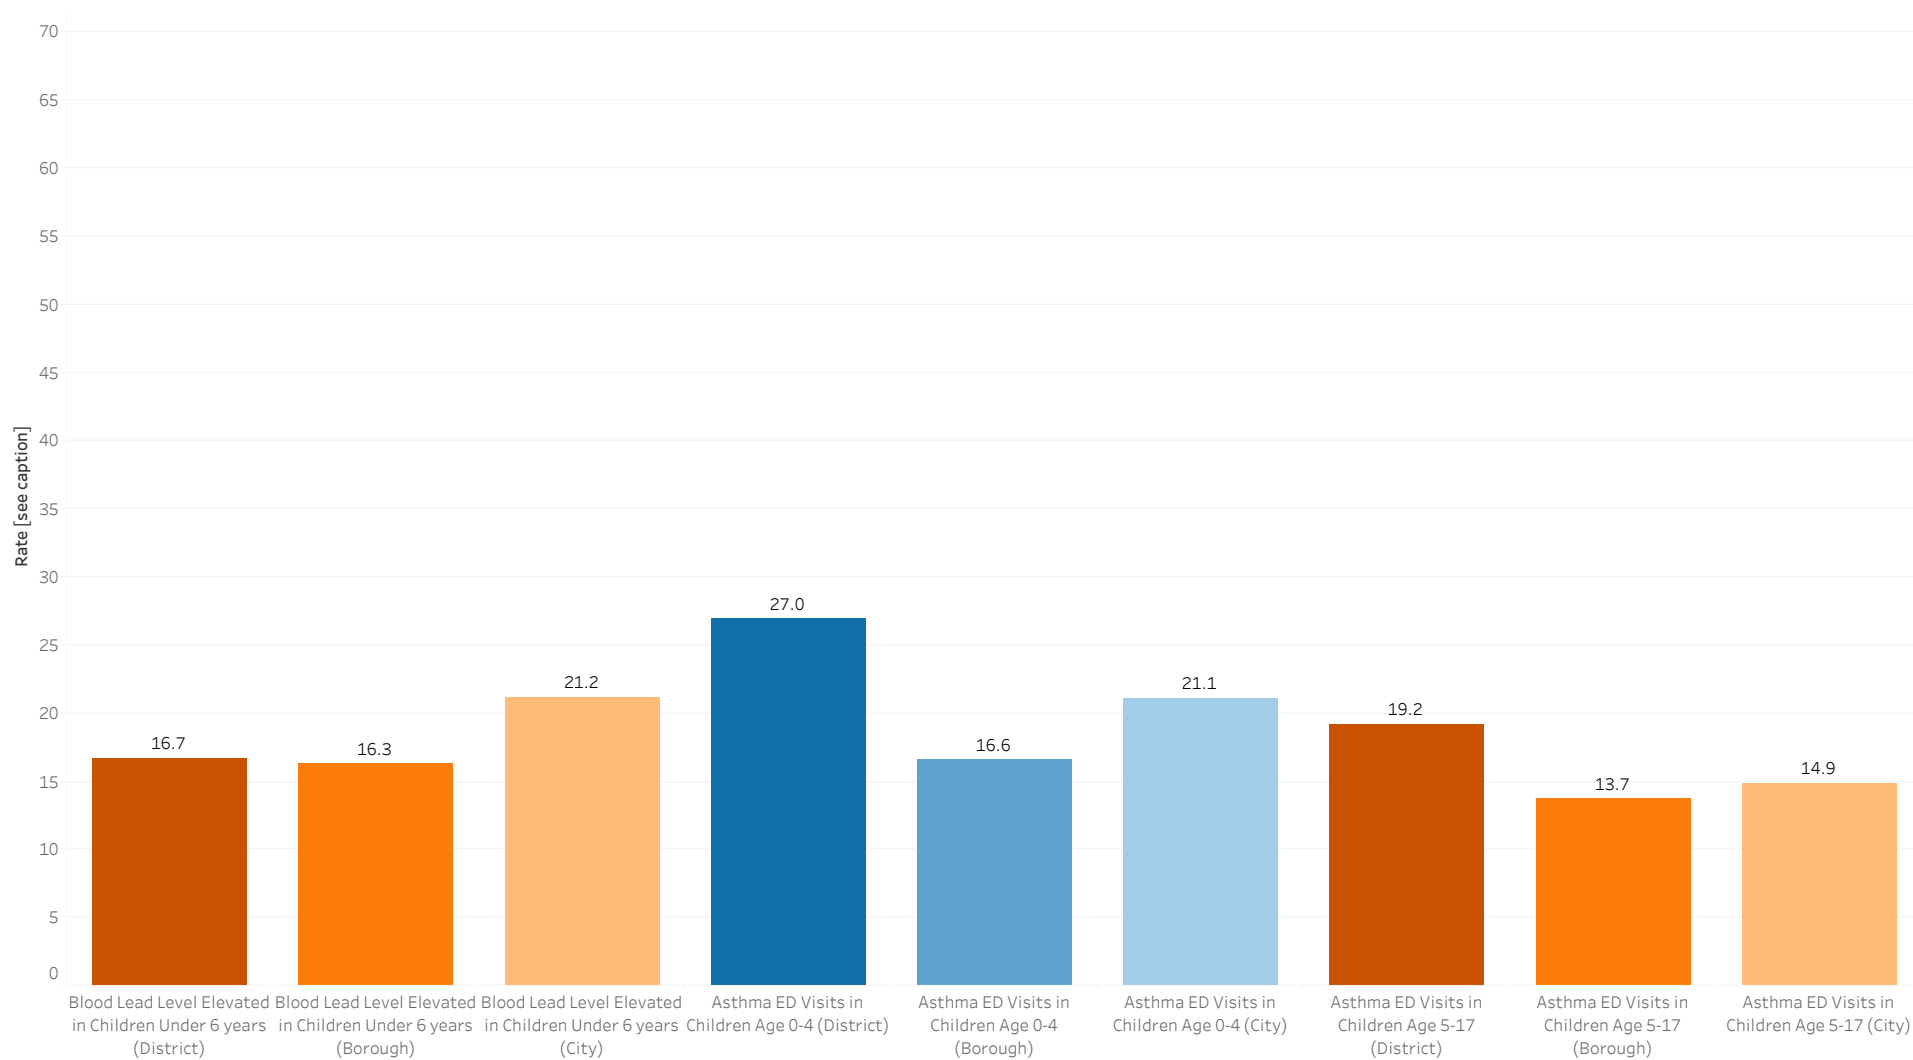

Blood lead level elevated (≥ 5 $\mu\text{g}/\text{dL}$) is presented as the average rate per 1,000 residents tested. Asthma Emergency Department visits are presented as average annual rate per 100,000 residents in the specified age group.

Childhood Asthma and Lead Exposure : School District #5 (Central Harlem - Morningside Heights, East Harlem, Williamsburg - Bushwick, Washington Heights - Inwood, and Upper West Side), Manhattan

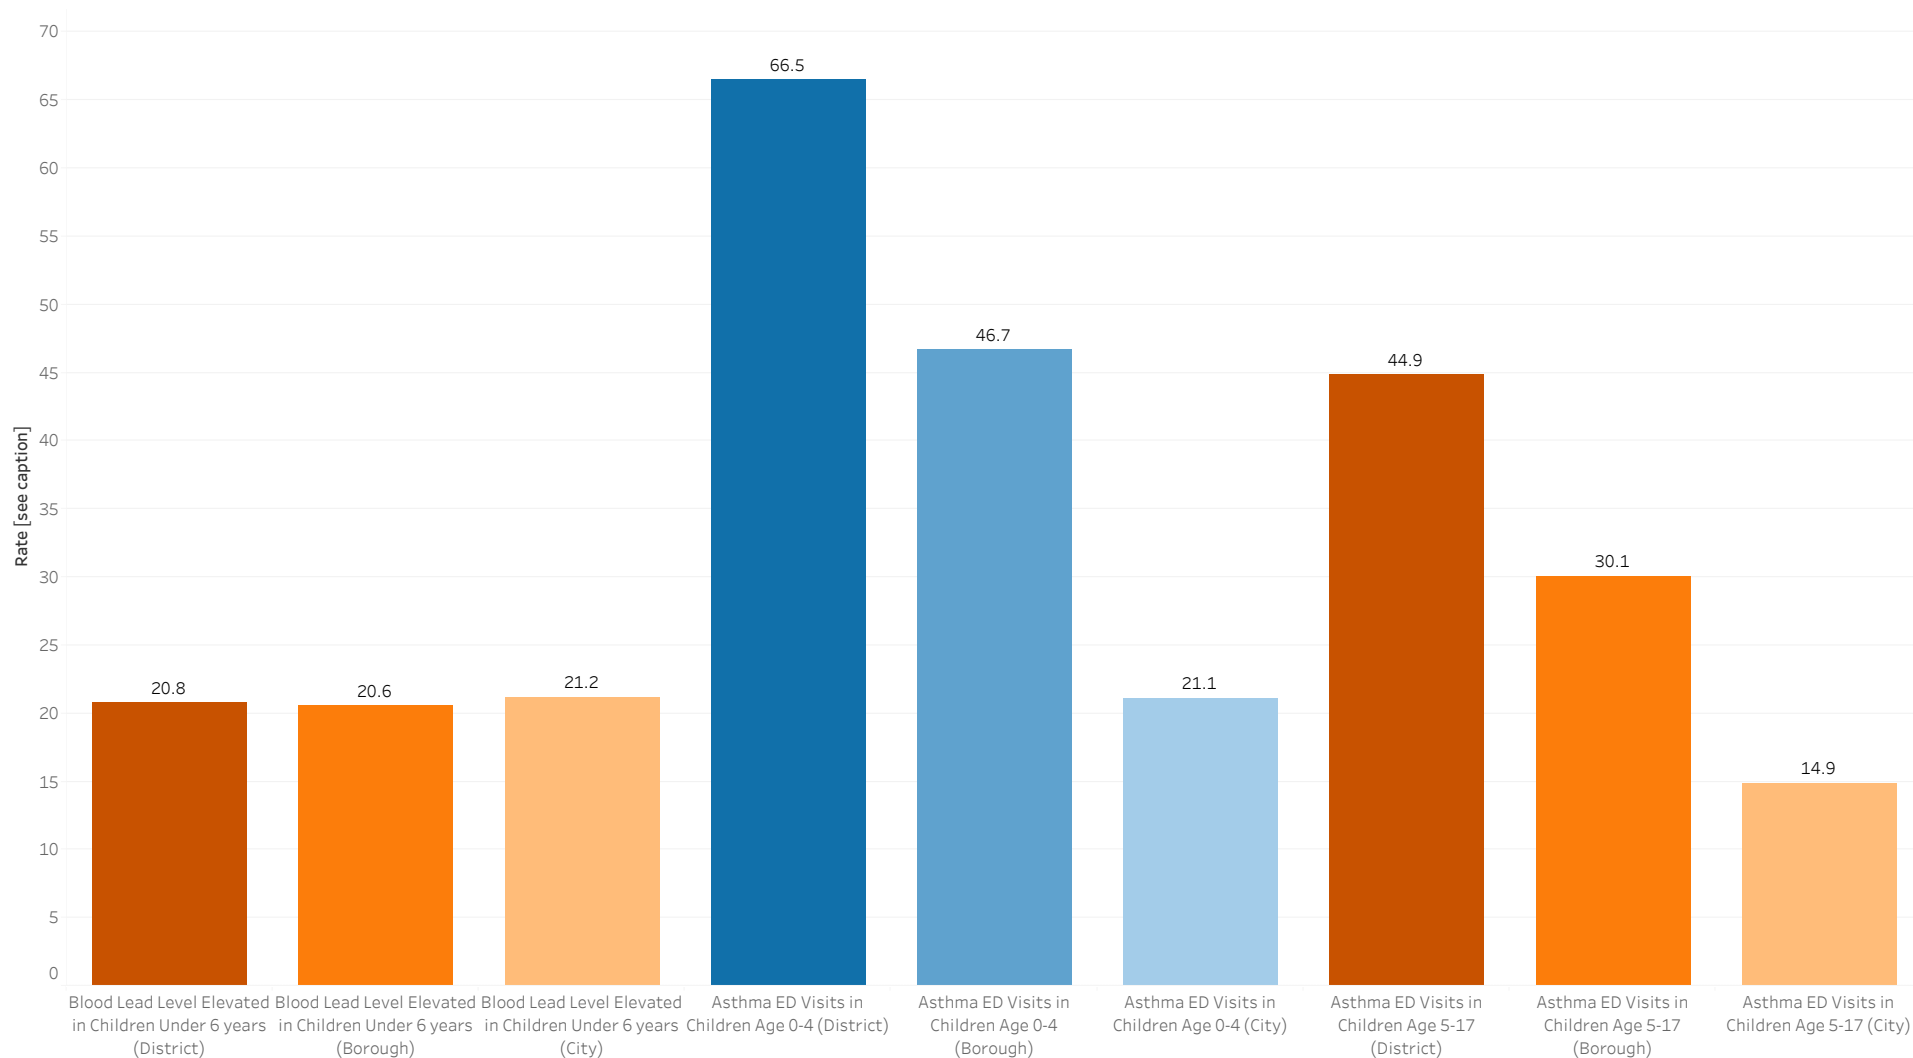

Blood lead level elevated (≥ 5 $\mu\text{g}/\text{dL}$) is presented as the average rate per 1,000 residents tested. Asthma Emergency Department visits are presented as average annual rate per 100,000 residents in the specified age group.

Childhood Asthma and Lead Exposure : School District #6 (Central Harlem - Morningside Heights, Washington Heights - Inwood, and Upper West Side), Manhattan

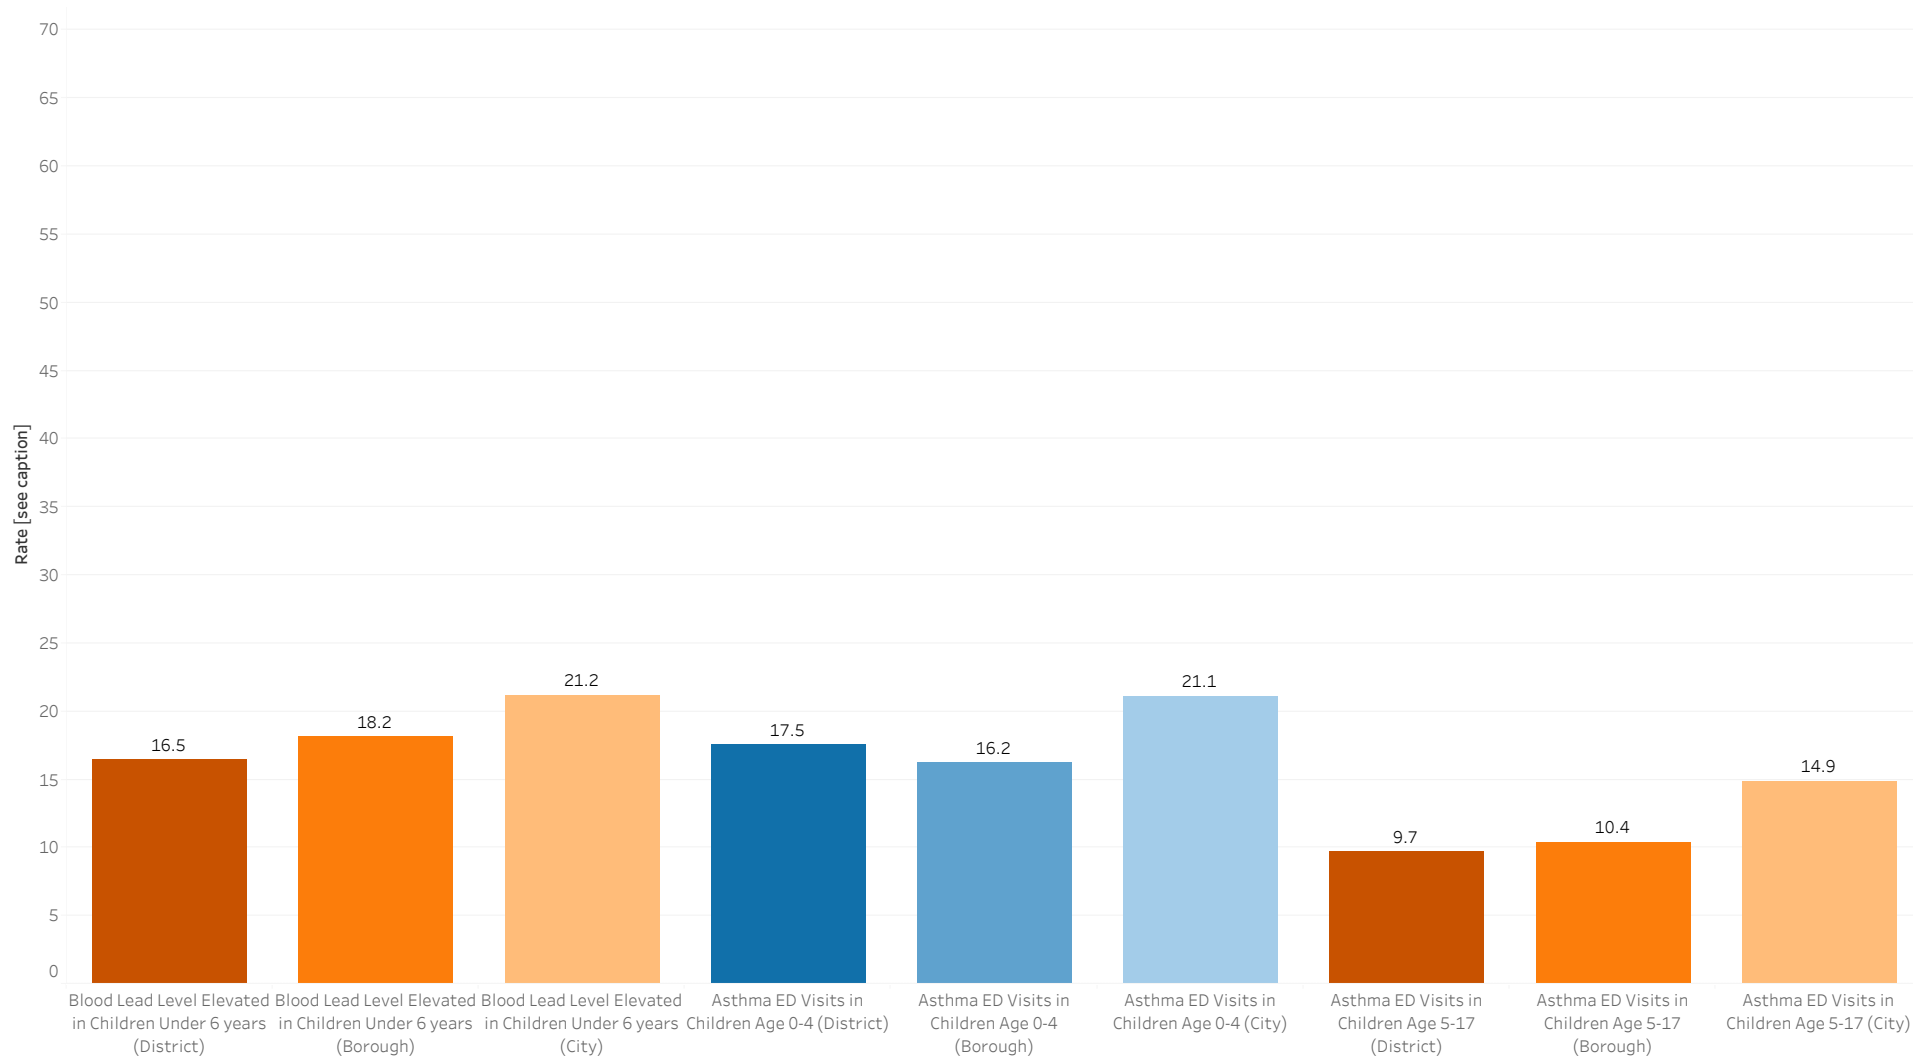

Blood lead level elevated (≥ 5 $\mu\text{g}/\text{dL}$) is presented as the average rate per 1,000 residents tested. Asthma Emergency Department visits are presented as average annual rate per 100,000 residents in the specified age group.

Childhood Asthma and Lead Exposure : School District #7 (High Bridge - Morrisania, Hunts Point - Mott Haven, Fordham - Bronx Park, Willowbrook, Flushing - Clearview, and Bayside - Little Neck), Bronx

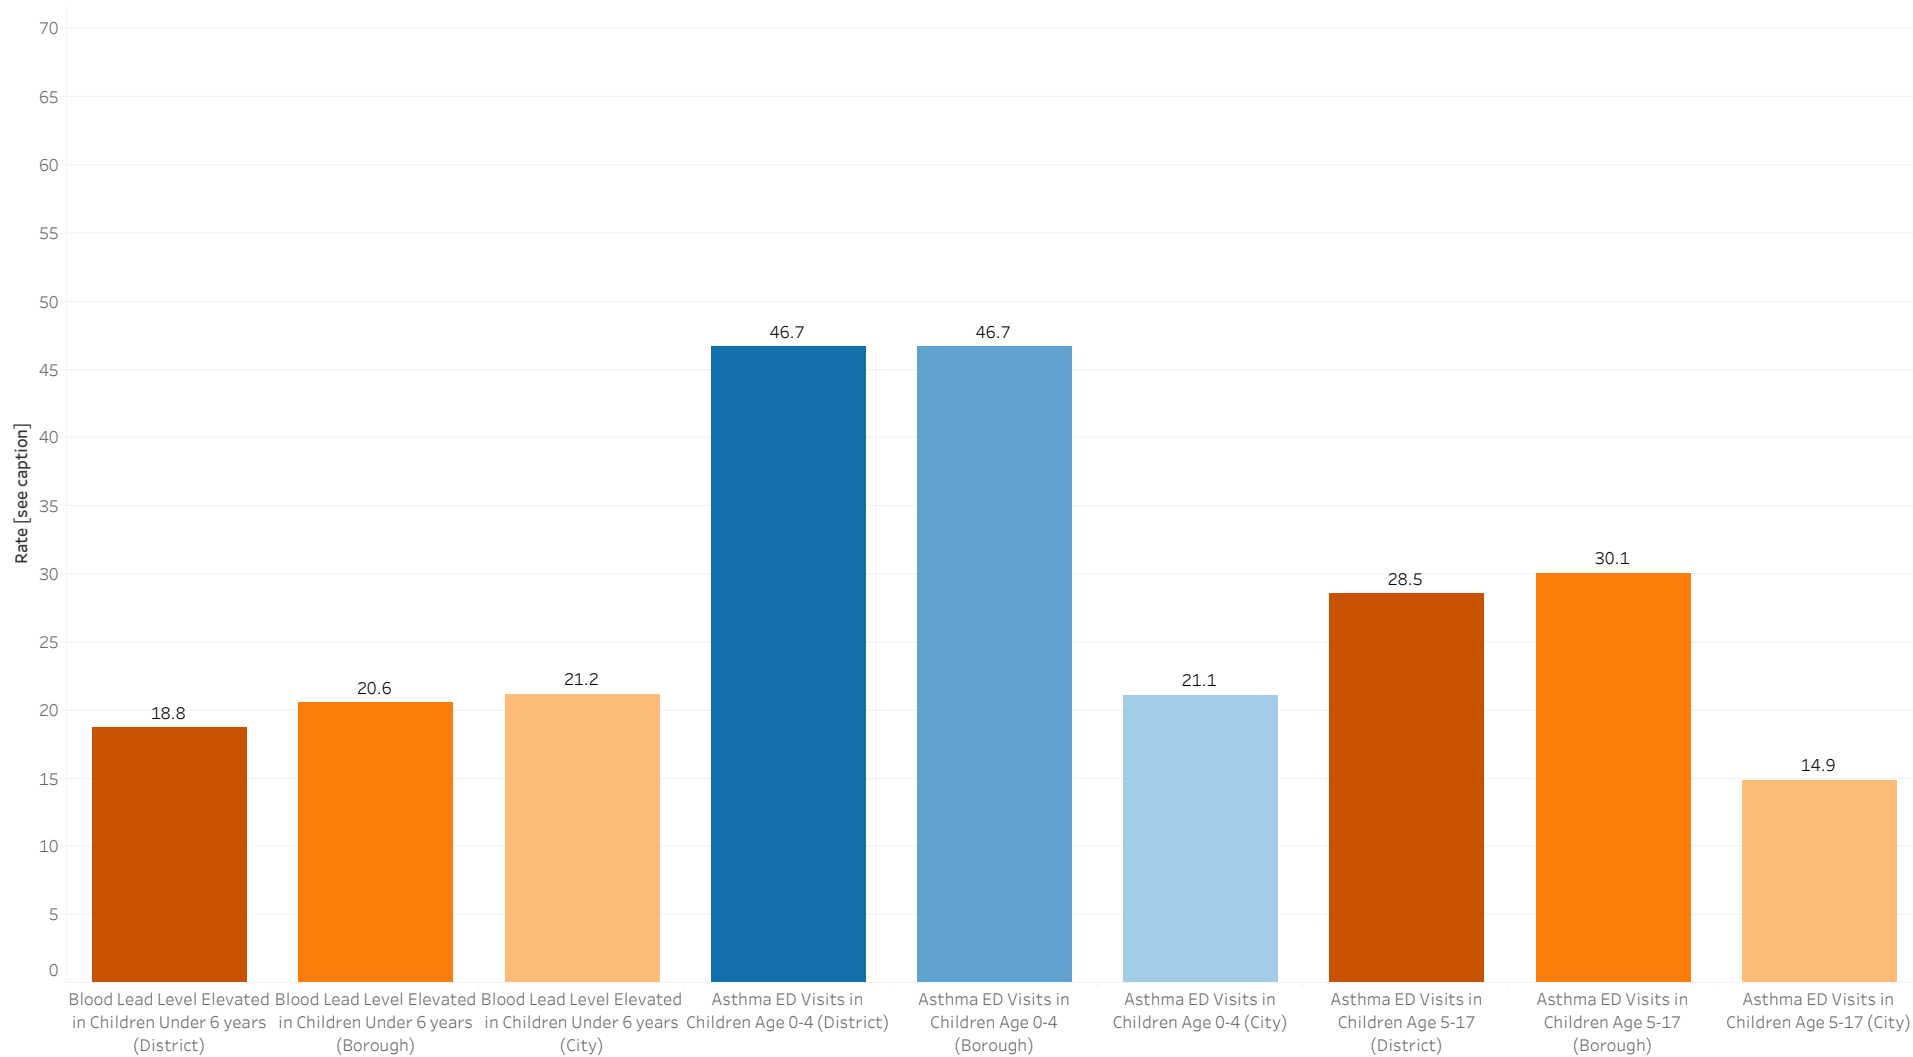

Blood lead level elevated (≥ 5 $\mu\text{g}/\text{dL}$) is presented as the average rate per 1,000 residents tested. Asthma Emergency Department visits are presented as average annual rate per 100,000 residents in the specified age group.

Childhood Asthma and Lead Exposure : School District #7 (High Bridge - Morrisania, Hunts Point - Mott Haven, Fordham - Bronx Park, Willowbrook, Flushing - Clearview, and Bayside - Little Neck), Queens

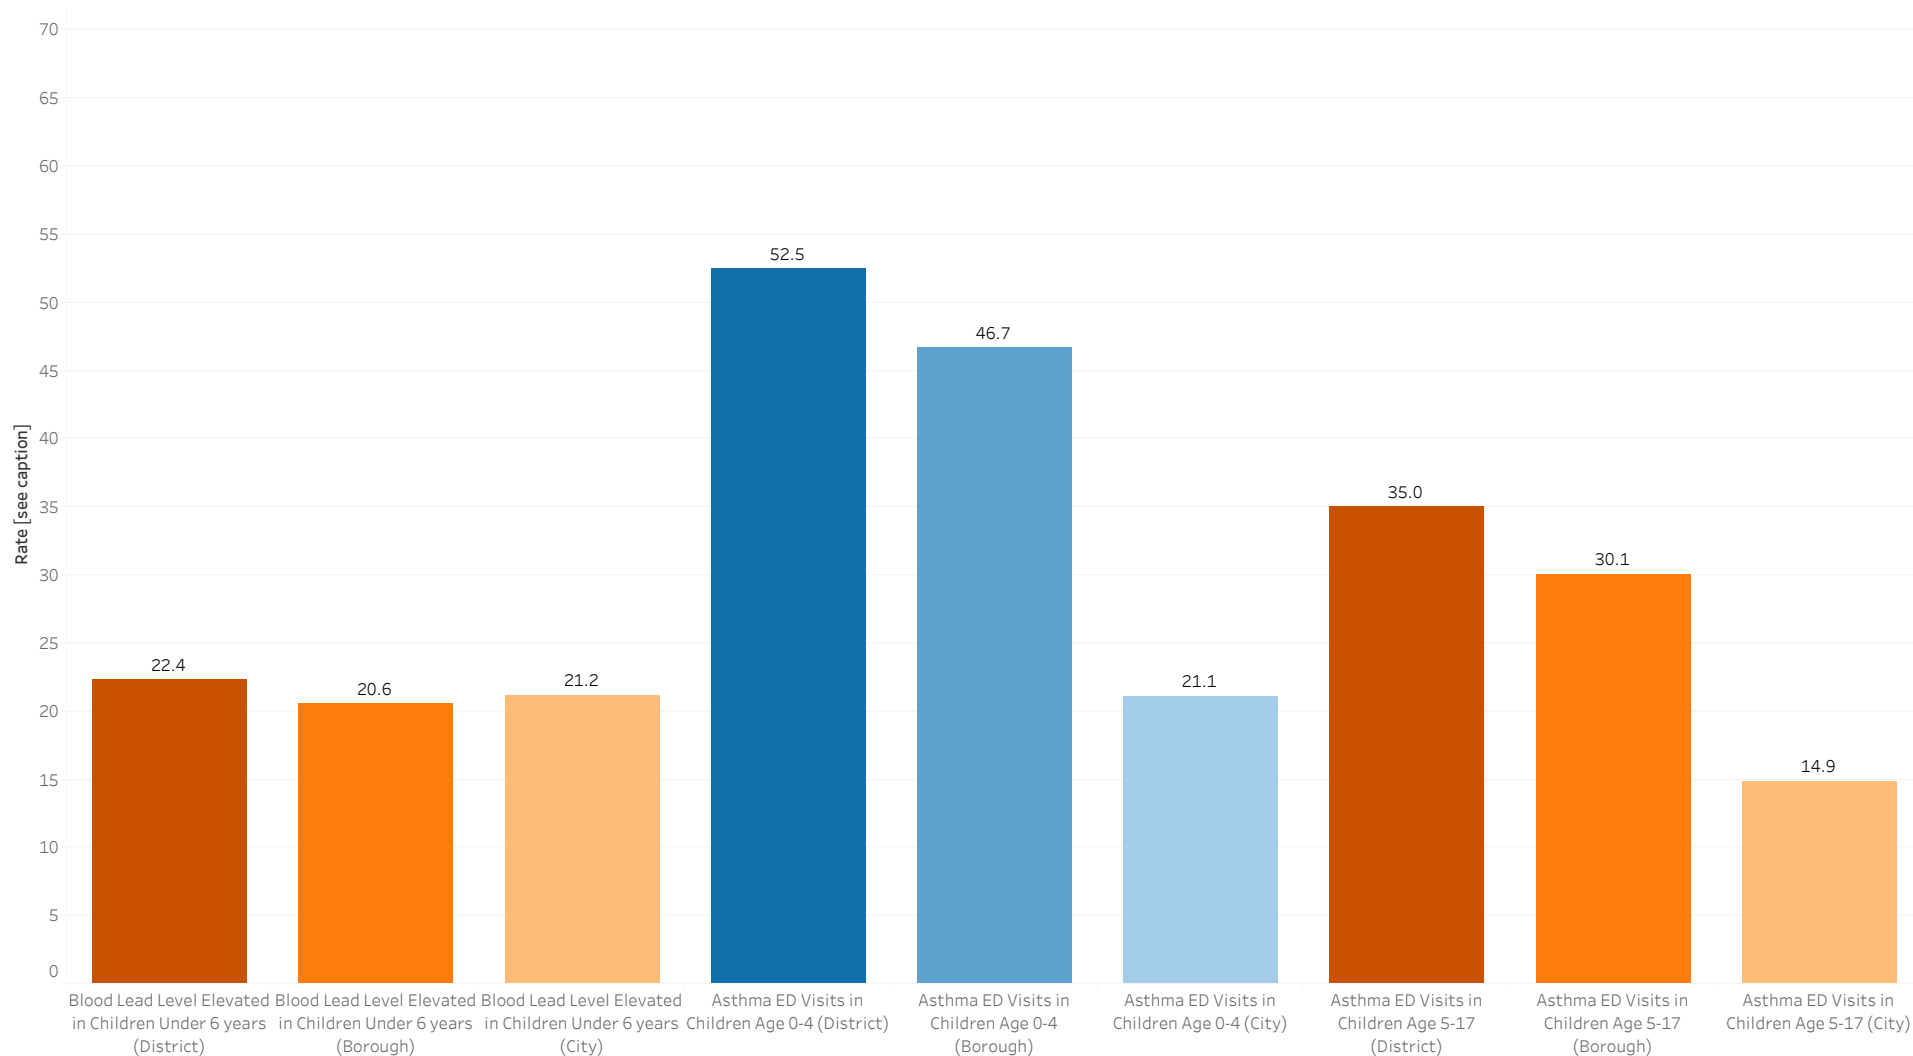

Blood lead level elevated (≥ 5 $\mu\text{g}/\text{dL}$) is presented as the average rate per 1,000 residents tested. Asthma Emergency Department visits are presented as average annual rate per 100,000 residents in the specified age group.

Childhood Asthma and Lead Exposure : School District #8 (High Bridge - Morrisania, Hunts Point - Mott Haven, Fordham - Bronx Park, Willowbrook, Pelham - Throgs Neck, and Northeast Bronx), Bronx

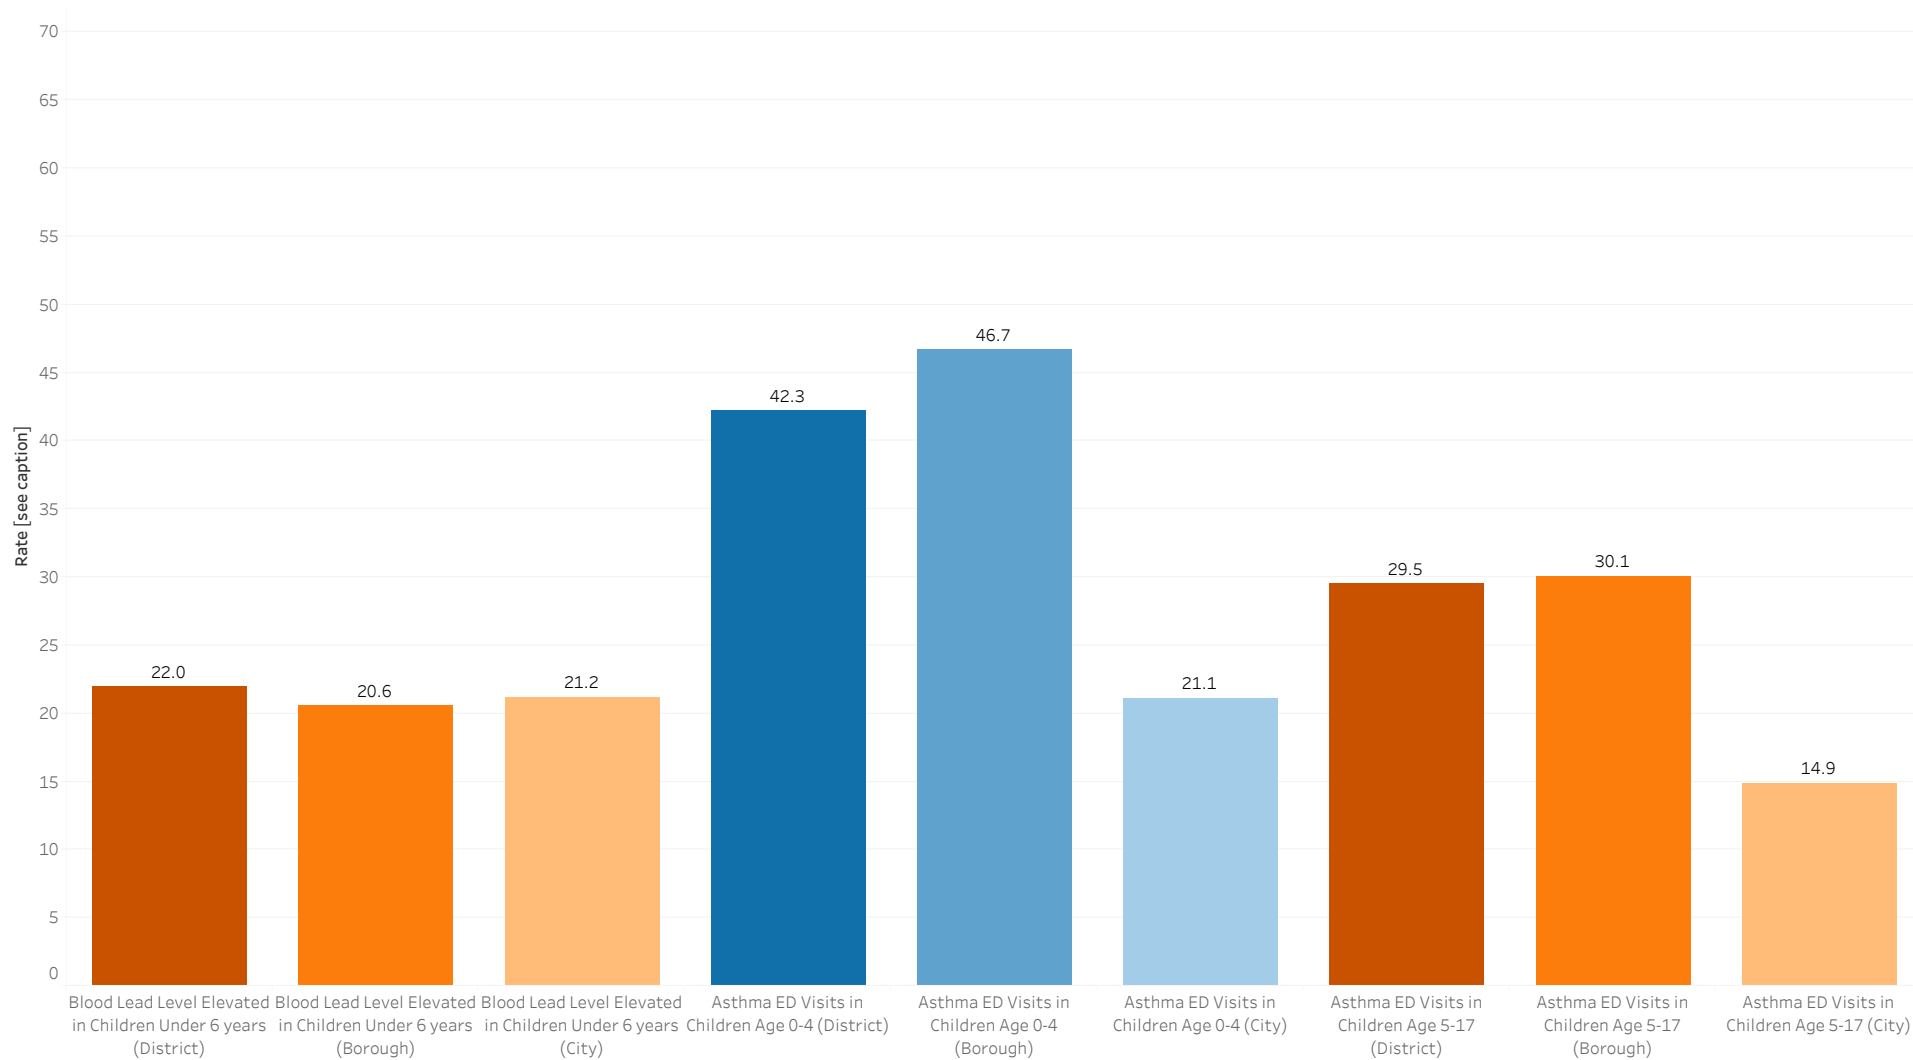

Blood lead level elevated (≥ 5 $\mu\text{g}/\text{dL}$) is presented as the average rate per 1,000 residents tested. Asthma Emergency Department visits are presented as average annual rate per 100,000 residents in the specified age group.

Childhood Asthma and Lead Exposure : School District #9 (High Bridge - Morrisania, Crotona - Tremont, Fordham - Bronx Park, and Willowbrook),
Bronx

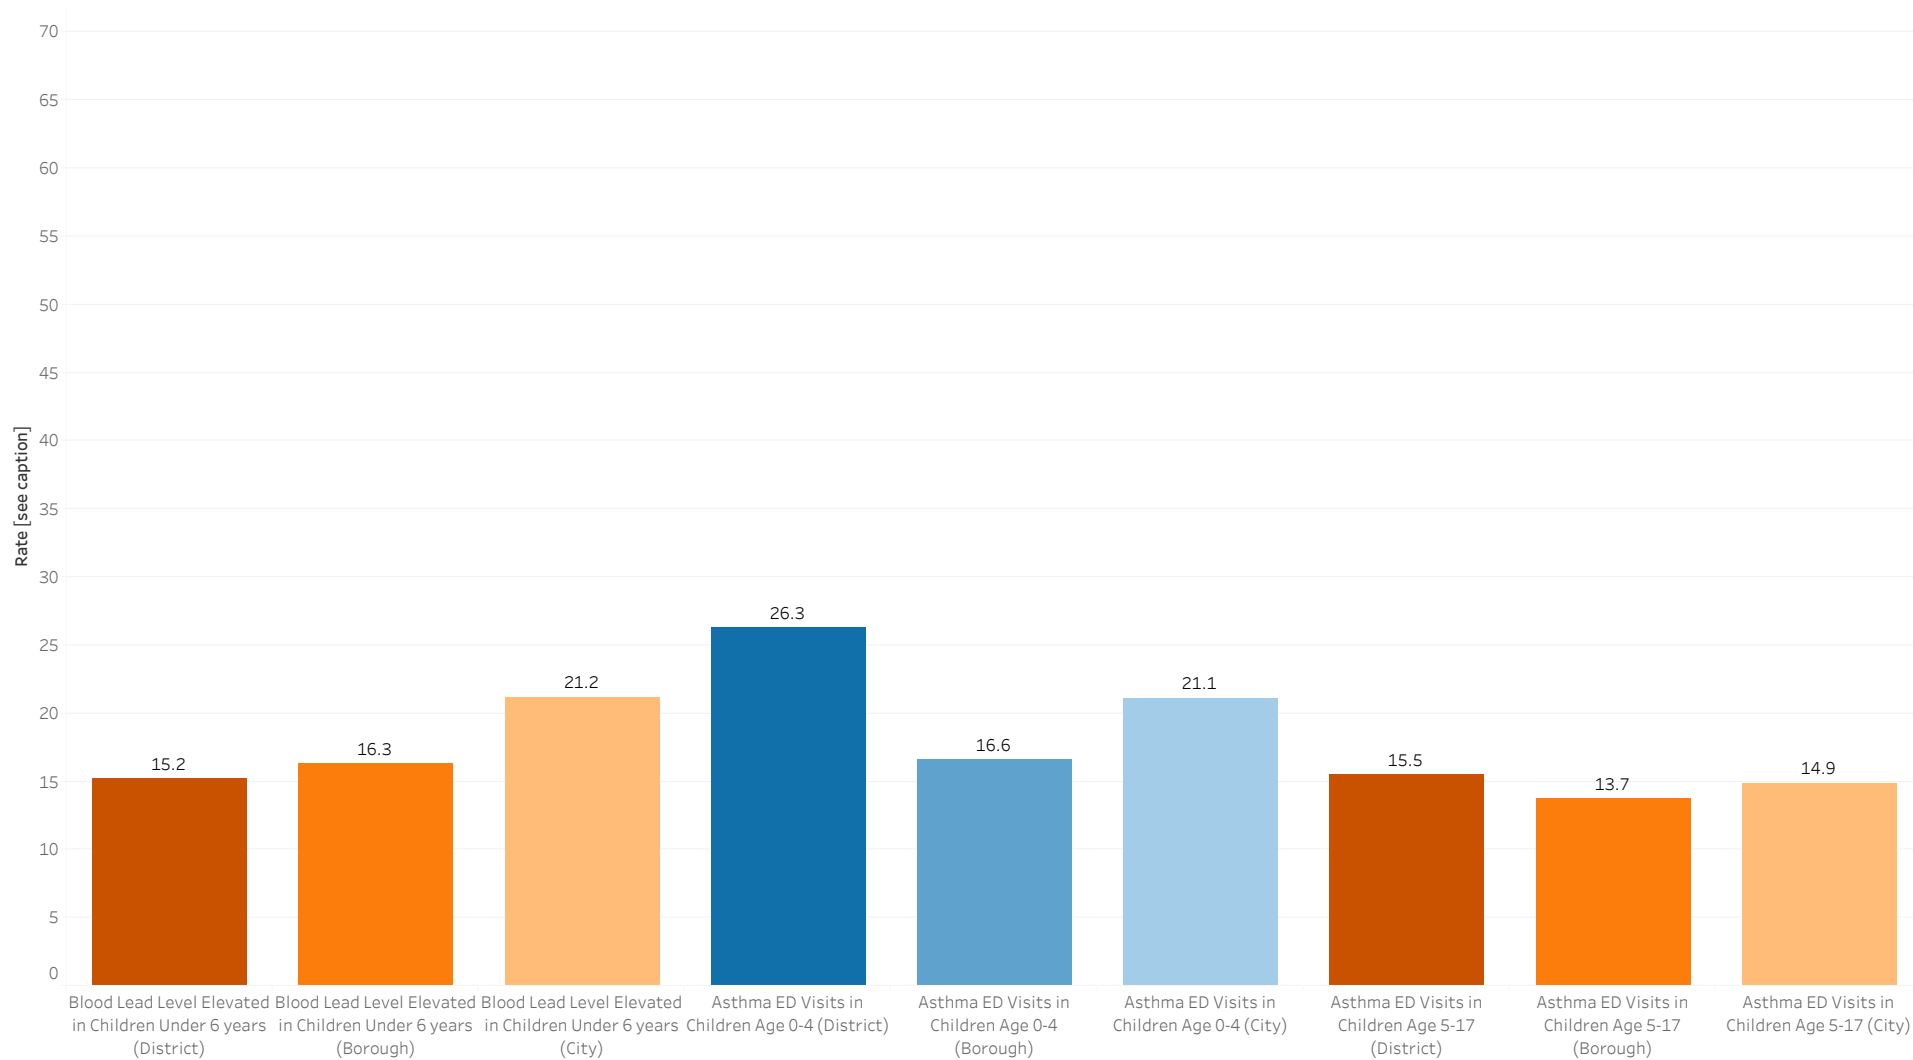

Blood lead level elevated (≥ 5 $\mu\text{g}/\text{dL}$) is presented as the average rate per 1,000 residents tested. Asthma Emergency Department visits are presented as average annual rate per 100,000 residents in the specified age group.

Childhood Asthma and Lead Exposure : School District #10 (Washington Heights - Inwood, Upper West Side, Crotona - Tremont, Fordham - Bronx Park, Willowbrook, and Kingsbridge - Riverdale), Bronx

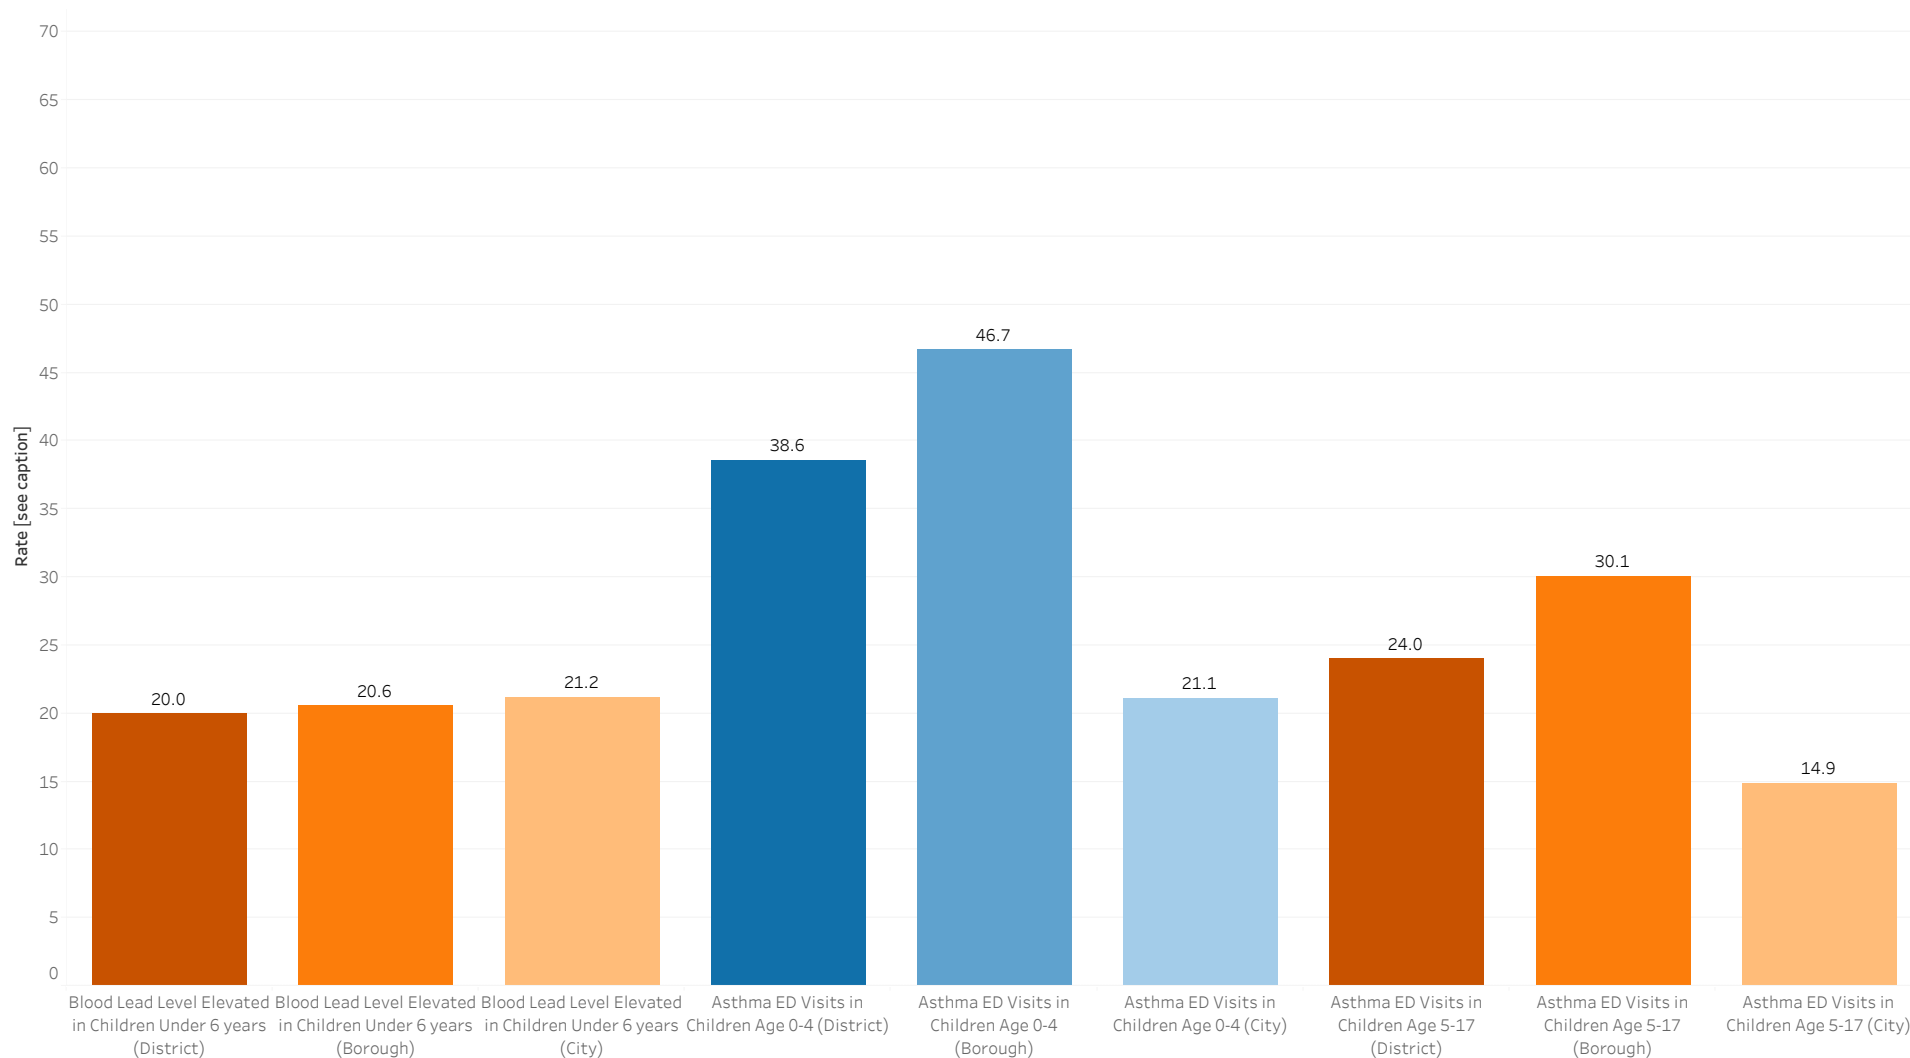

Blood lead level elevated (≥ 5 $\mu\text{g}/\text{dL}$) is presented as the average rate per 1,000 residents tested. Asthma Emergency Department visits are presented as average annual rate per 100,000 residents in the specified age group.

Childhood Asthma and Lead Exposure : School District #10 (Washington Heights - Inwood, Upper West Side, Crotona - Tremont, Fordham - Bronx Park, Willowbrook, and Kingsbridge - Riverdale), Manhattan

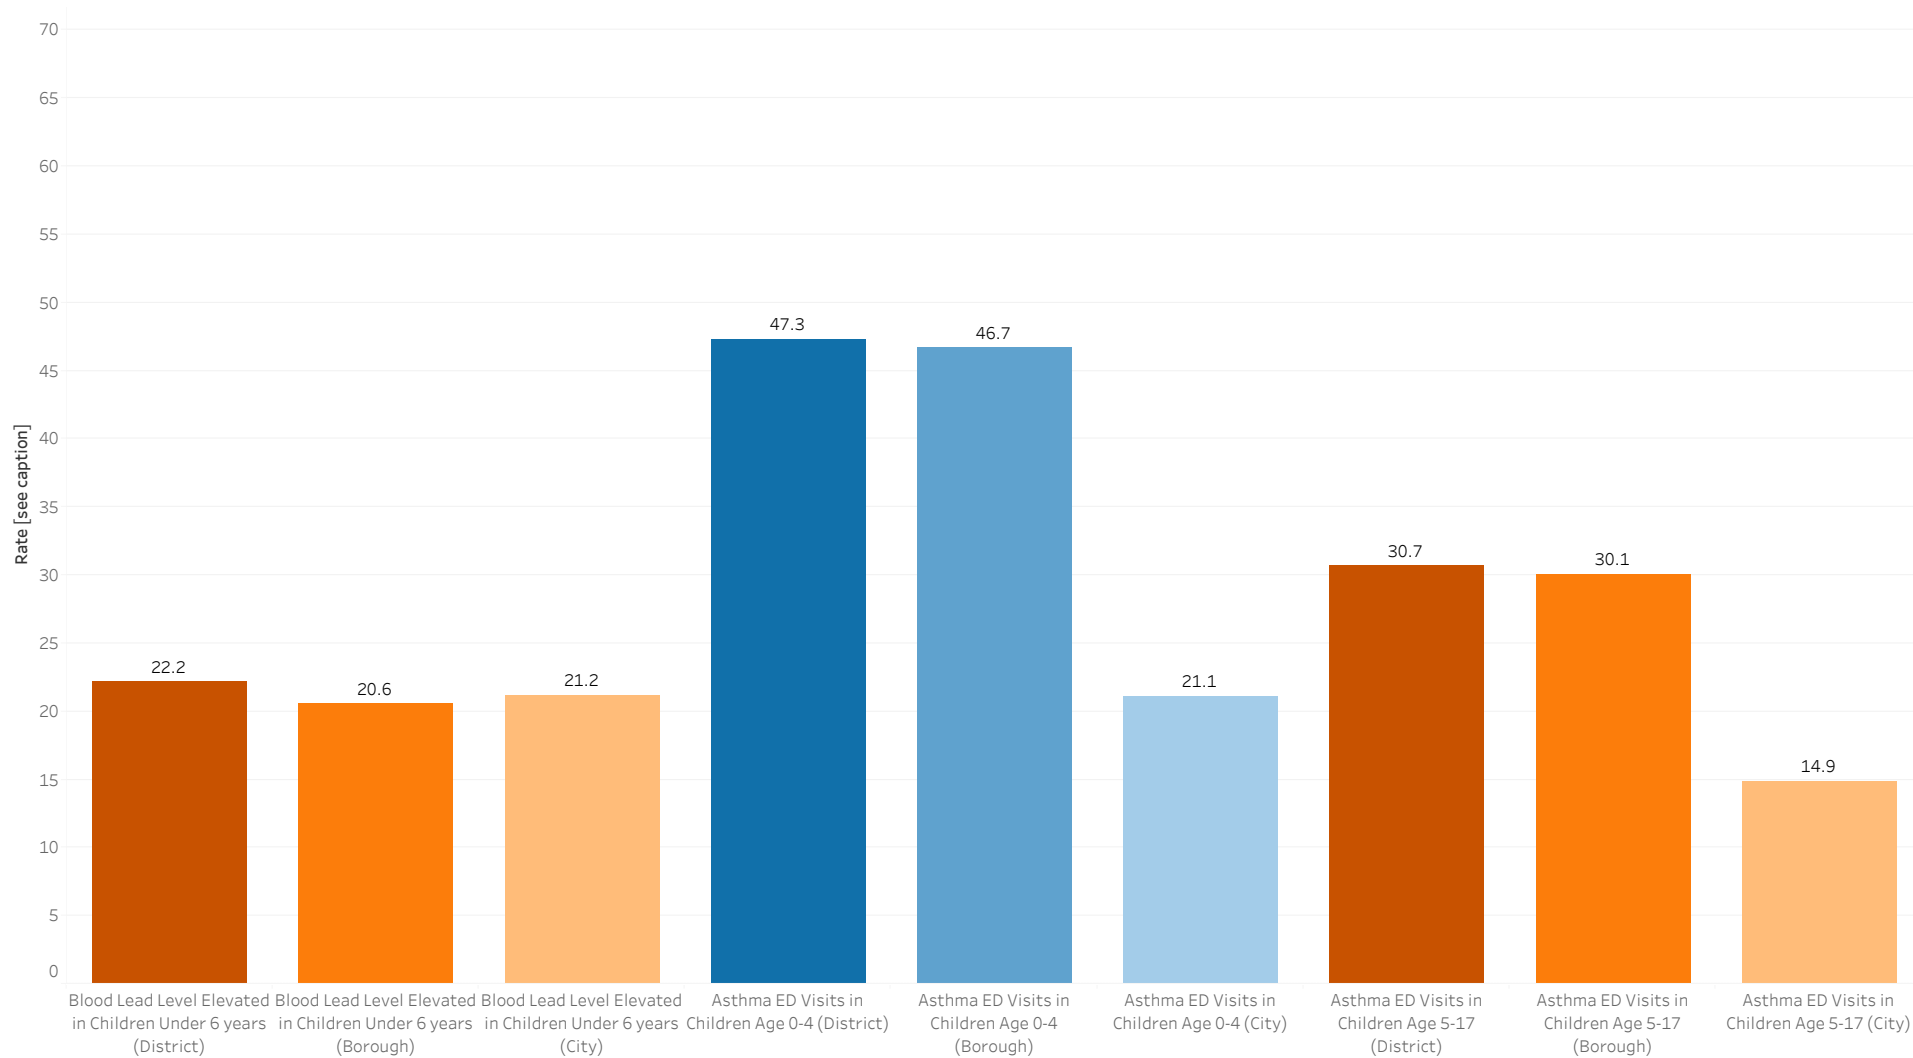

Blood lead level elevated (≥ 5 $\mu\text{g}/\text{dL}$) is presented as the average rate per 1,000 residents tested. Asthma Emergency Department visits are presented as average annual rate per 100,000 residents in the specified age group.

Childhood Asthma and Lead Exposure : School District #11 (Fordham - Bronx Park, Willowbrook, Pelham - Throgs Neck, Northeast Bronx, Crotona - Tremont, and Kingsbridge - Riverdale), Bronx

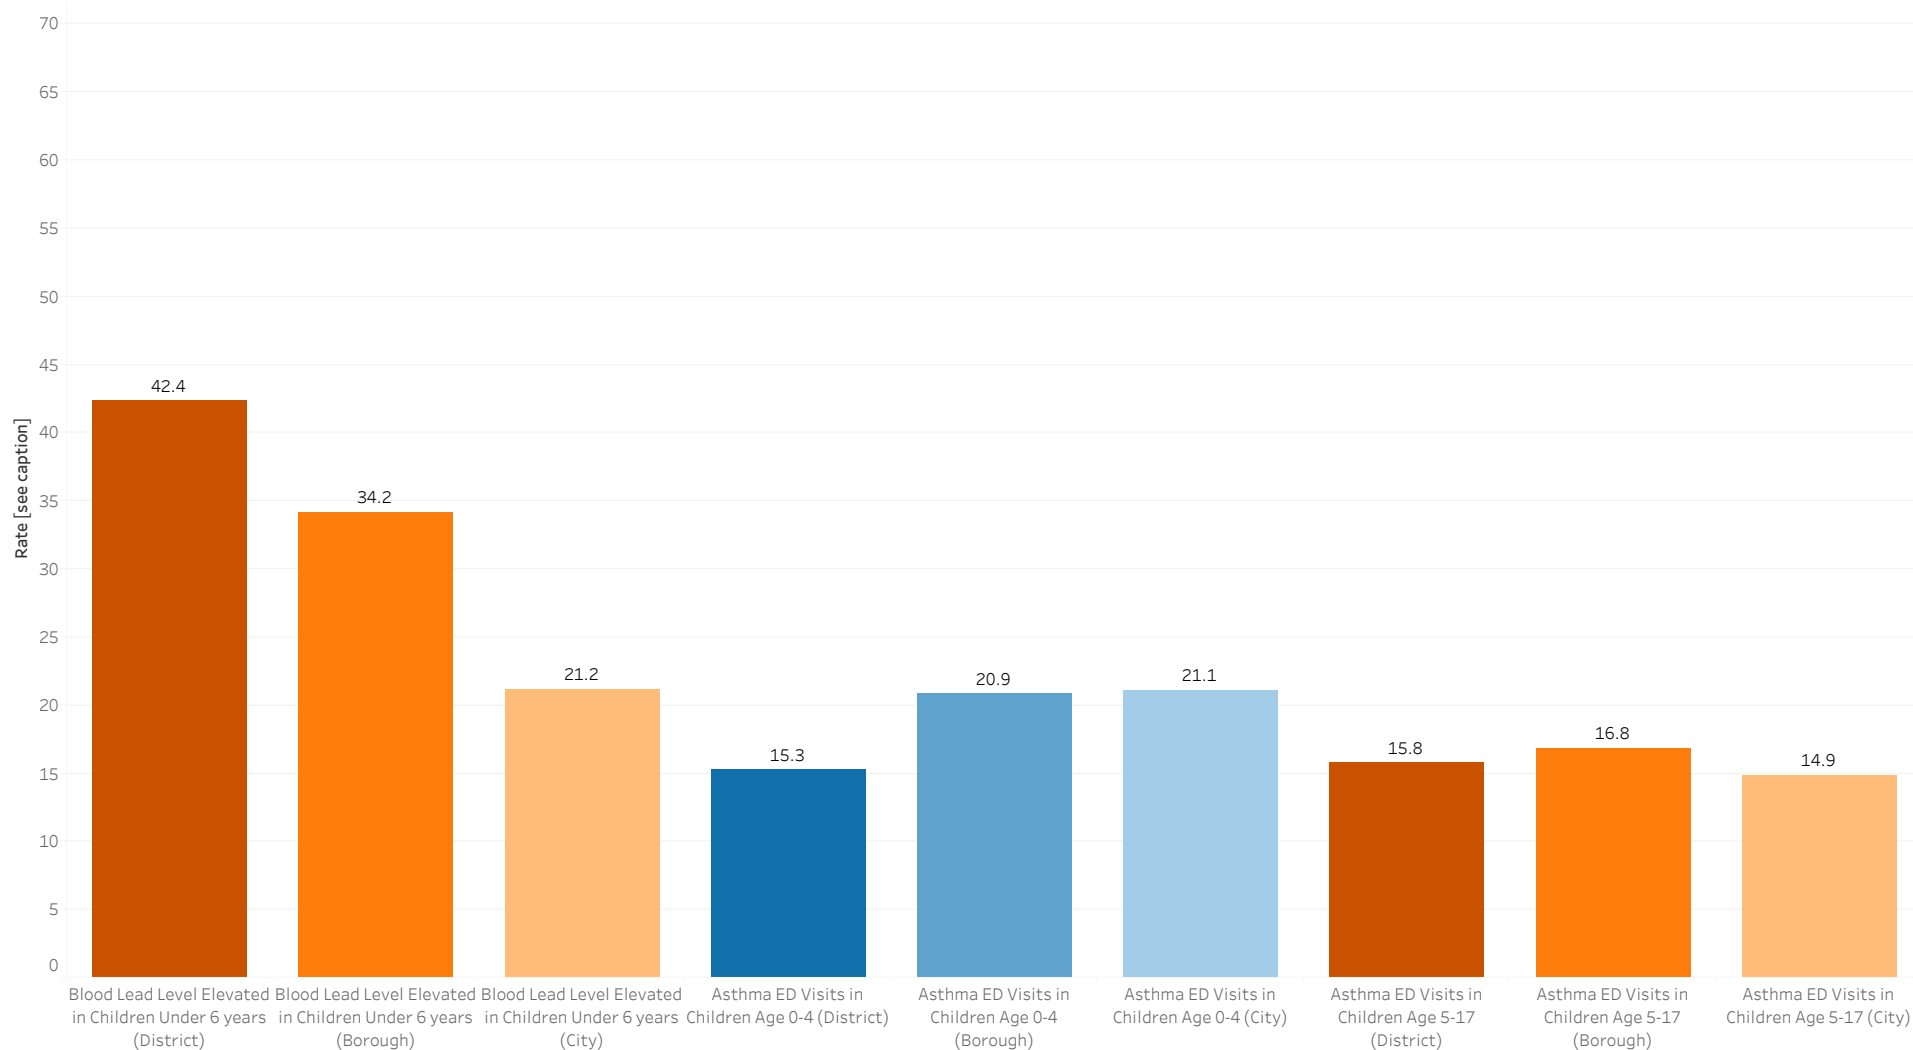

Blood lead level elevated (≥ 5 $\mu\text{g}/\text{dL}$) is presented as the average rate per 1,000 residents tested. Asthma Emergency Department visits are presented as average annual rate per 100,000 residents in the specified age group.

Childhood Asthma and Lead Exposure : School District #12 (High Bridge - Morrisania, Hunts Point - Mott Haven, Fordham - Bronx Park, Willowbrook, Pelham - Throgs Neck, and Northeast Bronx), Bronx

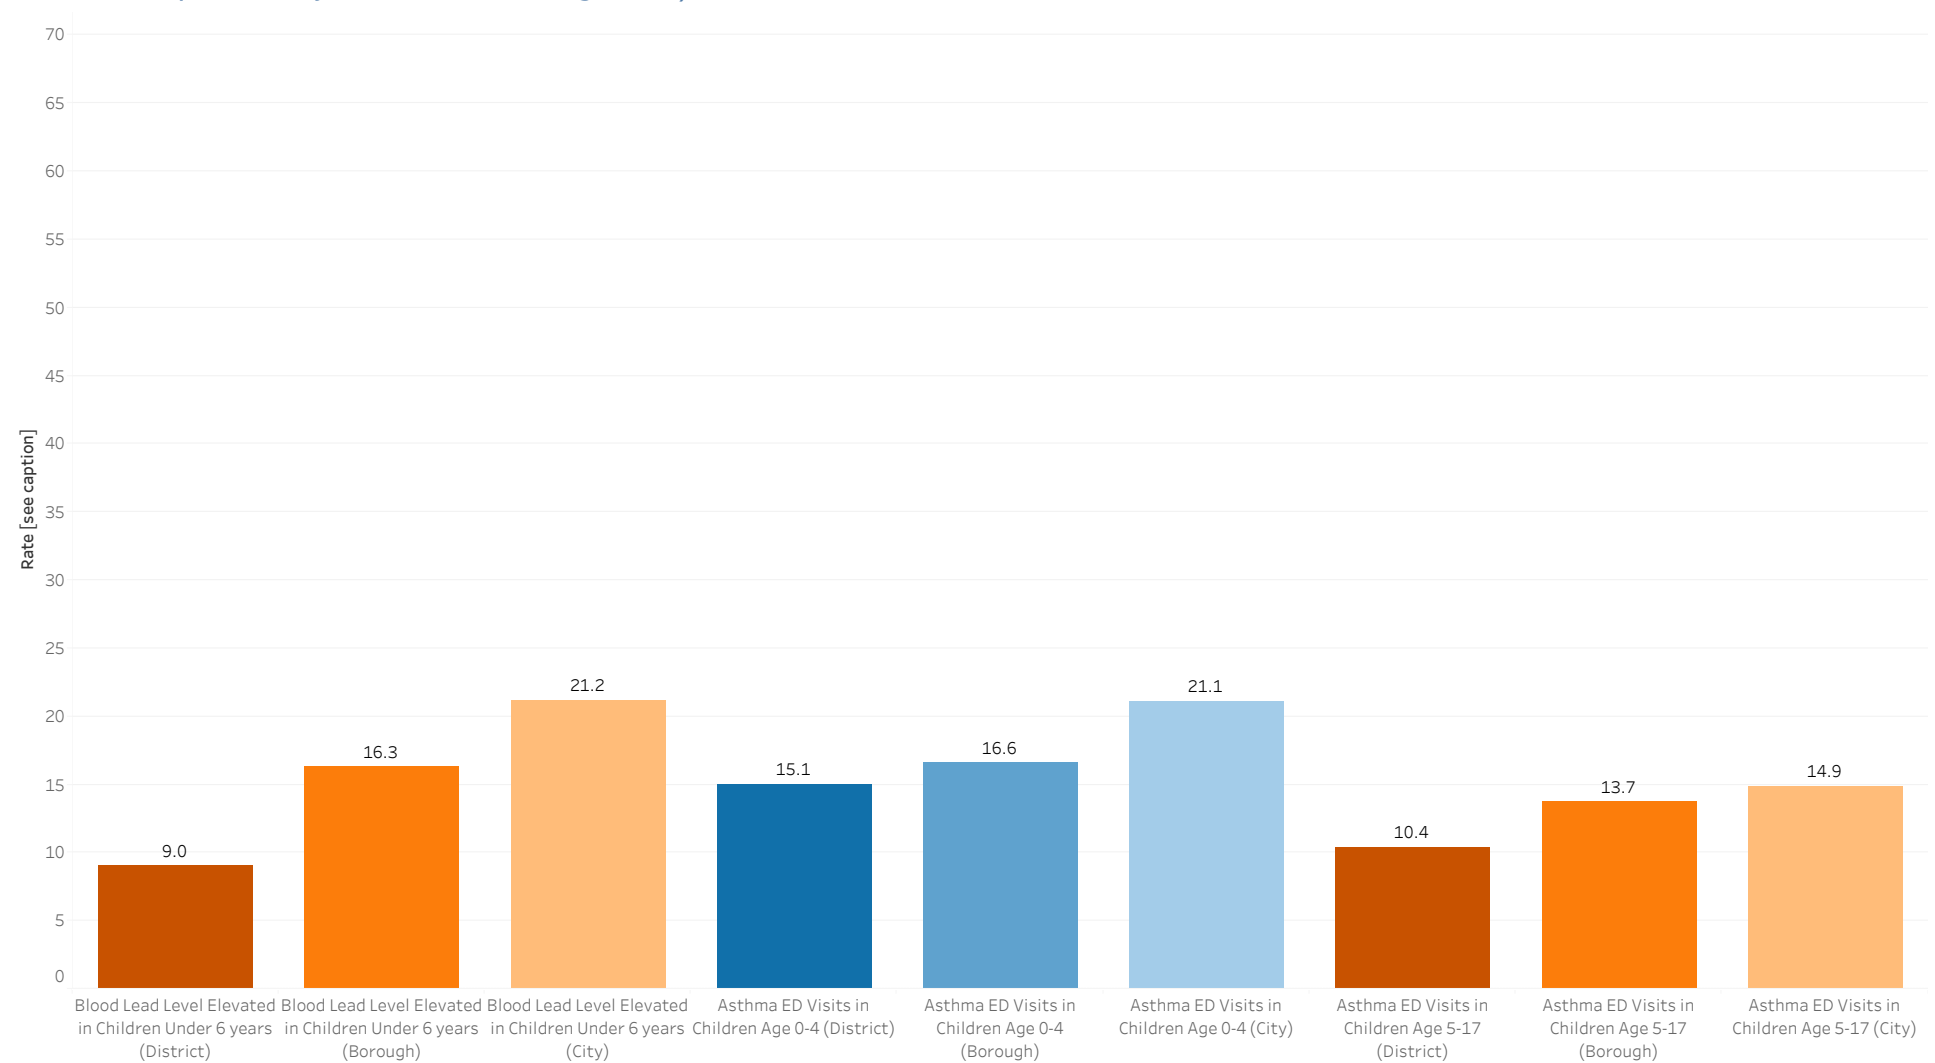

Blood lead level elevated (≥ 5 $\mu\text{g}/\text{dL}$) is presented as the average rate per 1,000 residents tested. Asthma Emergency Department visits are presented as average annual rate per 100,000 residents in the specified age group.

Childhood Asthma and Lead Exposure : School District #13 (Union Square - Lower East Side, Lower Manhattan, Greenwich Village - Soho, Gramercy Park - Murray Hill, Downtown - Heights - Slope, Williamsburg - Bushwick, Greenpoint, Bedford Stuyvesant - Crown Heights, Coney Island - Sheepshead Bay, and Pelham - Throgs Neck), Brooklyn

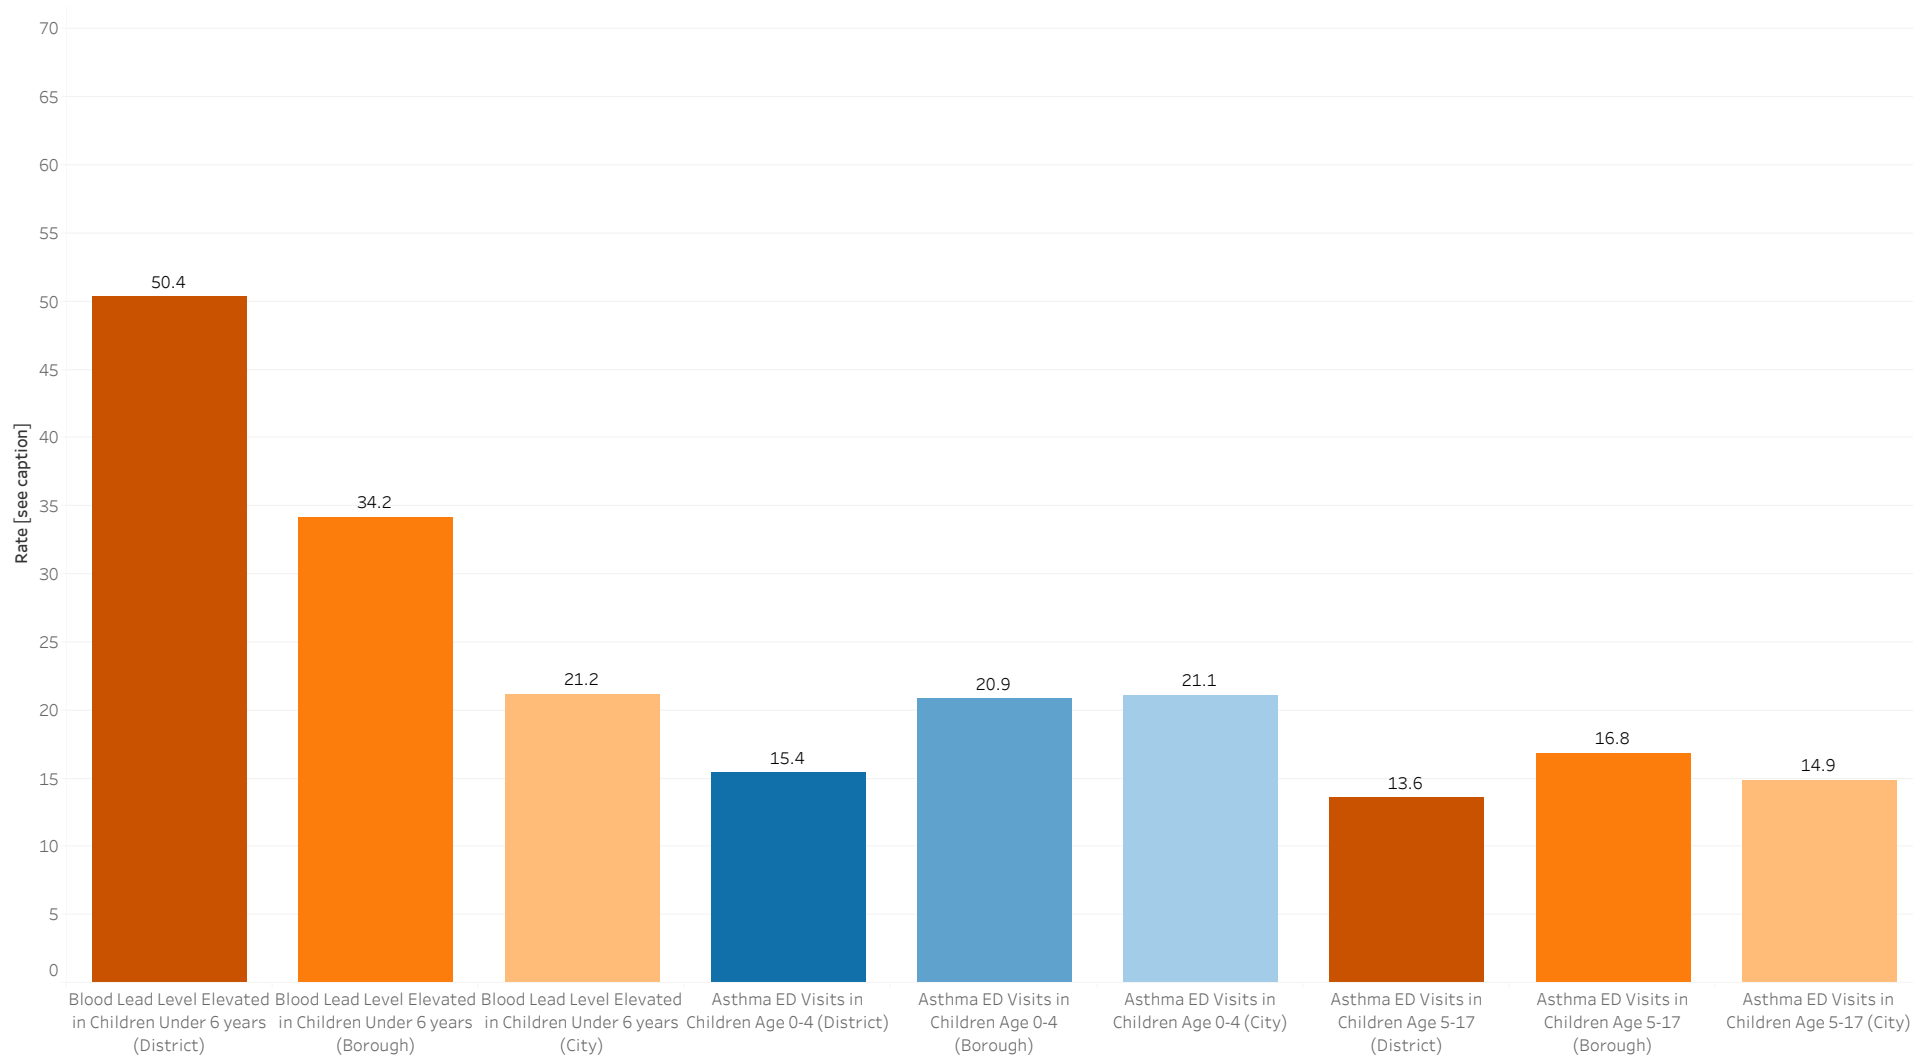

Blood lead level elevated (≥ 5 $\mu\text{g}/\text{dL}$) is presented as the average rate per 1,000 residents tested. Asthma Emergency Department visits are presented as average annual rate per 100,000 residents in the specified age group.

Childhood Asthma and Lead Exposure : School District #13 (Union Square - Lower East Side, Lower Manhattan, Greenwich Village - Soho, Gramercy Park - Murray Hill, Downtown - Heights - Slope, Williamsburg - Bushwick, Greenpoint, Bedford Stuyvesant - Crown Heights, Coney Island - Sheepshead Bay, and Pelham - Throgs Neck), Manhattan

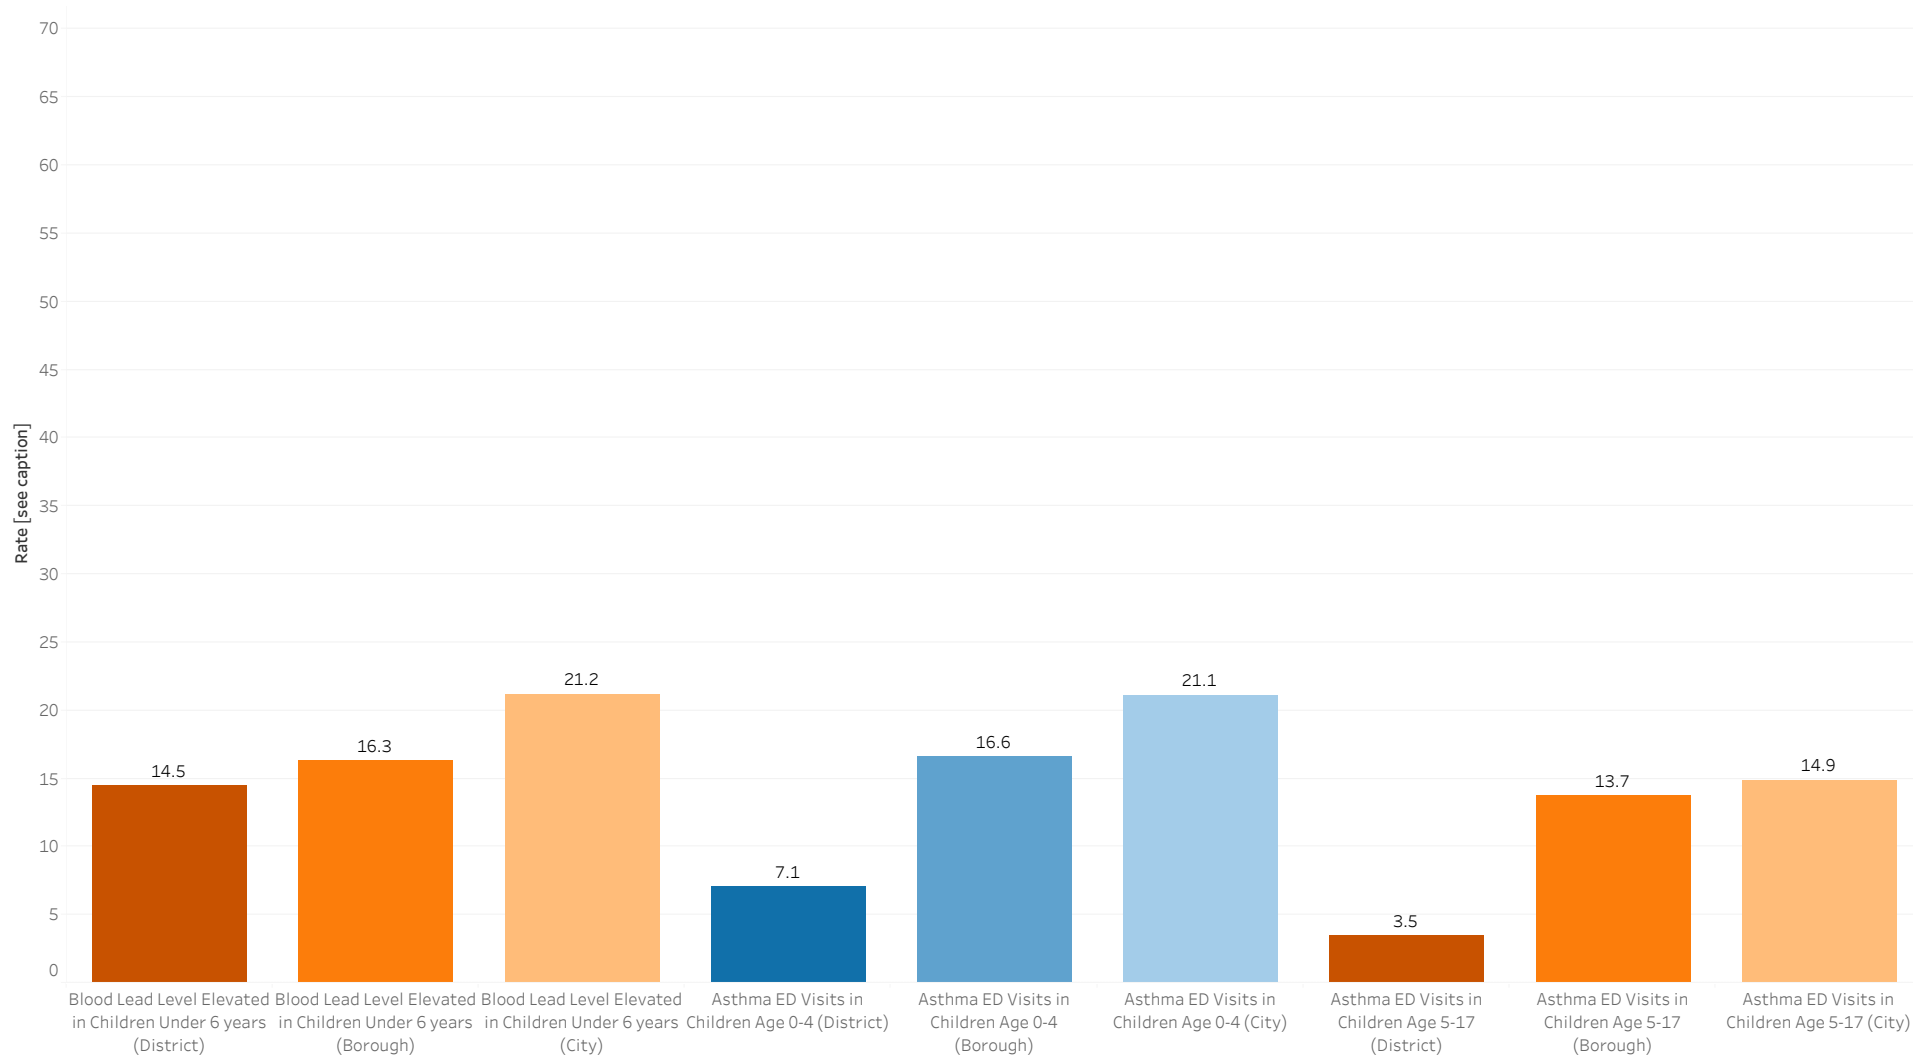

Blood lead level elevated (≥ 5 $\mu\text{g}/\text{dL}$) is presented as the average rate per 1,000 residents tested. Asthma Emergency Department visits are presented as average annual rate per 100,000 residents in the specified age group.

Childhood Asthma and Lead Exposure : School District #14 (Gramercy Park - Murray Hill, East Harlem, Downtown - Heights - Slope, Williamsburg - Bushwick, Greenpoint, Pelham - Throgs Neck, and Sunset Park), Brooklyn

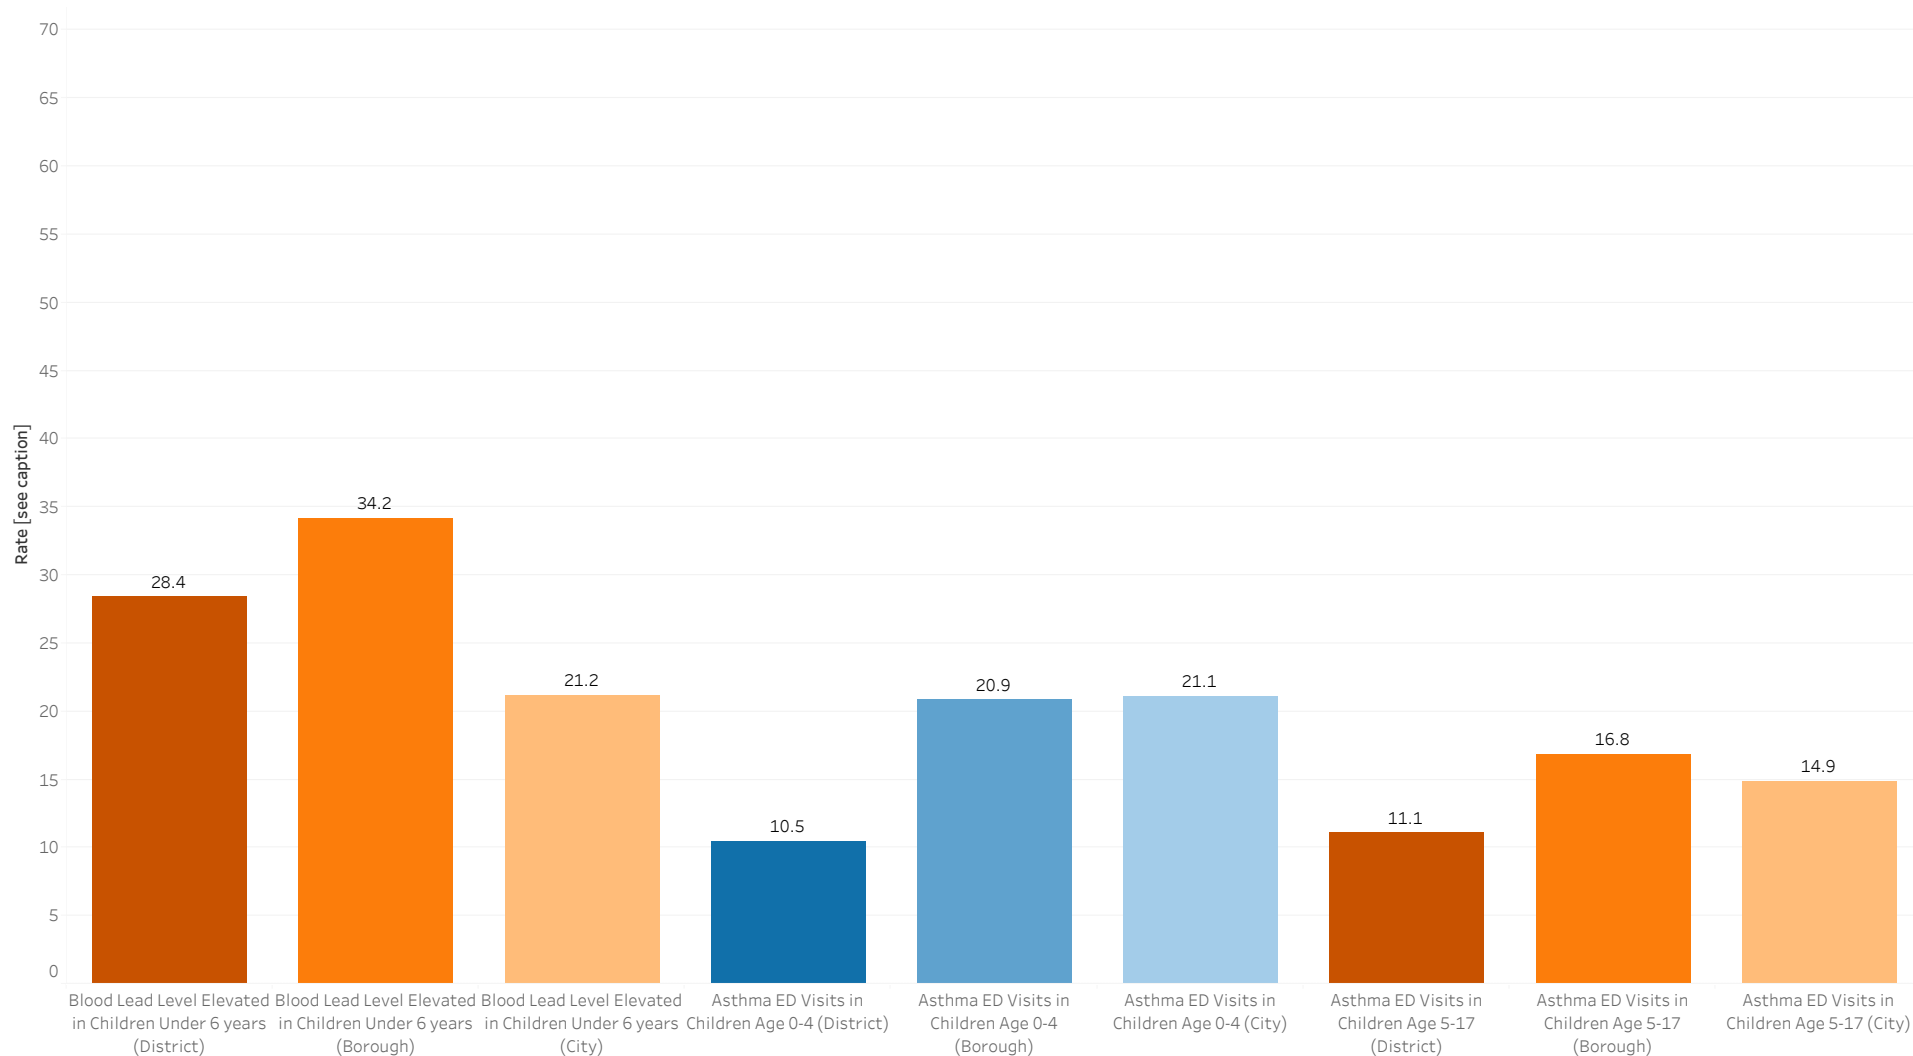

Blood lead level elevated (≥ 5 $\mu\text{g}/\text{dL}$) is presented as the average rate per 1,000 residents tested. Asthma Emergency Department visits are presented as average annual rate per 100,000 residents in the specified age group.

Childhood Asthma and Lead Exposure : School District #14 (Gramercy Park - Murray Hill, East Harlem, Downtown - Heights - Slope, Williamsburg - Bushwick, Greenpoint, Pelham - Throgs Neck, and Sunset Park), Manhattan

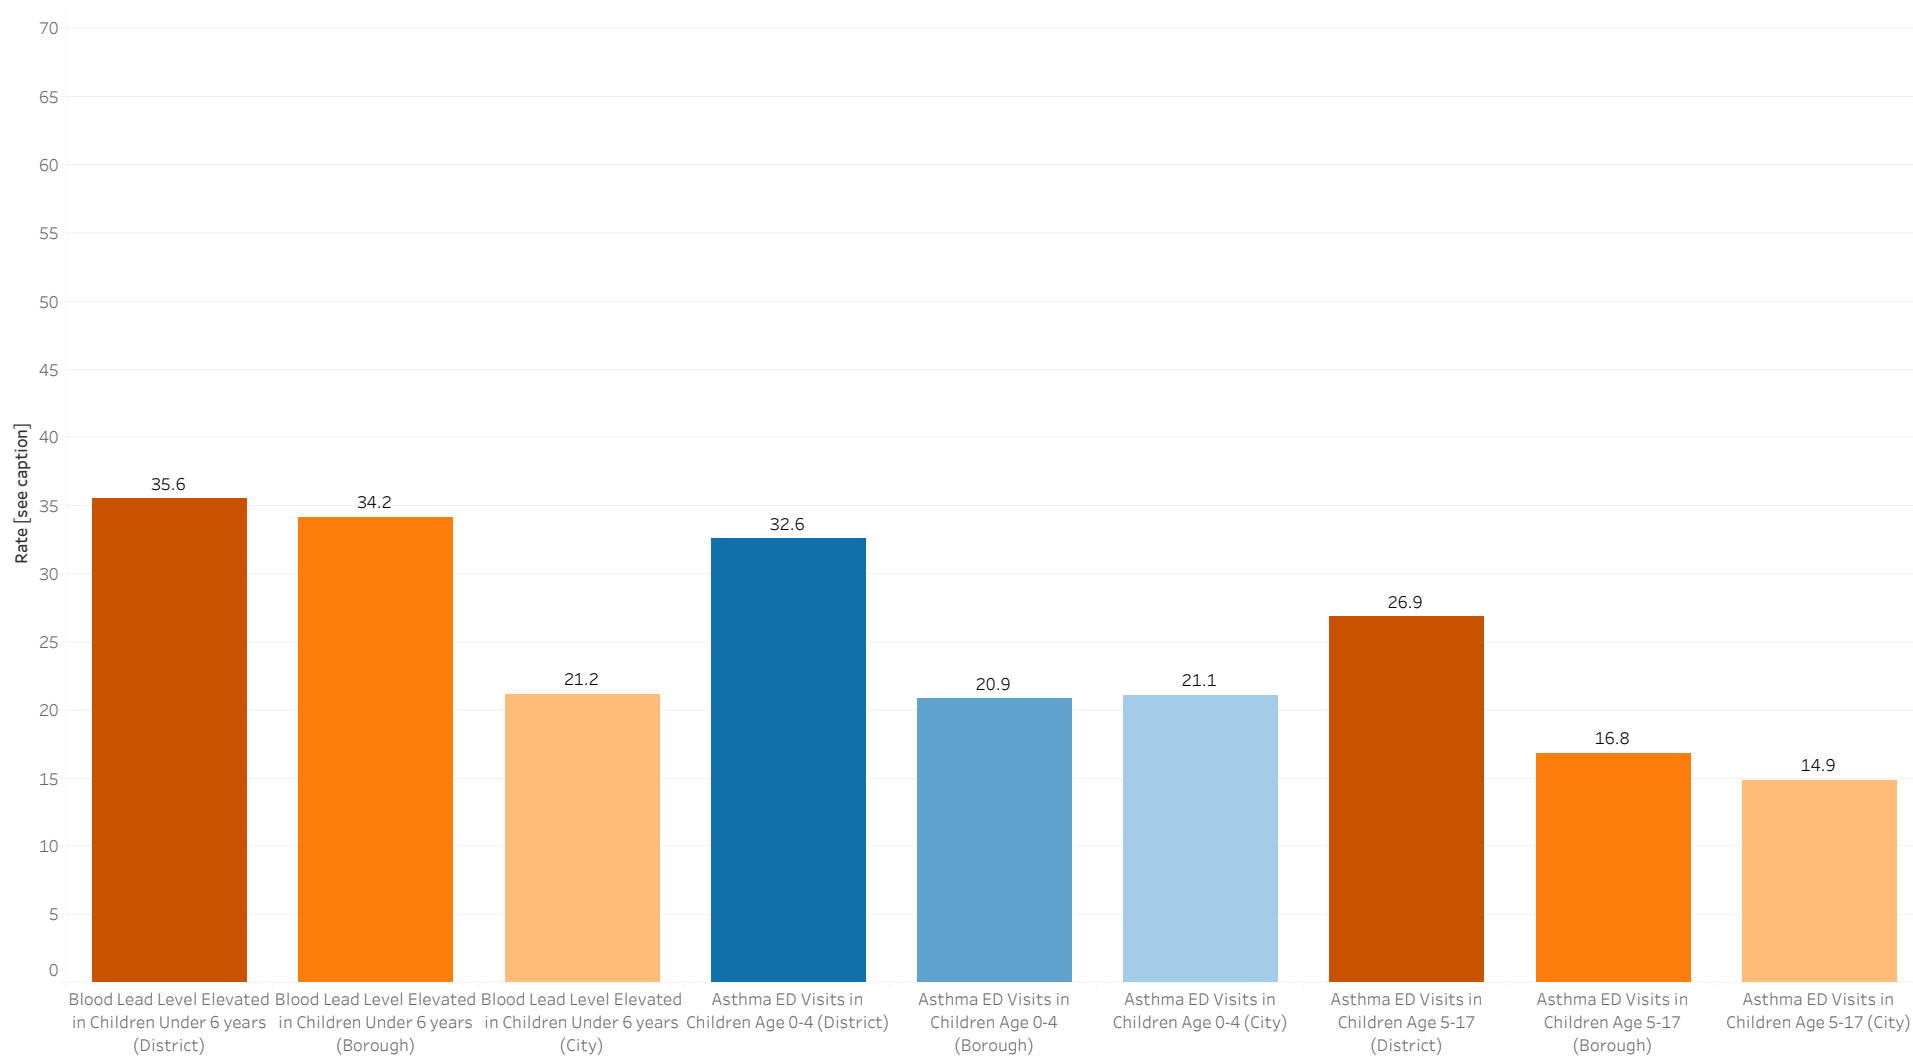

Blood lead level elevated (≥ 5 $\mu\text{g}/\text{dL}$) is presented as the average rate per 1,000 residents tested. Asthma Emergency Department visits are presented as average annual rate per 100,000 residents in the specified age group.

Childhood Asthma and Lead Exposure : School District #15 (Downtown - Heights - Slope, Coney Island - Sheepshead Bay, Borough Park, Bensonhurst - Bay Ridge, and Sunset Park), Brooklyn

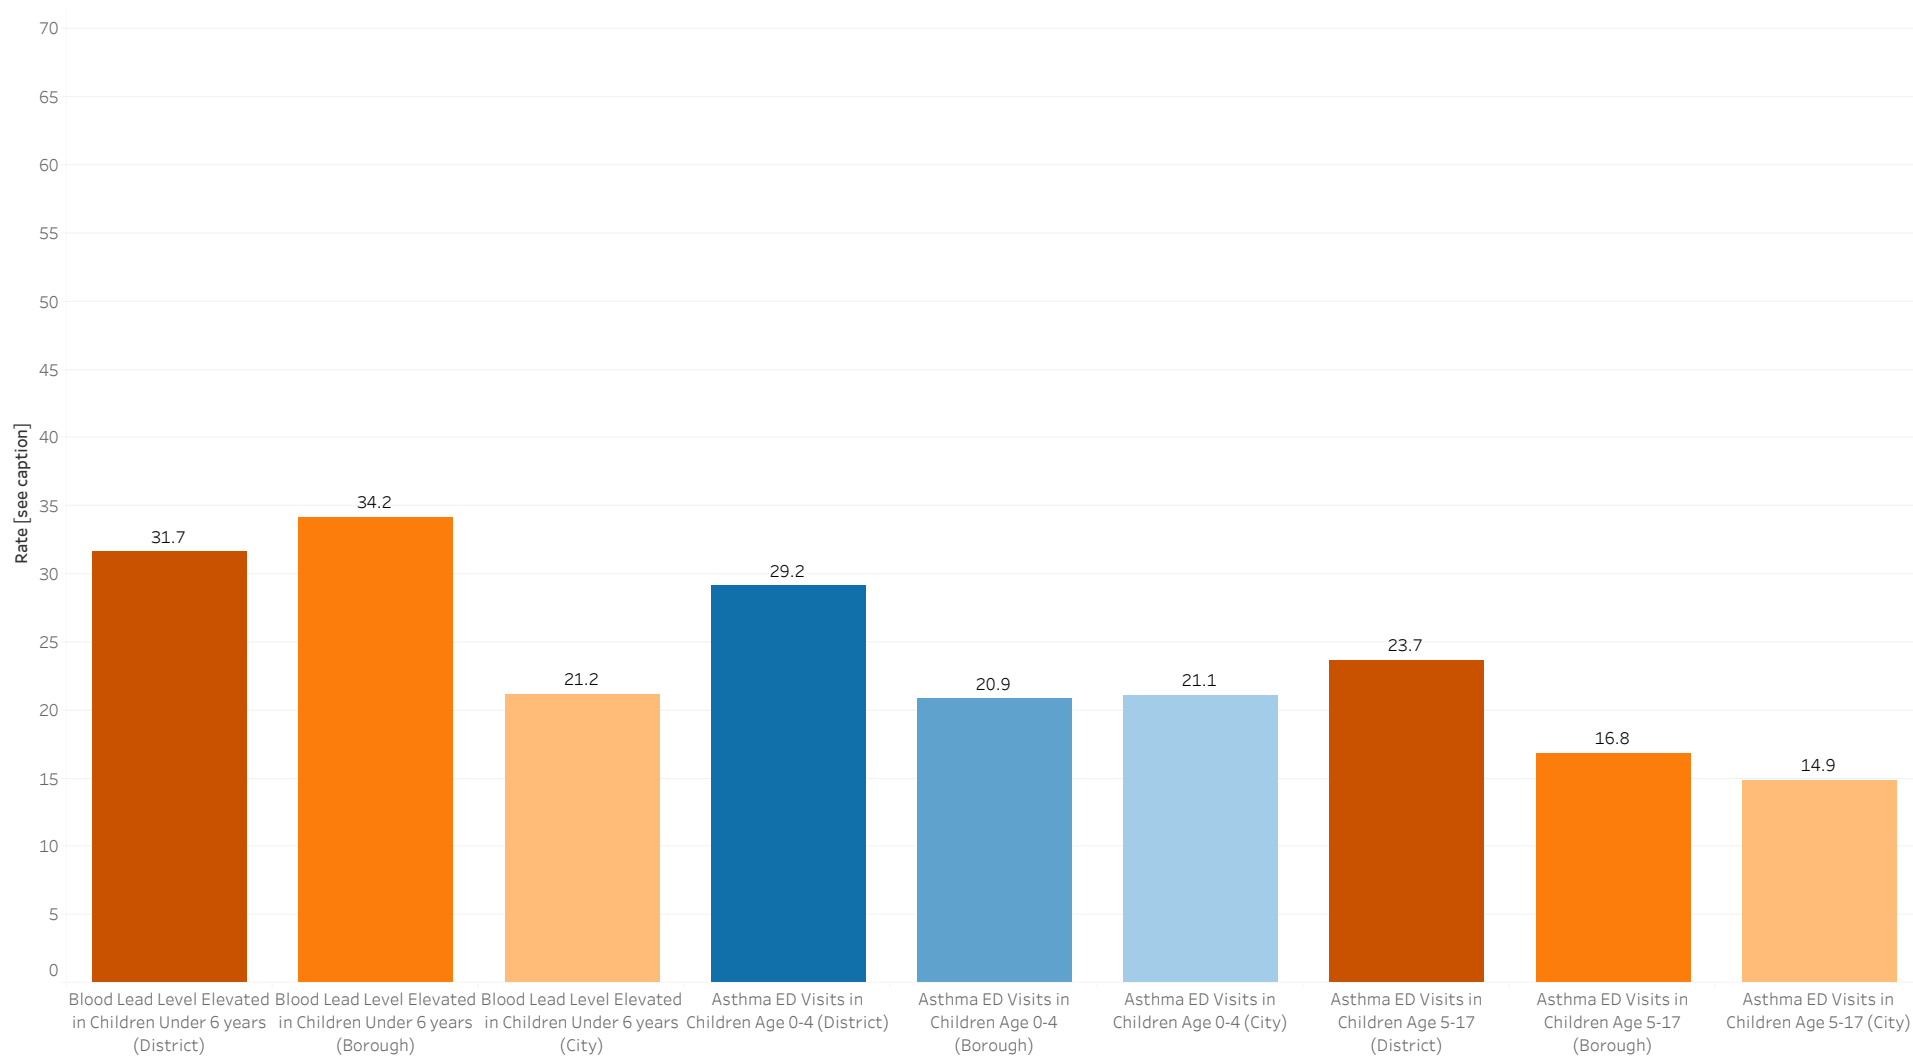

Blood lead level elevated (≥ 5 $\mu\text{g}/\text{dL}$) is presented as the average rate per 1,000 residents tested. Asthma Emergency Department visits are presented as average annual rate per 100,000 residents in the specified age group.

Childhood Asthma and Lead Exposure : School District #16 (Williamsburg - Bushwick, Bedford Stuyvesant - Crown Heights, Pelham - Throgs Neck, and Sunset Park), Brooklyn

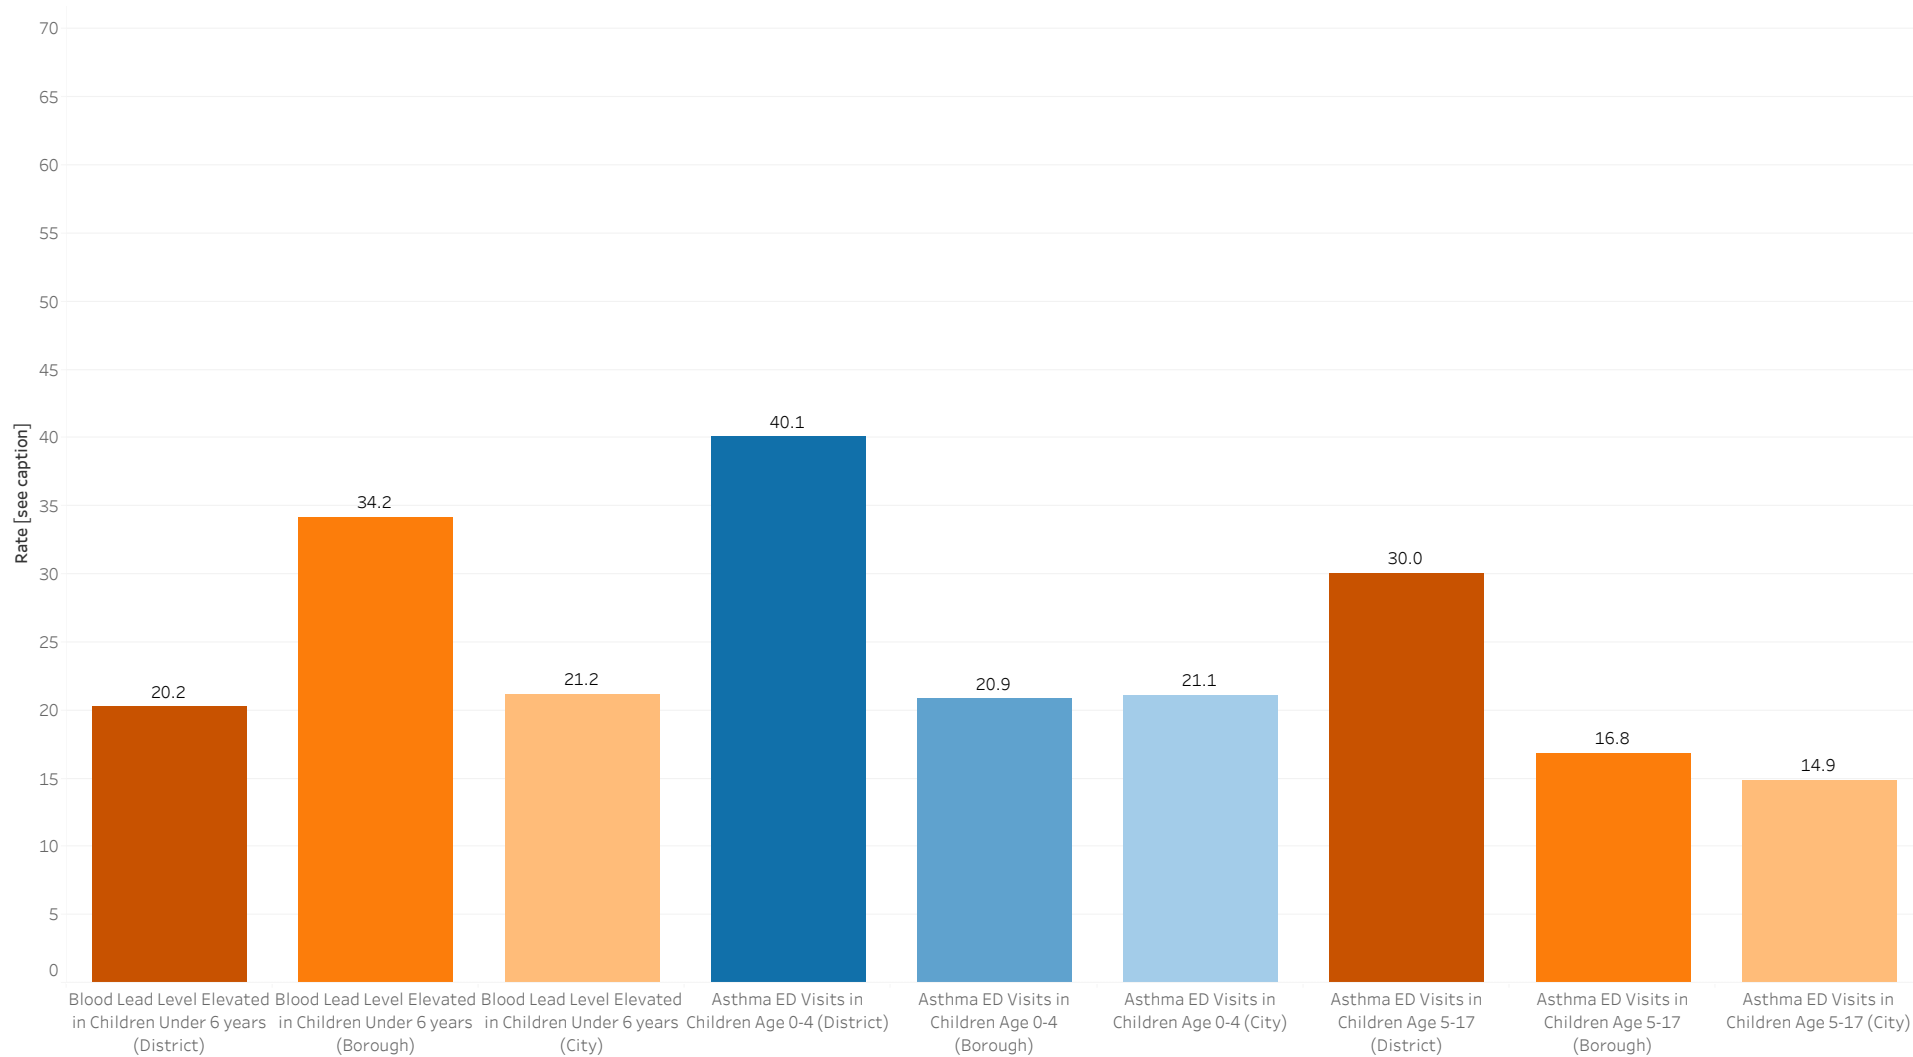

Blood lead level elevated (≥ 5 $\mu\text{g}/\text{dL}$) is presented as the average rate per 1,000 residents tested. Asthma Emergency Department visits are presented as average annual rate per 100,000 residents in the specified age group.

Childhood Asthma and Lead Exposure : School District #17 (East Flatbush - Flatbush, Bedford Stuyvesant - Crown Heights, Coney Island - Sheepshead Bay, Sunset Park, Downtown - Heights - Slope, and Borough Park), Brooklyn

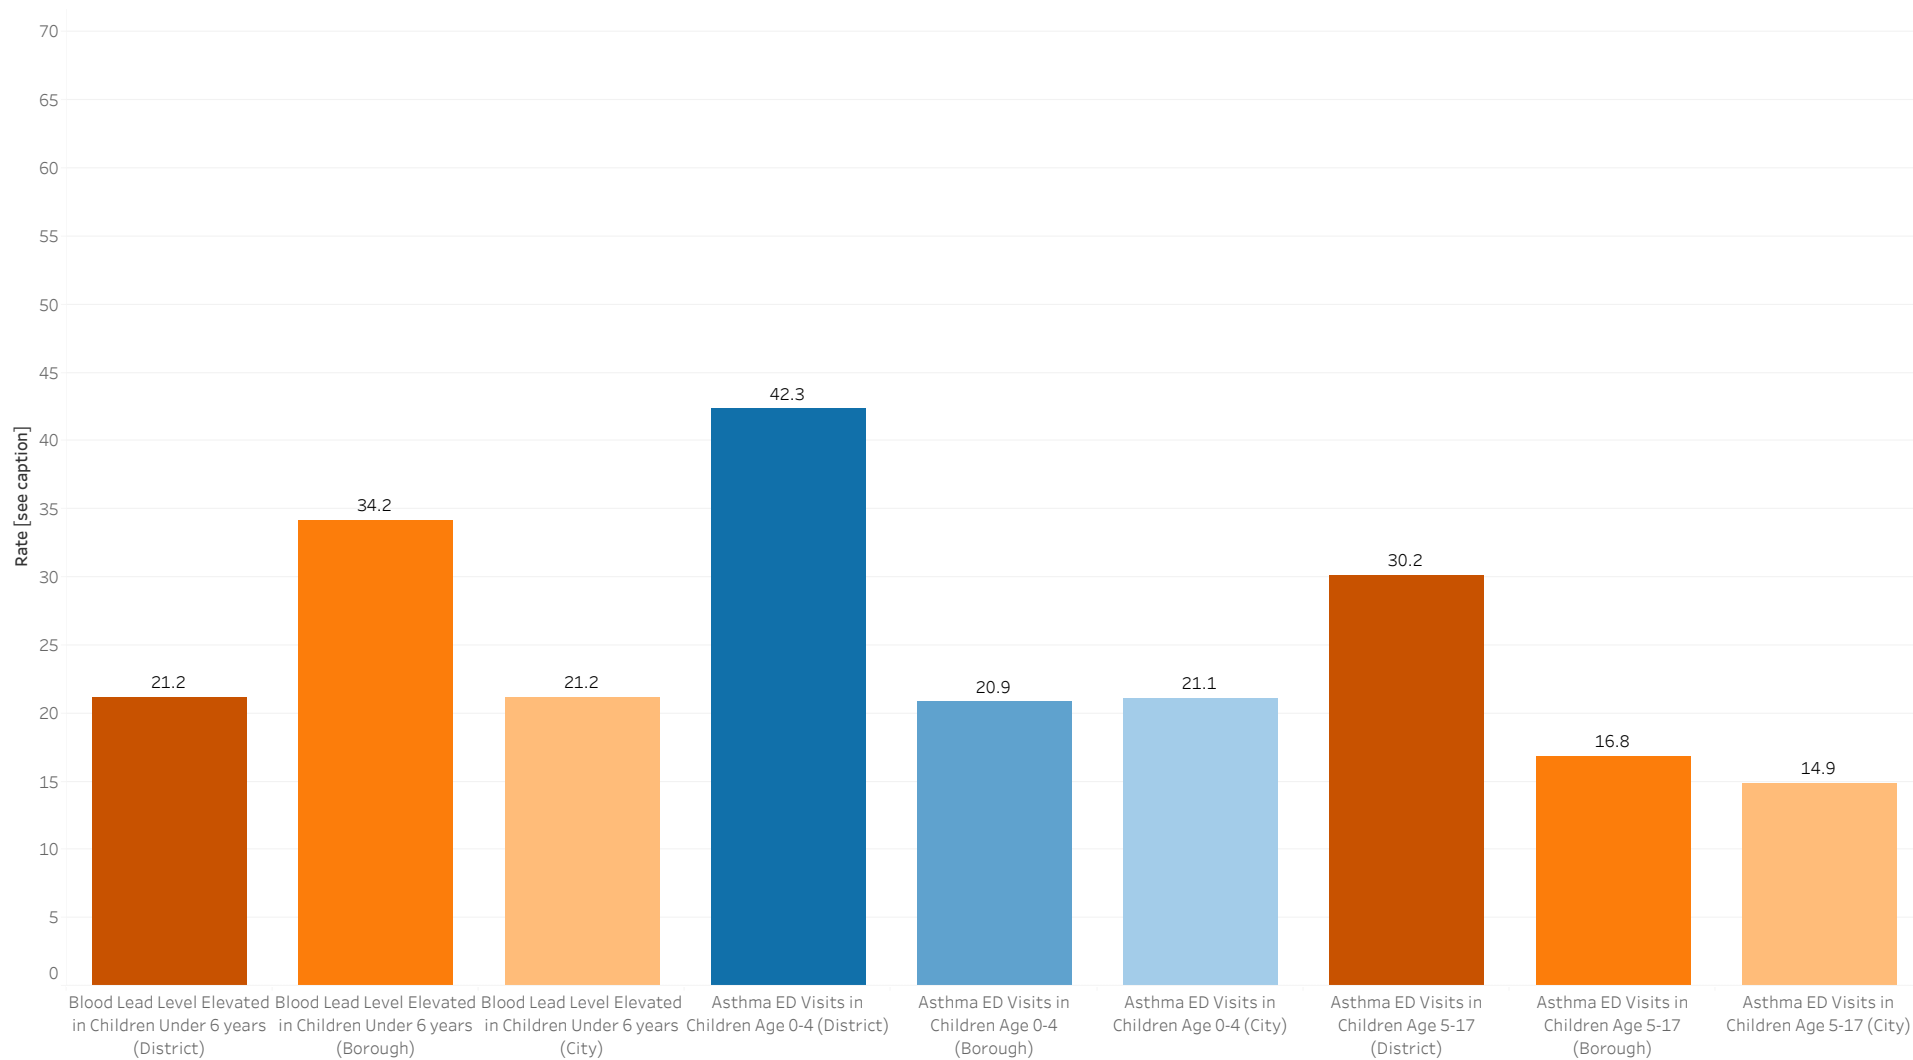

Blood lead level elevated (≥ 5 $\mu\text{g}/\text{dL}$) is presented as the average rate per 1,000 residents tested. Asthma Emergency Department visits are presented as average annual rate per 100,000 residents in the specified age group.

Childhood Asthma and Lead Exposure : School District #18 (East Flatbush - Flatbush, East New York, Bedford Stuyvesant - Crown Heights, Downtown - Heights - Slope, Canarsie - Flatlands, and Borough Park), Brooklyn

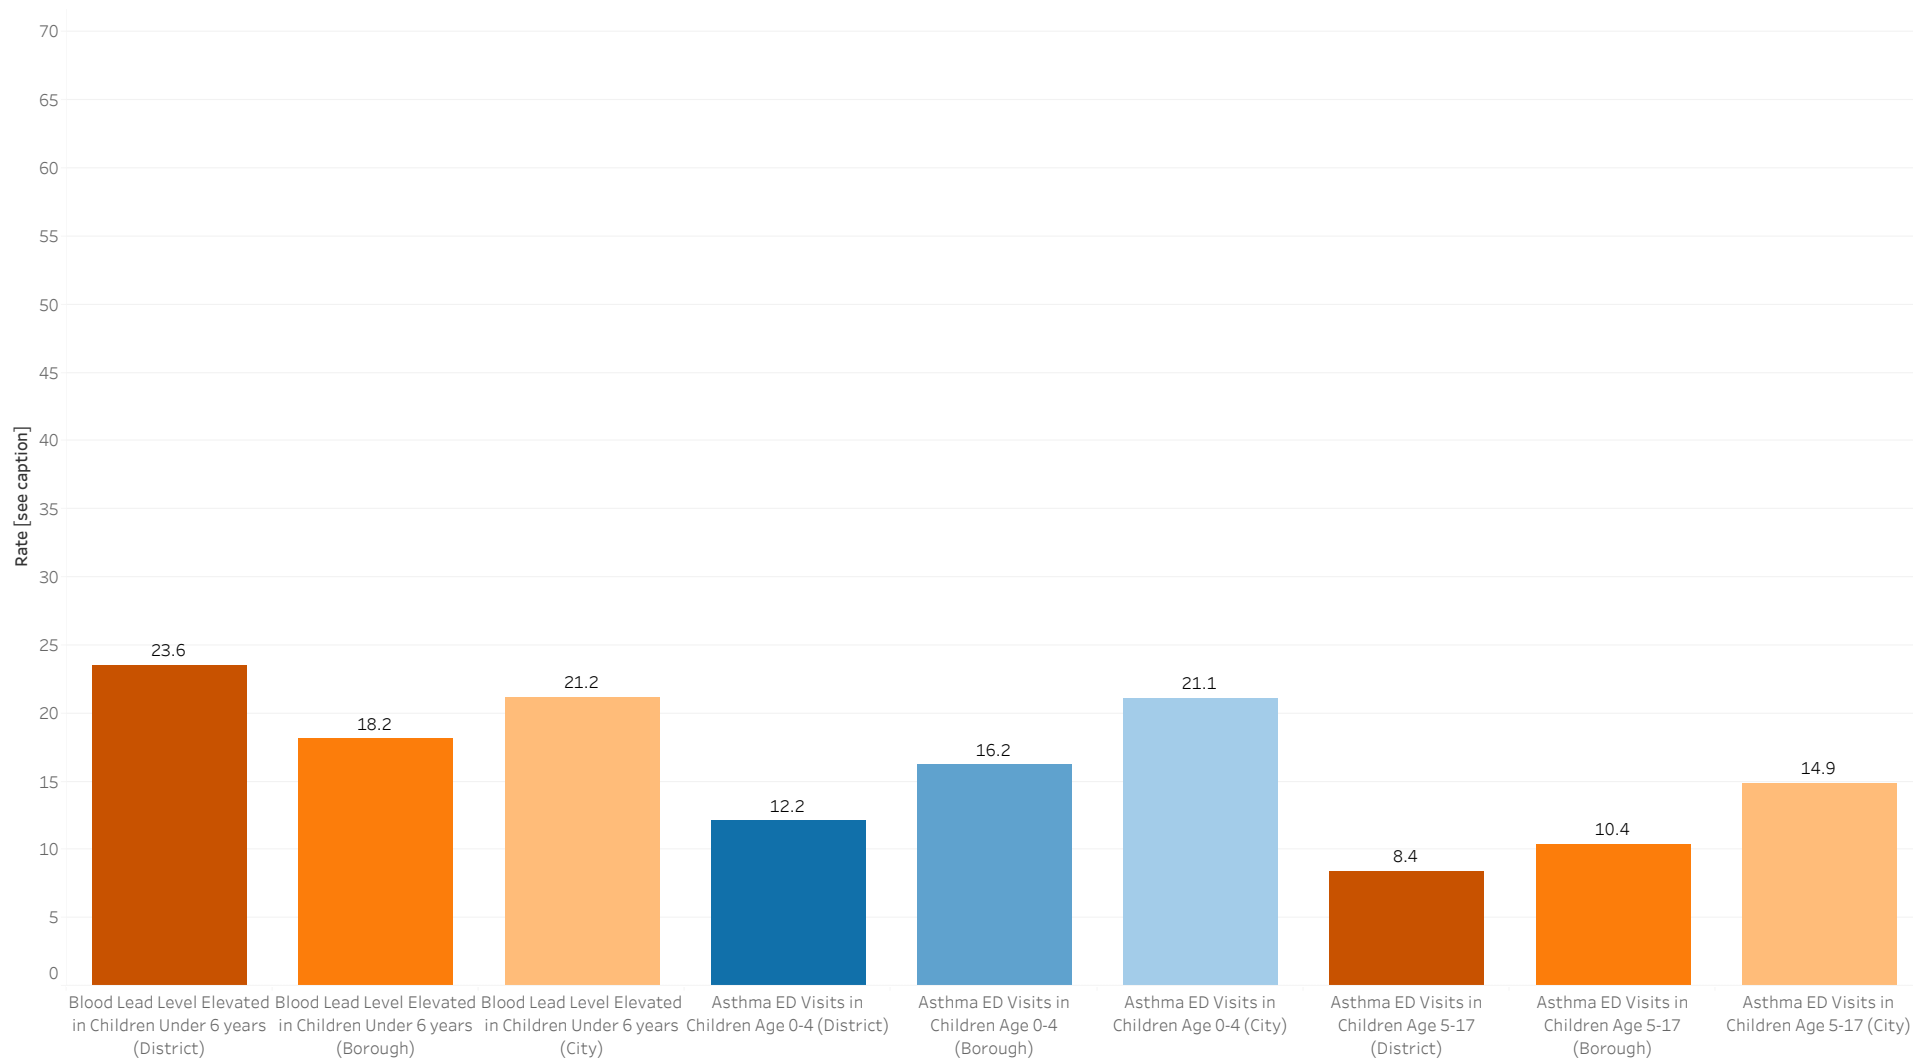

Blood lead level elevated (≥ 5 $\mu\text{g}/\text{dL}$) is presented as the average rate per 1,000 residents tested. Asthma Emergency Department visits are presented as average annual rate per 100,000 residents in the specified age group.

Childhood Asthma and Lead Exposure : School District #19 (East New York, Bedford Stuyvesant - Crown Heights, Canarsie - Flatlands, Sunset Park, Borough Park, Long Island City - Astoria, and Ridgewood - Forest Hills), Brooklyn

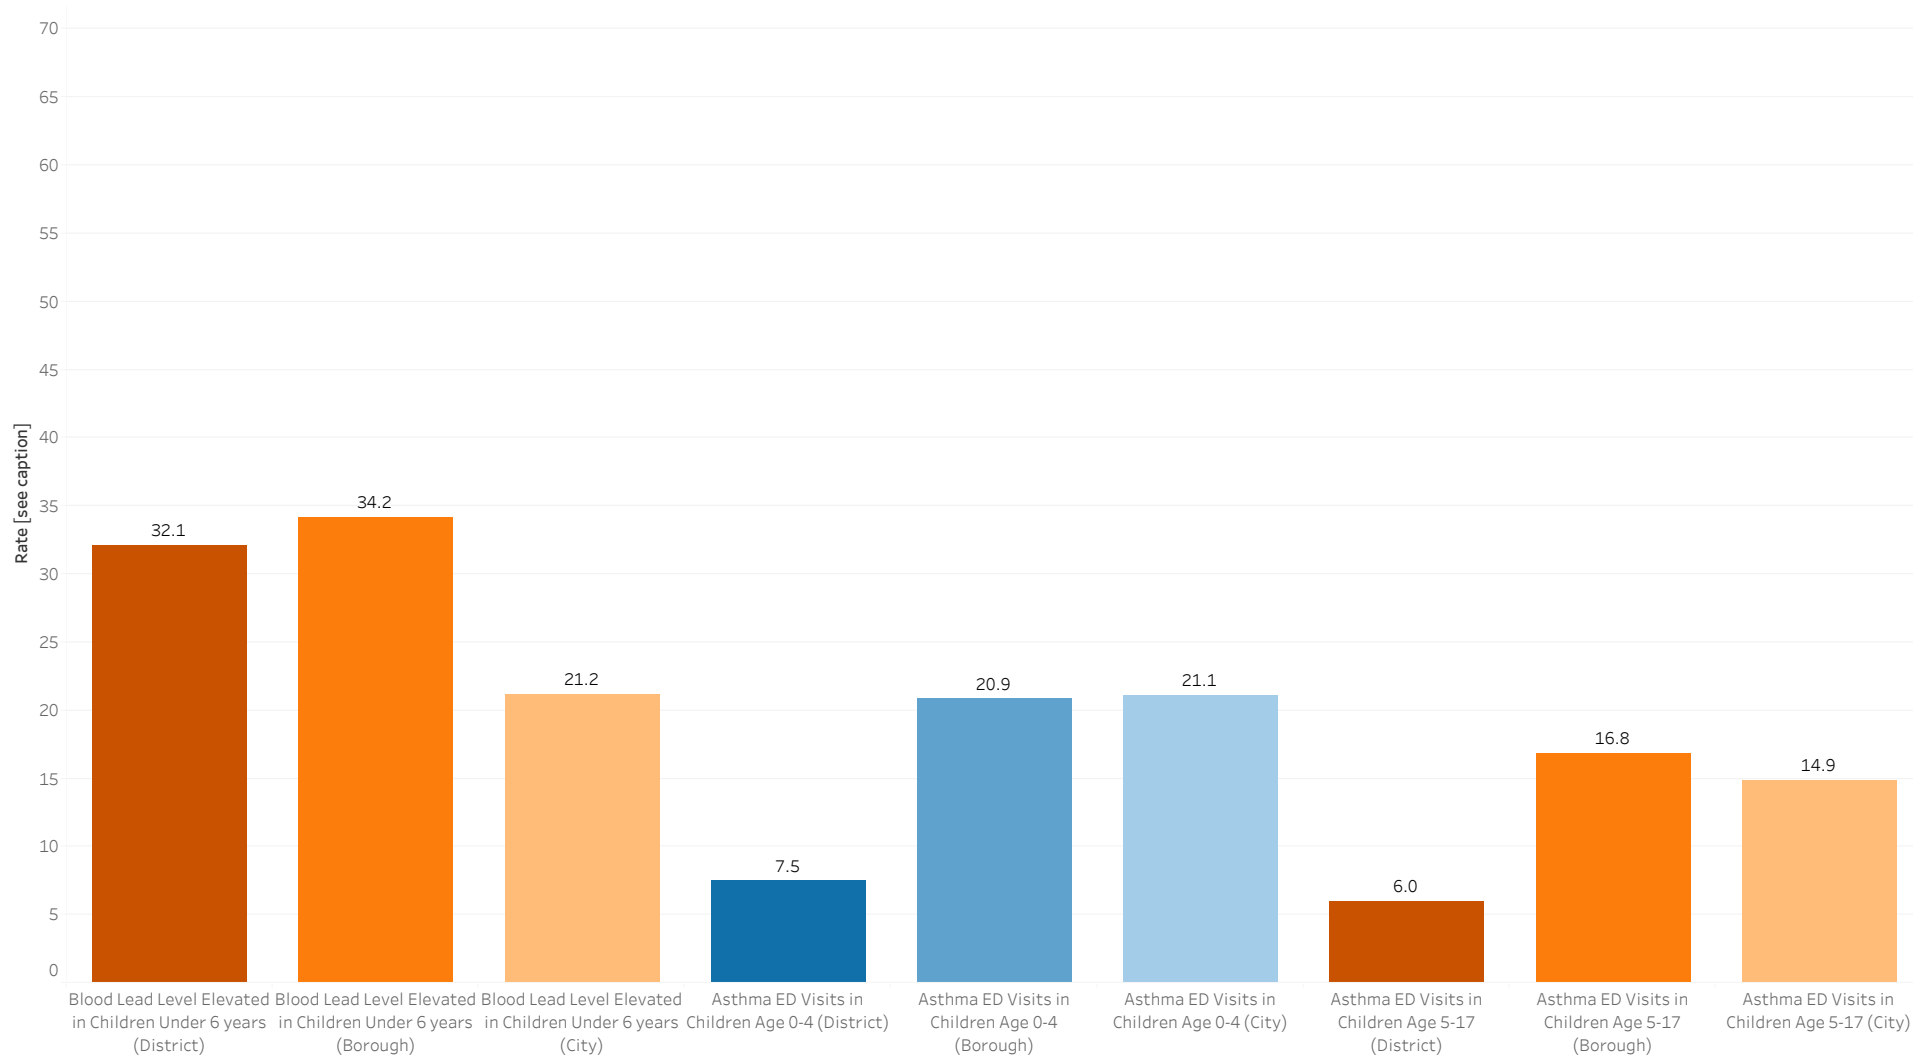

Blood lead level elevated (≥ 5 $\mu\text{g}/\text{dL}$) is presented as the average rate per 1,000 residents tested. Asthma Emergency Department visits are presented as average annual rate per 100,000 residents in the specified age group.

Childhood Asthma and Lead Exposure : School District #19 (East New York, Bedford Stuyvesant - Crown Heights, Canarsie - Flatlands, Sunset Park, Borough Park, Long Island City - Astoria, and Ridgewood - Forest Hills), Queens

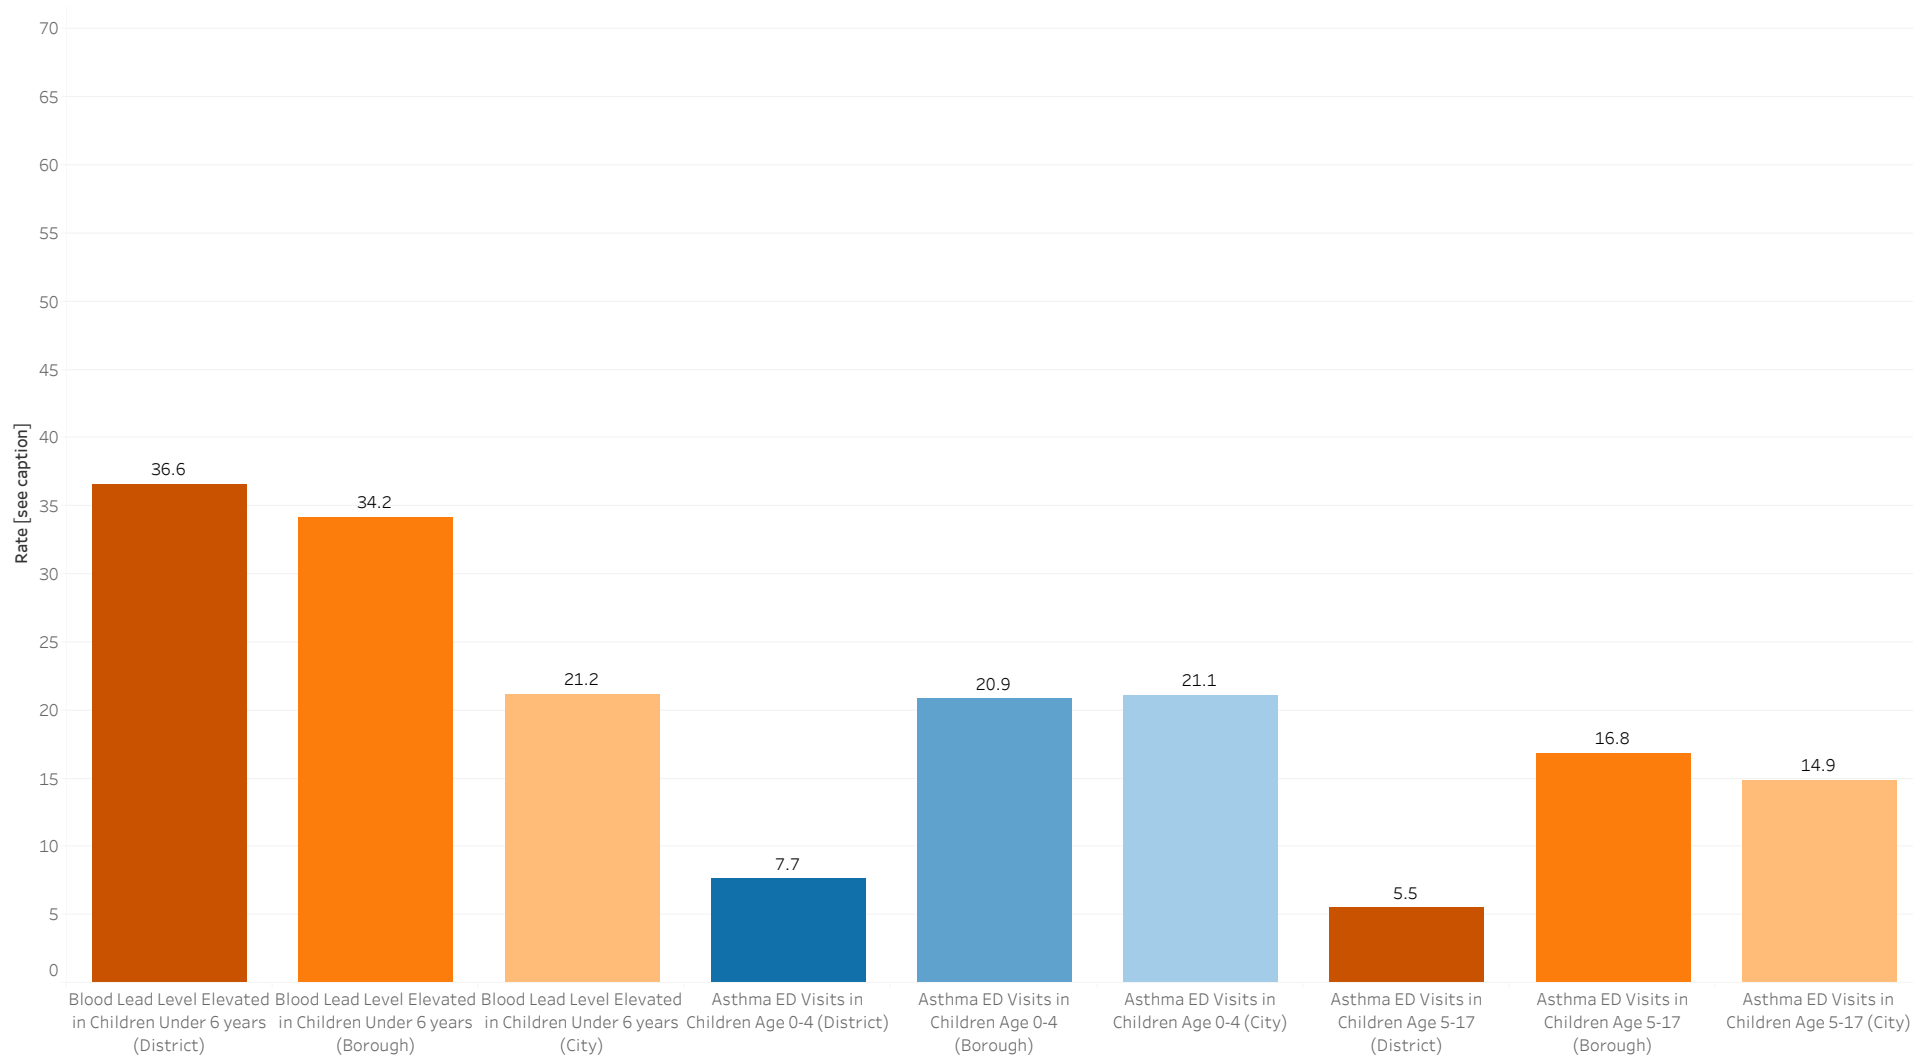

Blood lead level elevated (≥ 5 $\mu\text{g}/\text{dL}$) is presented as the average rate per 1,000 residents tested. Asthma Emergency Department visits are presented as average annual rate per 100,000 residents in the specified age group.

Childhood Asthma and Lead Exposure : School District #20 (Borough Park, Bensonhurst - Bay Ridge, East Flatbush - Flatbush, Sunset Park, Coney Island - Sheepshead Bay, and Bedford Stuyvesant - Crown Heights), Brooklyn

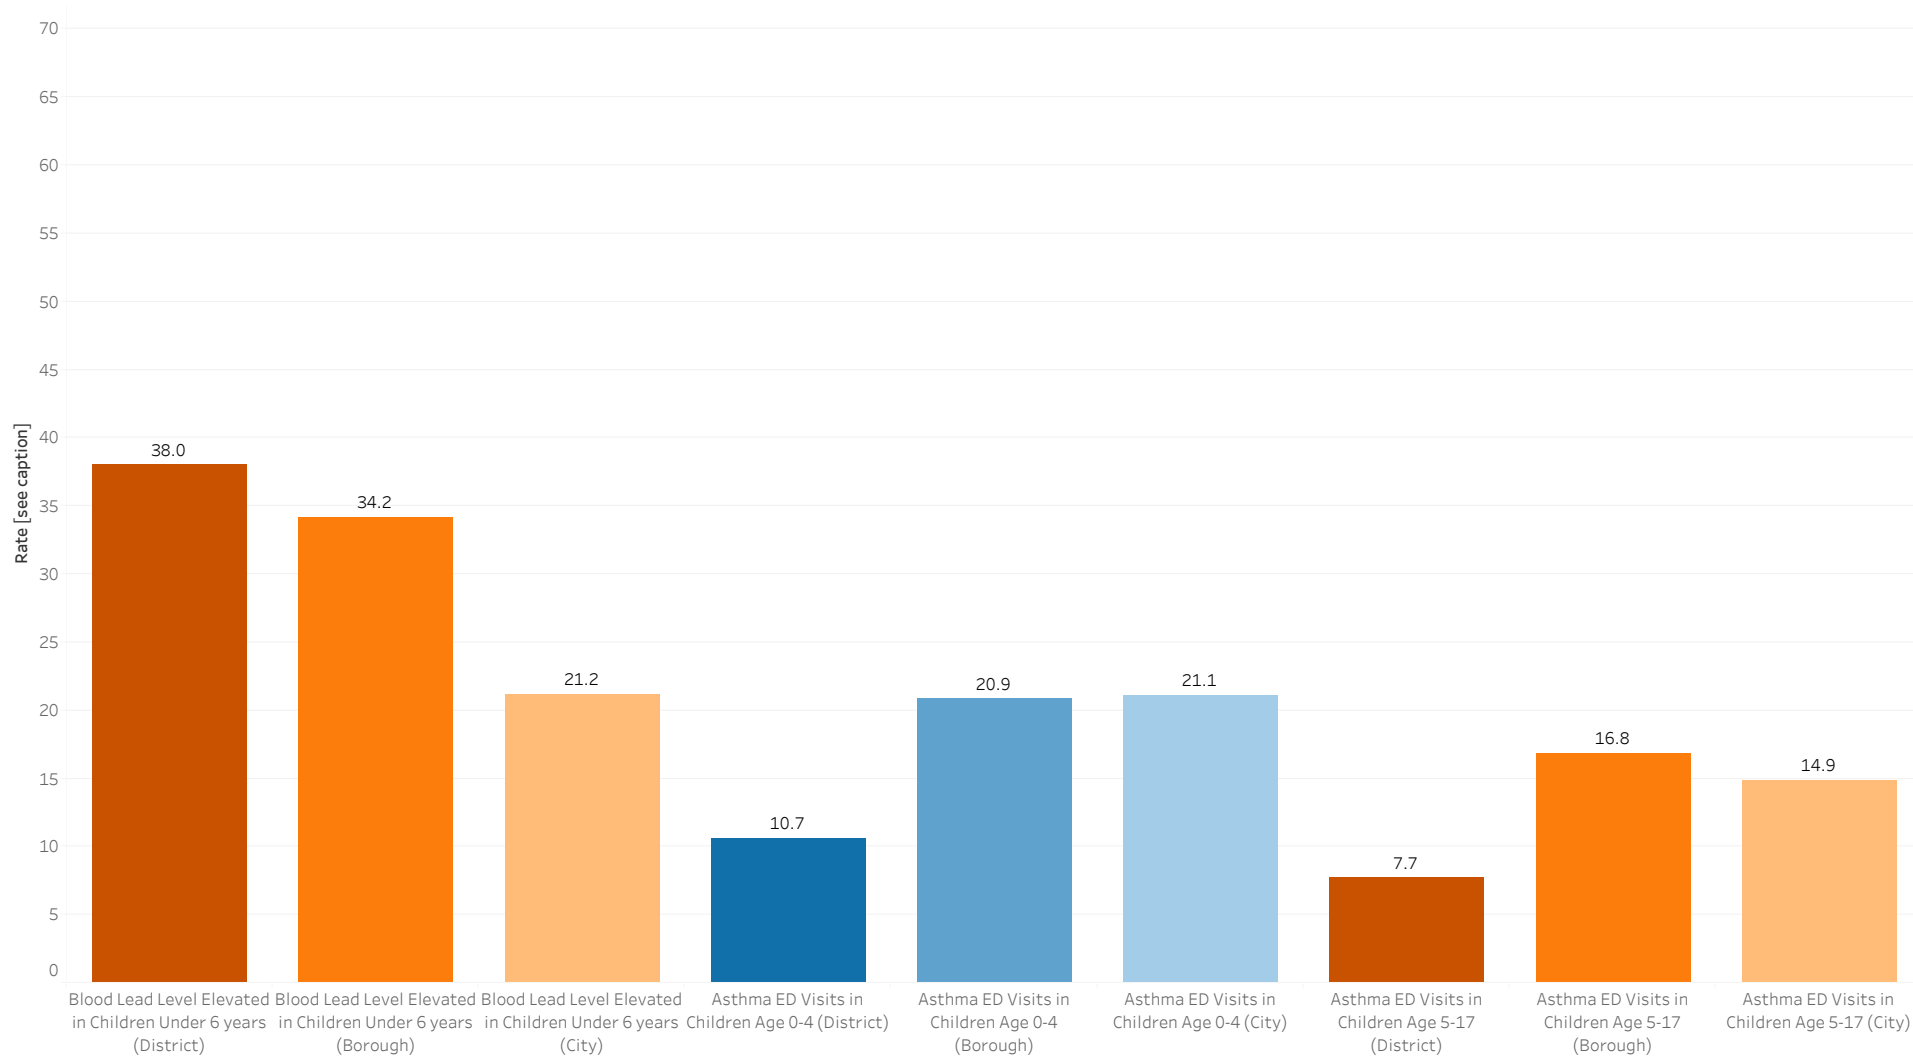

Blood lead level elevated (≥ 5 $\mu\text{g}/\text{dL}$) is presented as the average rate per 1,000 residents tested. Asthma Emergency Department visits are presented as average annual rate per 100,000 residents in the specified age group.

Childhood Asthma and Lead Exposure : School District #21 (Borough Park, East Flatbush - Flatbush, Bensonhurst - Bay Ridge, Coney Island - Sheepshead Bay, and Canarsie - Flatlands), Brooklyn

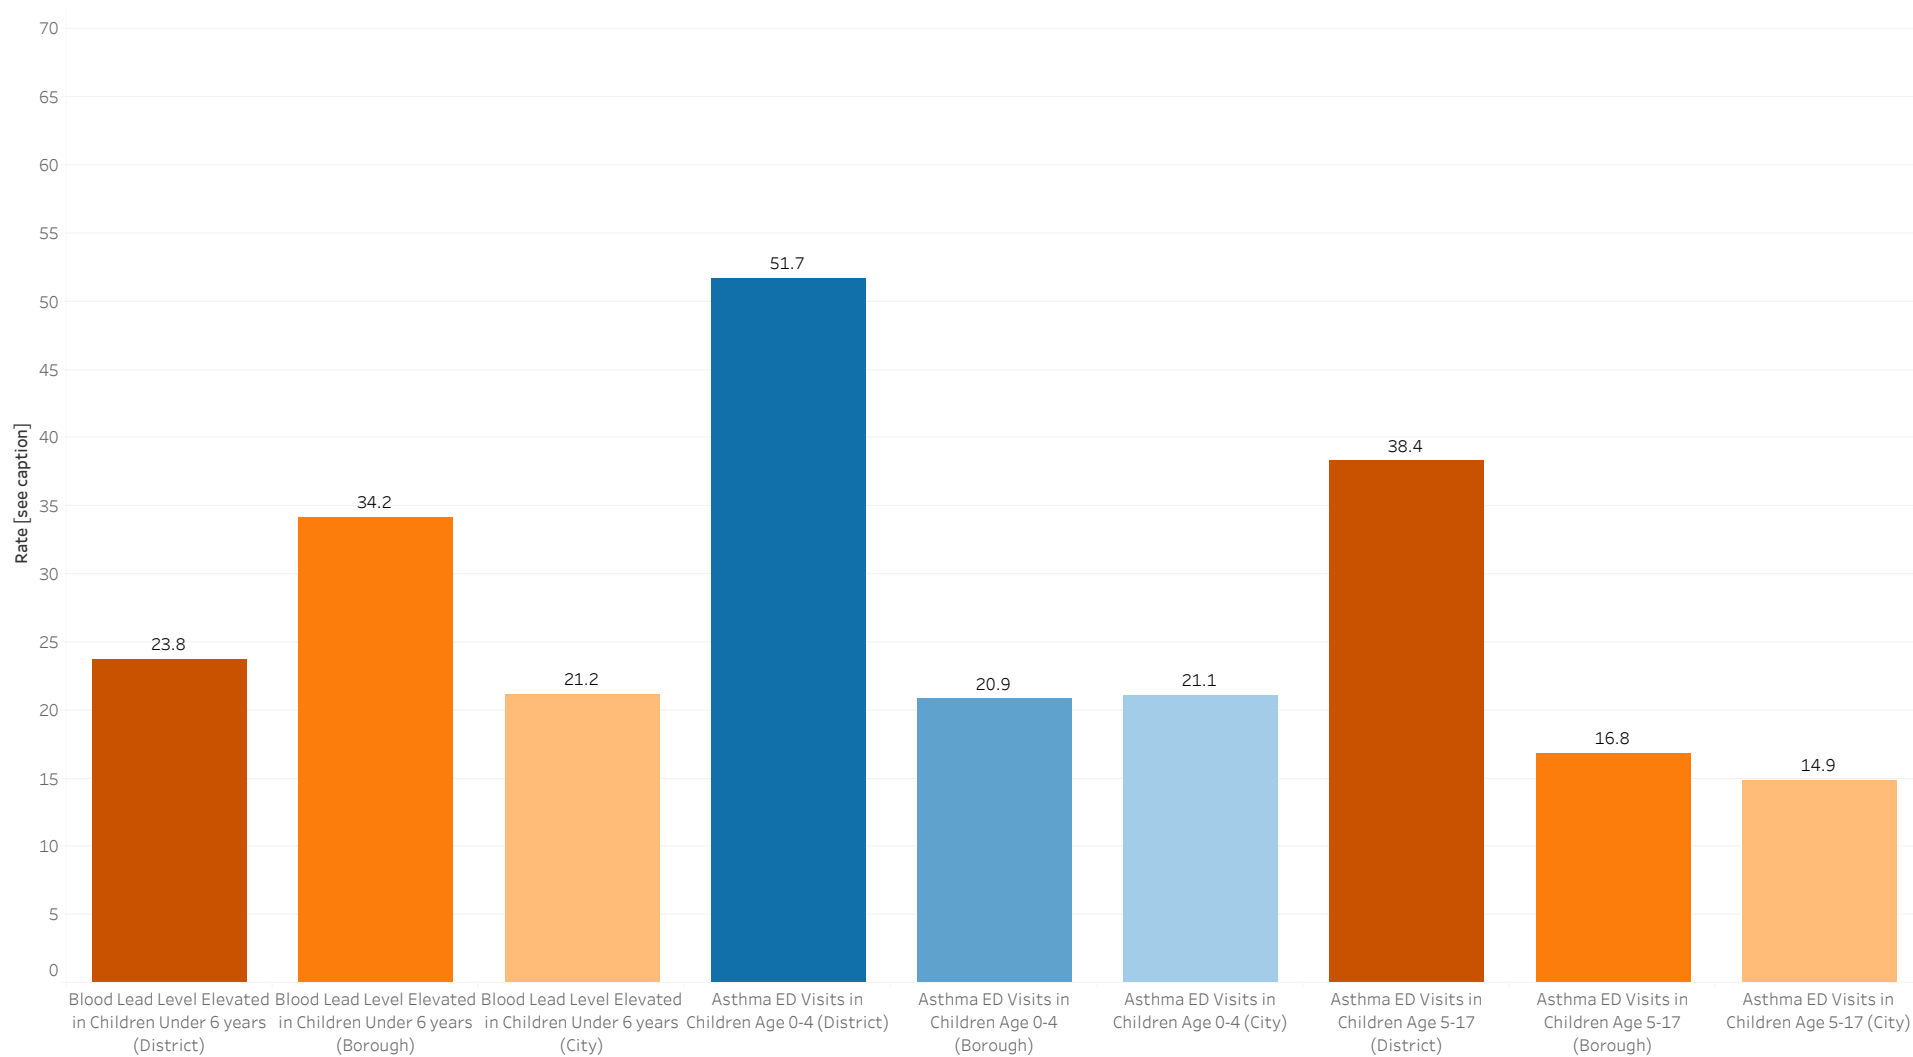

Blood lead level elevated (≥ 5 $\mu\text{g}/\text{dL}$) is presented as the average rate per 1,000 residents tested. Asthma Emergency Department visits are presented as average annual rate per 100,000 residents in the specified age group.

Childhood Asthma and Lead Exposure : School District #22 (East Flatbush - Flatbush, Borough Park, Bensonhurst - Bay Ridge, Sunset Park, Canarsie - Flatlands, and Coney Island - Sheepshead Bay), Brooklyn

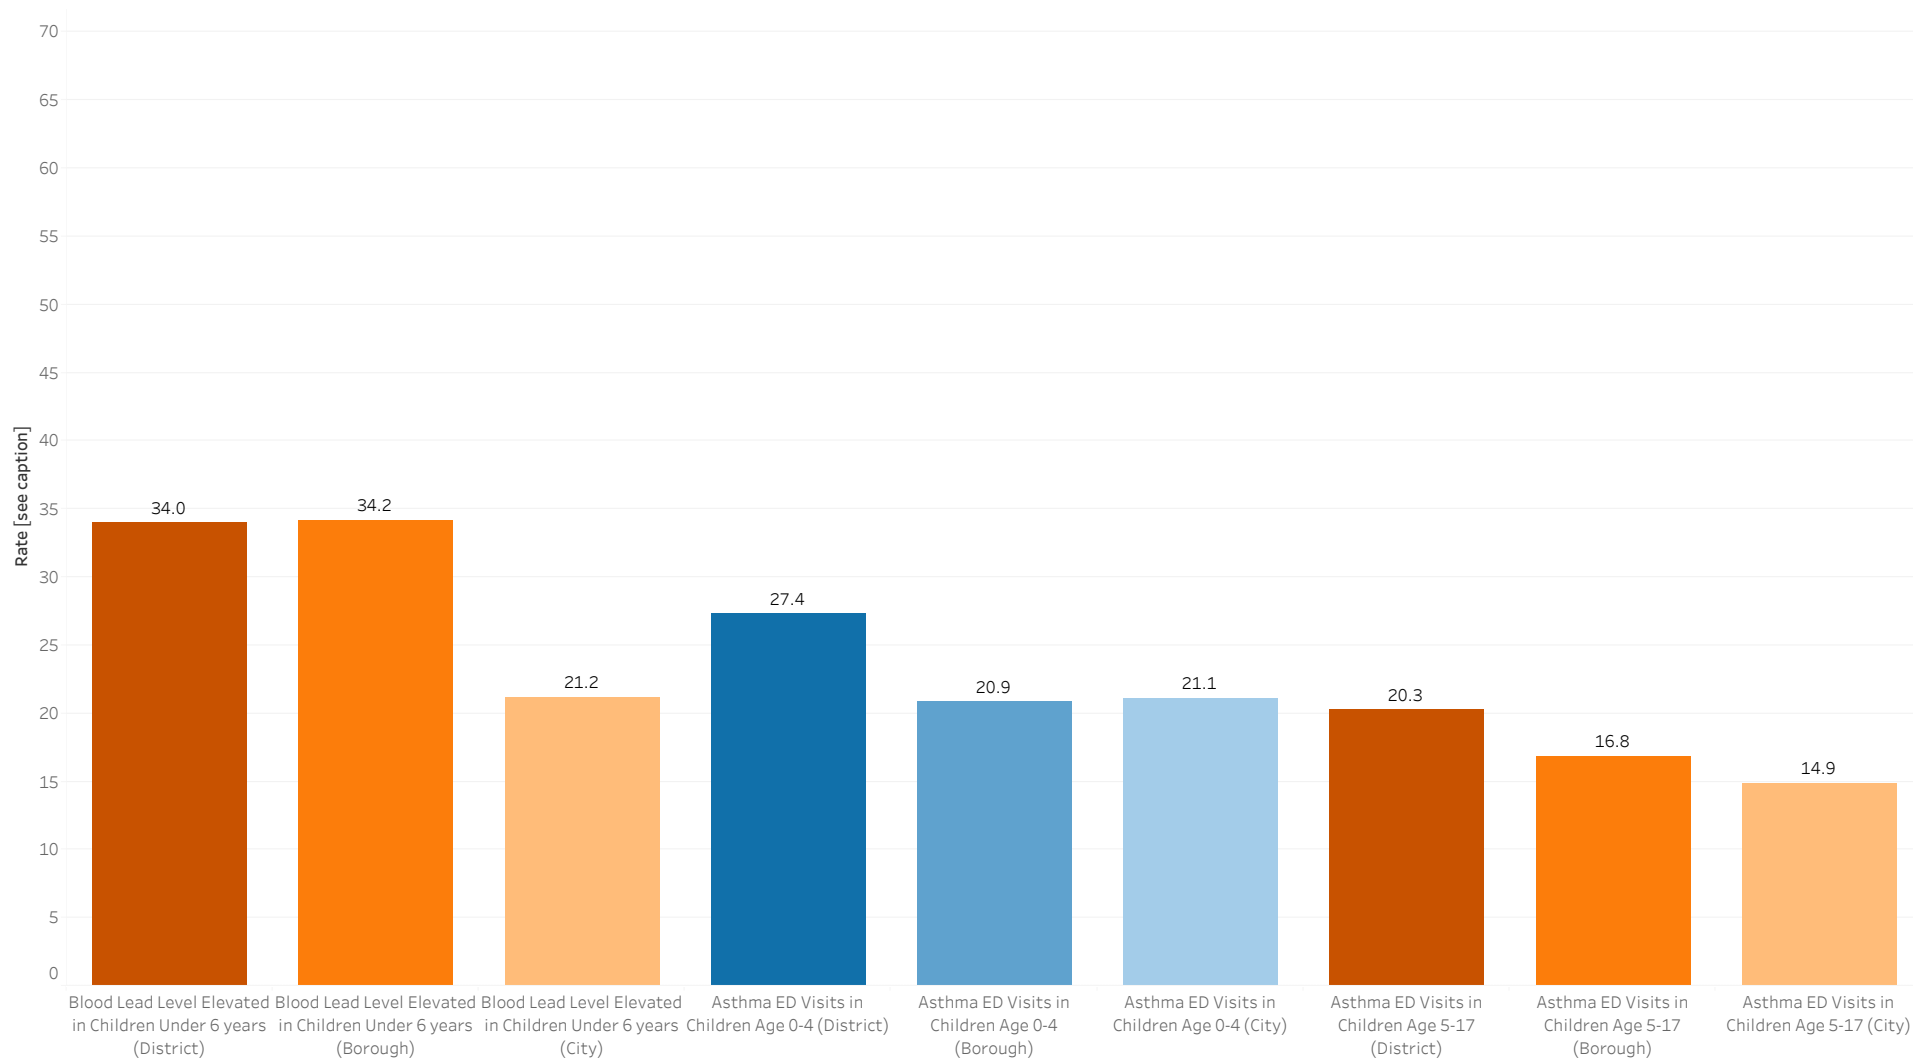

Blood lead level elevated (≥ 5 $\mu\text{g}/\text{dL}$) is presented as the average rate per 1,000 residents tested. Asthma Emergency Department visits are presented as average annual rate per 100,000 residents in the specified age group.

Childhood Asthma and Lead Exposure : School District #23 (East Flatbush - Flatbush, Bedford Stuyvesant - Crown Heights, and Sunset Park), Brooklyn

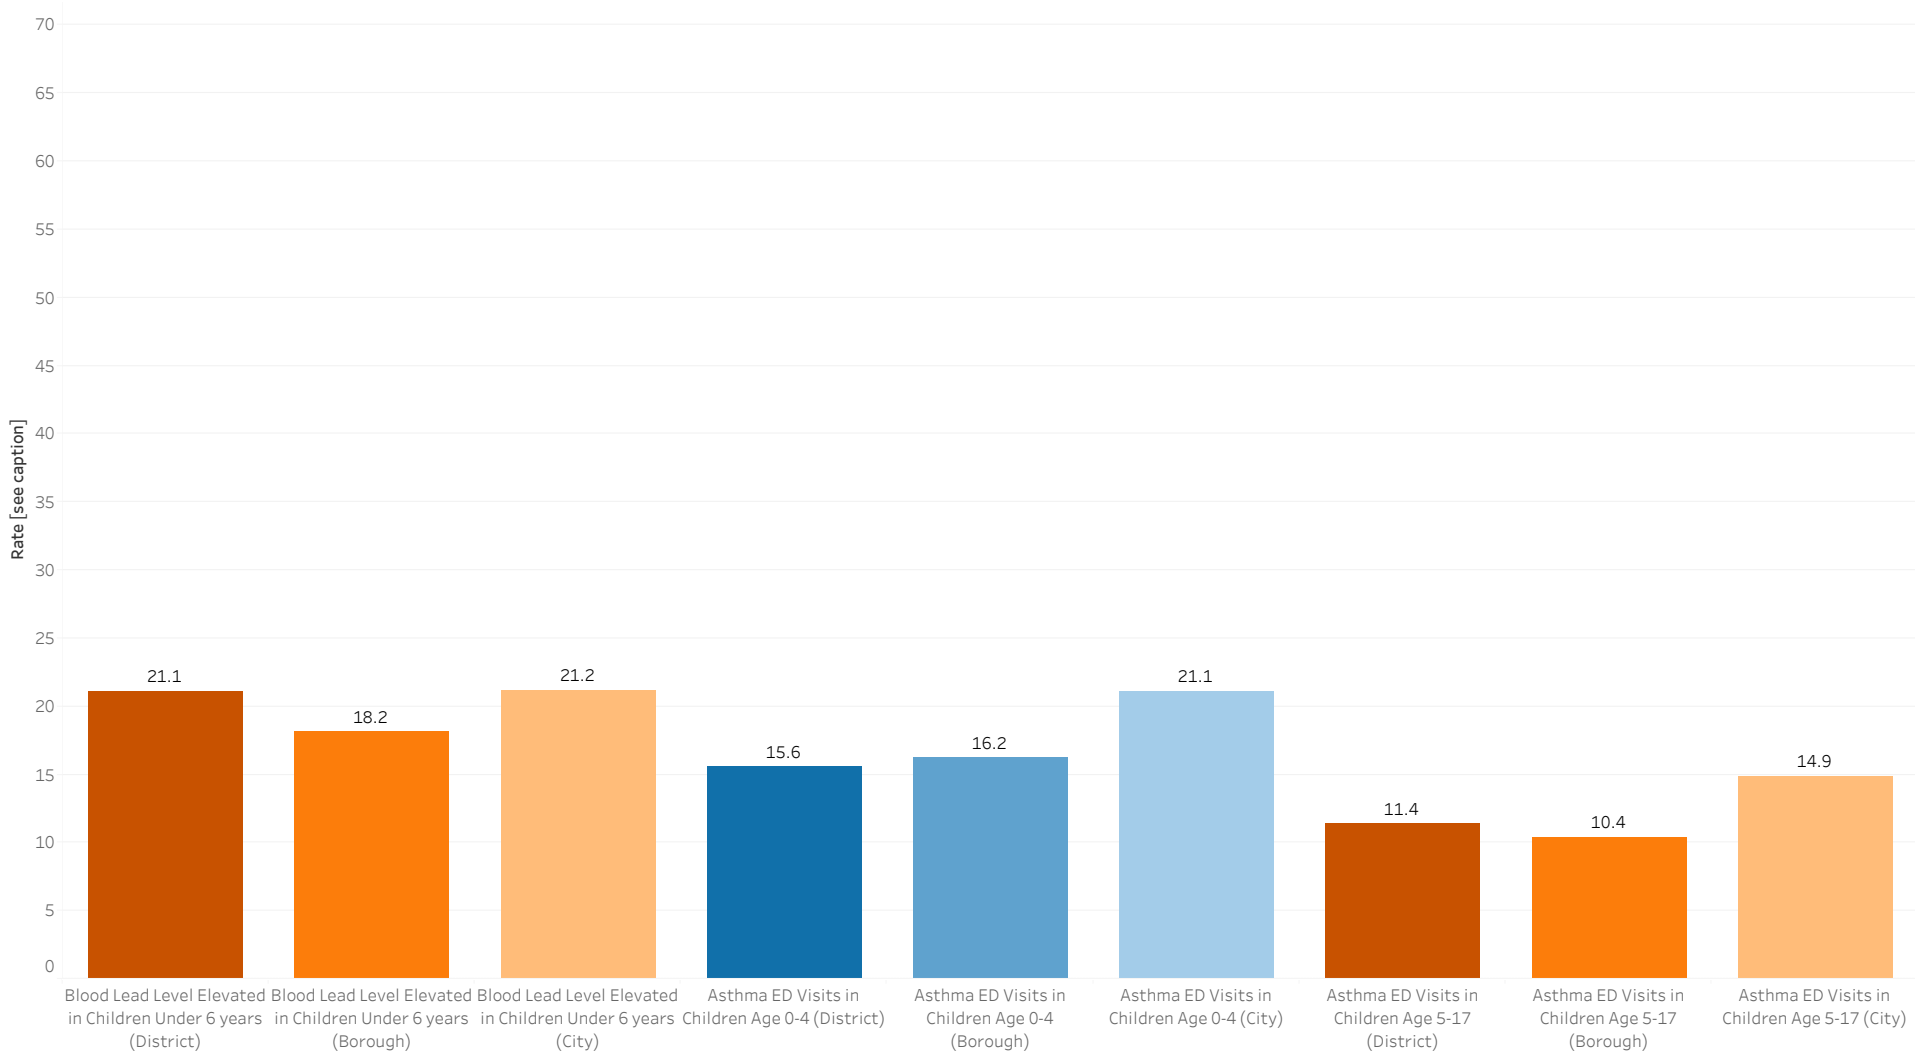

Blood lead level elevated (≥ 5 µg/dL) is presented as the average rate per 1,000 residents tested. Asthma Emergency Department visits are presented as average annual rate per 100,000 residents in the specified age group.

Childhood Asthma and Lead Exposure : School District #24 (Long Island City - Astoria, Sunset Park, West Queens, Southwest Queens, and Ridgewood - Forest Hills), Brooklyn

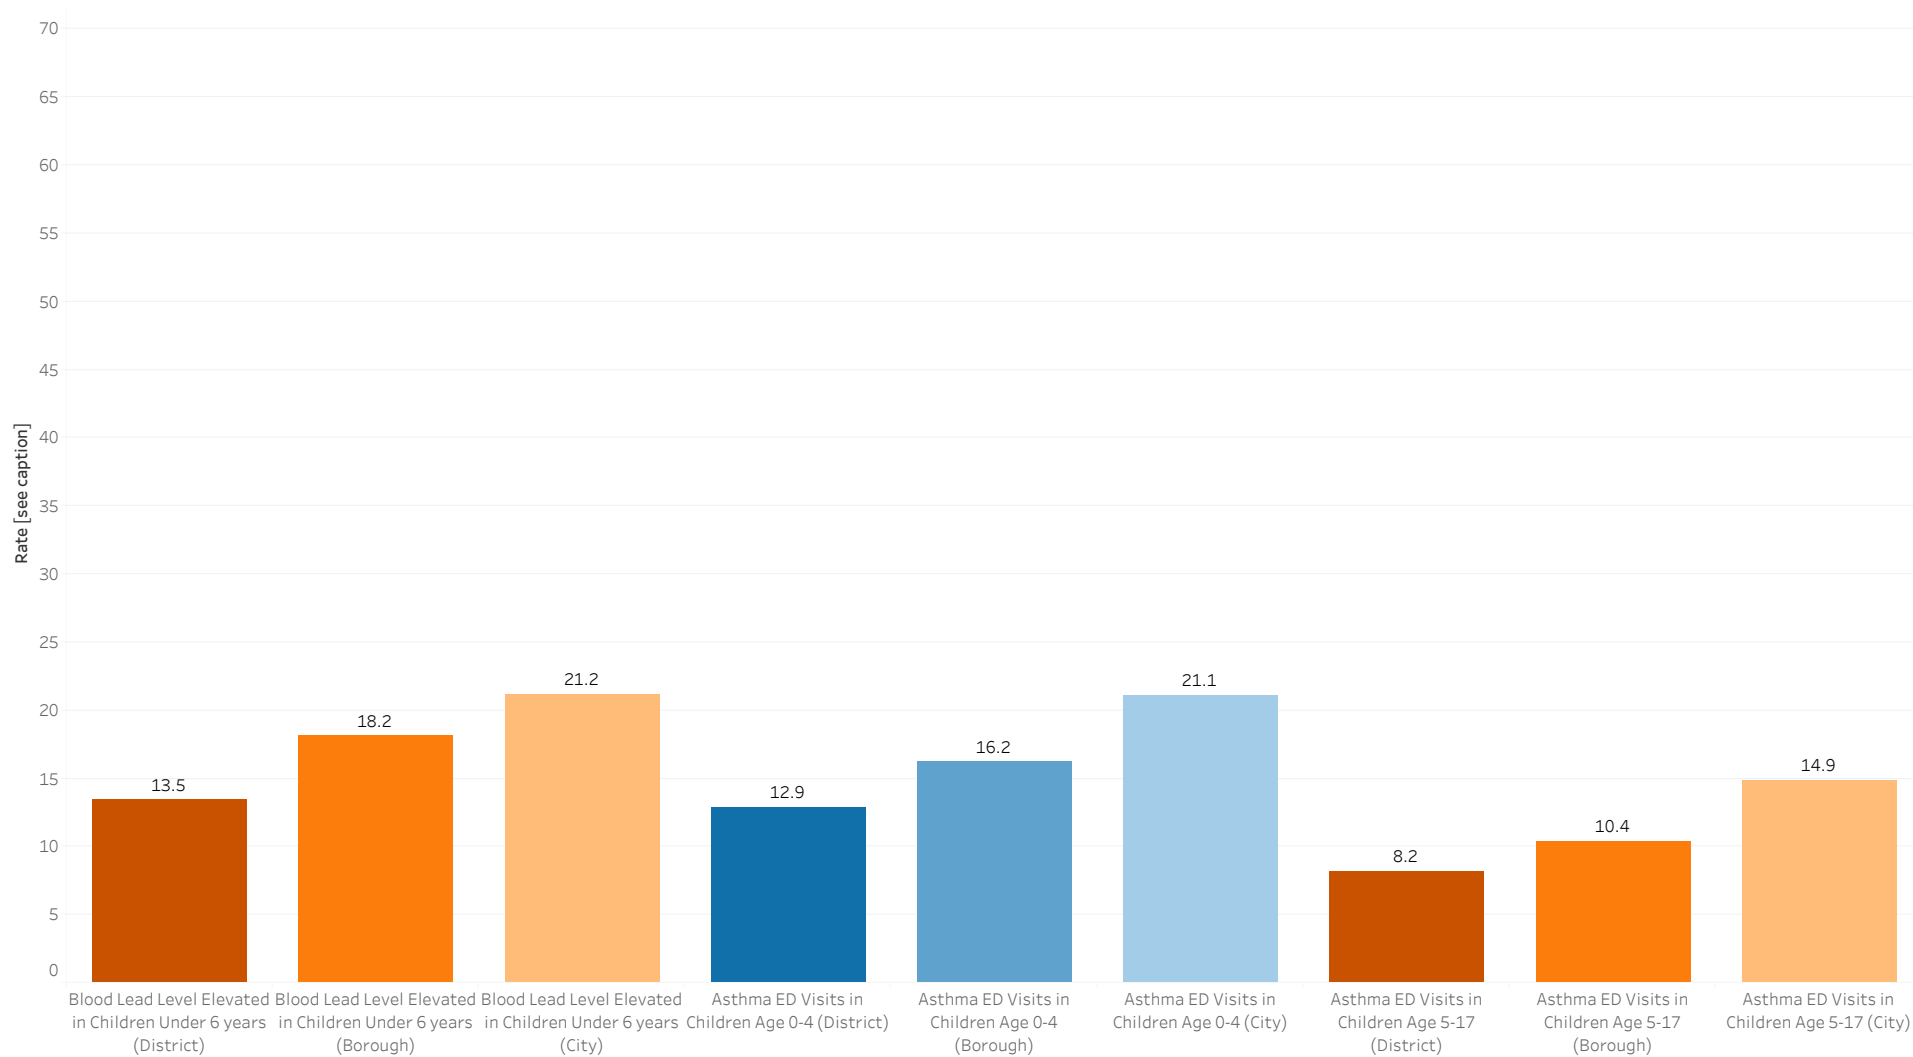

Blood lead level elevated (≥ 5 $\mu\text{g}/\text{dL}$) is presented as the average rate per 1,000 residents tested. Asthma Emergency Department visits are presented as average annual rate per 100,000 residents in the specified age group.

Childhood Asthma and Lead Exposure : School District #24 (Long Island City - Astoria, Sunset Park, West Queens, Southwest Queens, and Ridgewood - Forest Hills), Queens

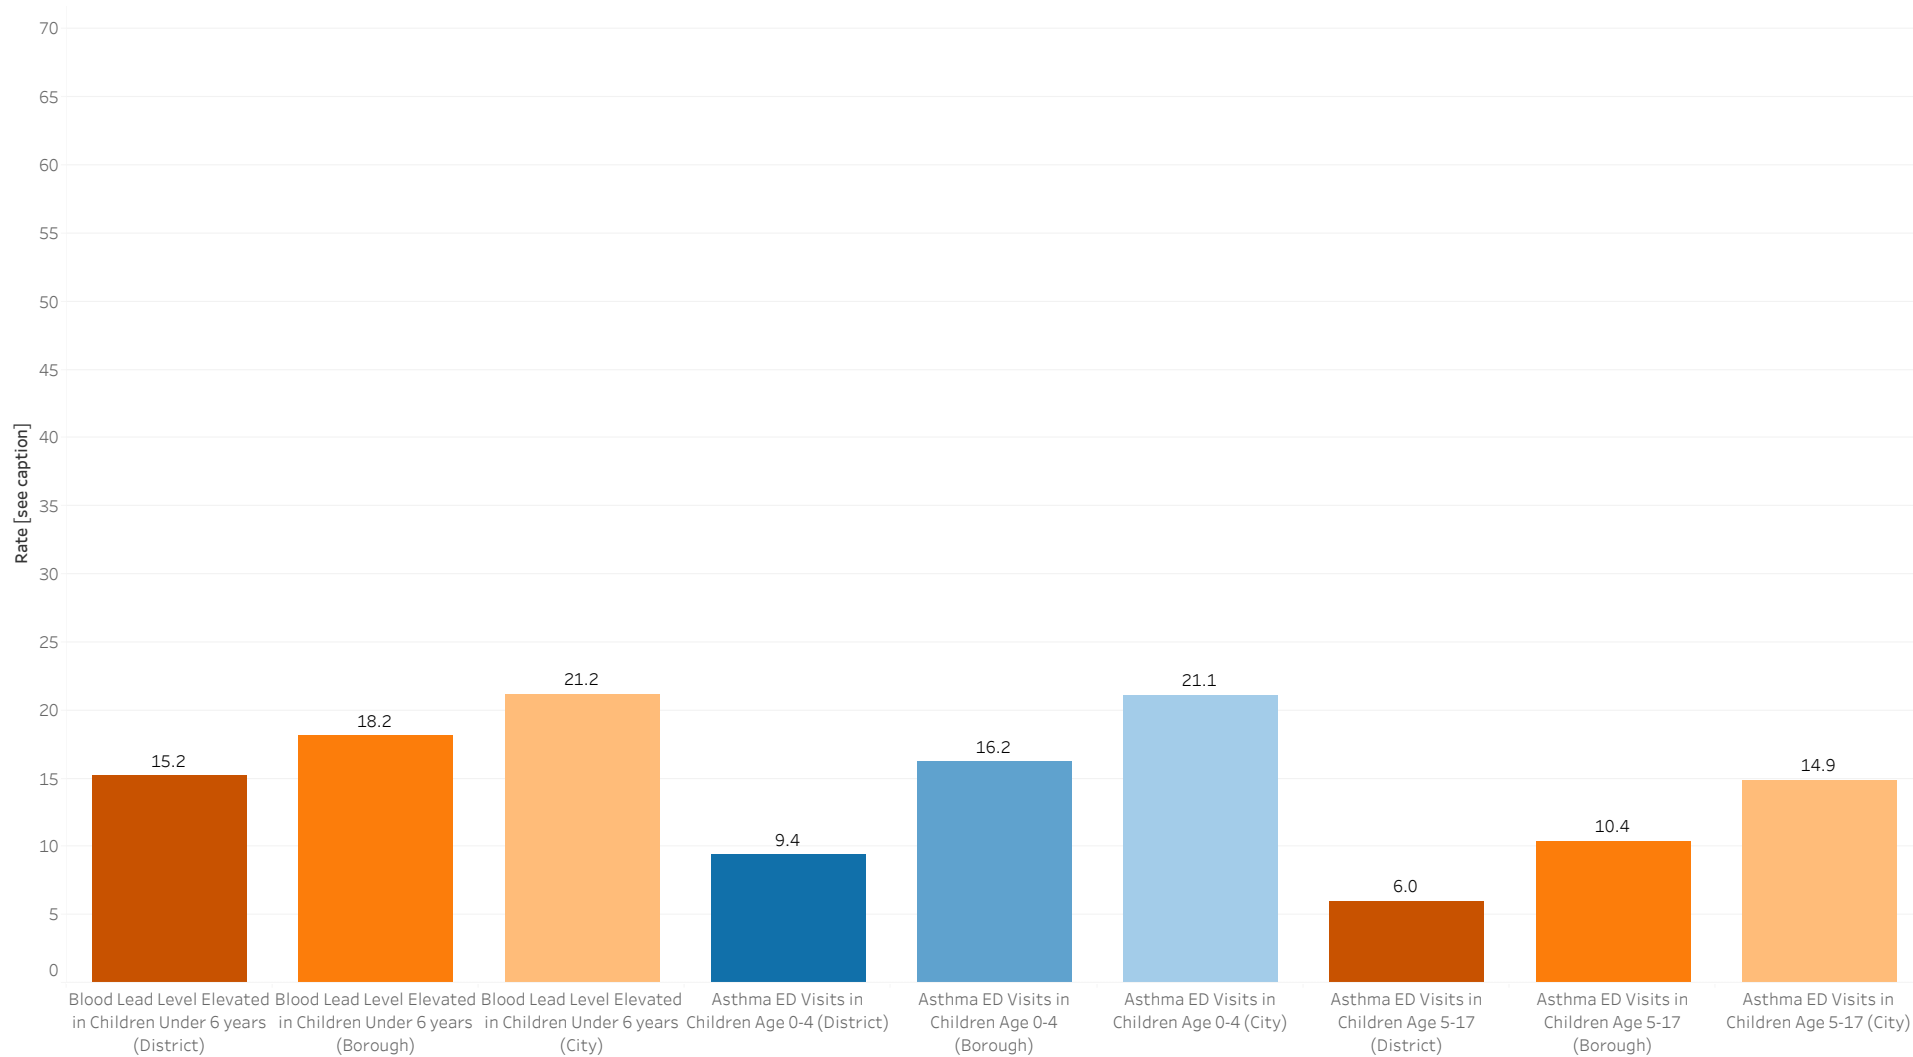

Blood lead level elevated (≥ 5 $\mu\text{g}/\text{dL}$) is presented as the average rate per 1,000 residents tested. Asthma Emergency Department visits are presented as average annual rate per 100,000 residents in the specified age group.

Childhood Asthma and Lead Exposure : School District #25 (Flushing - Clearview, Bayside - Little Neck, Washington Heights - Inwood, Fresh Meadows, West Queens, Southwest Queens, and Ridgewood - Forest Hills), Queens

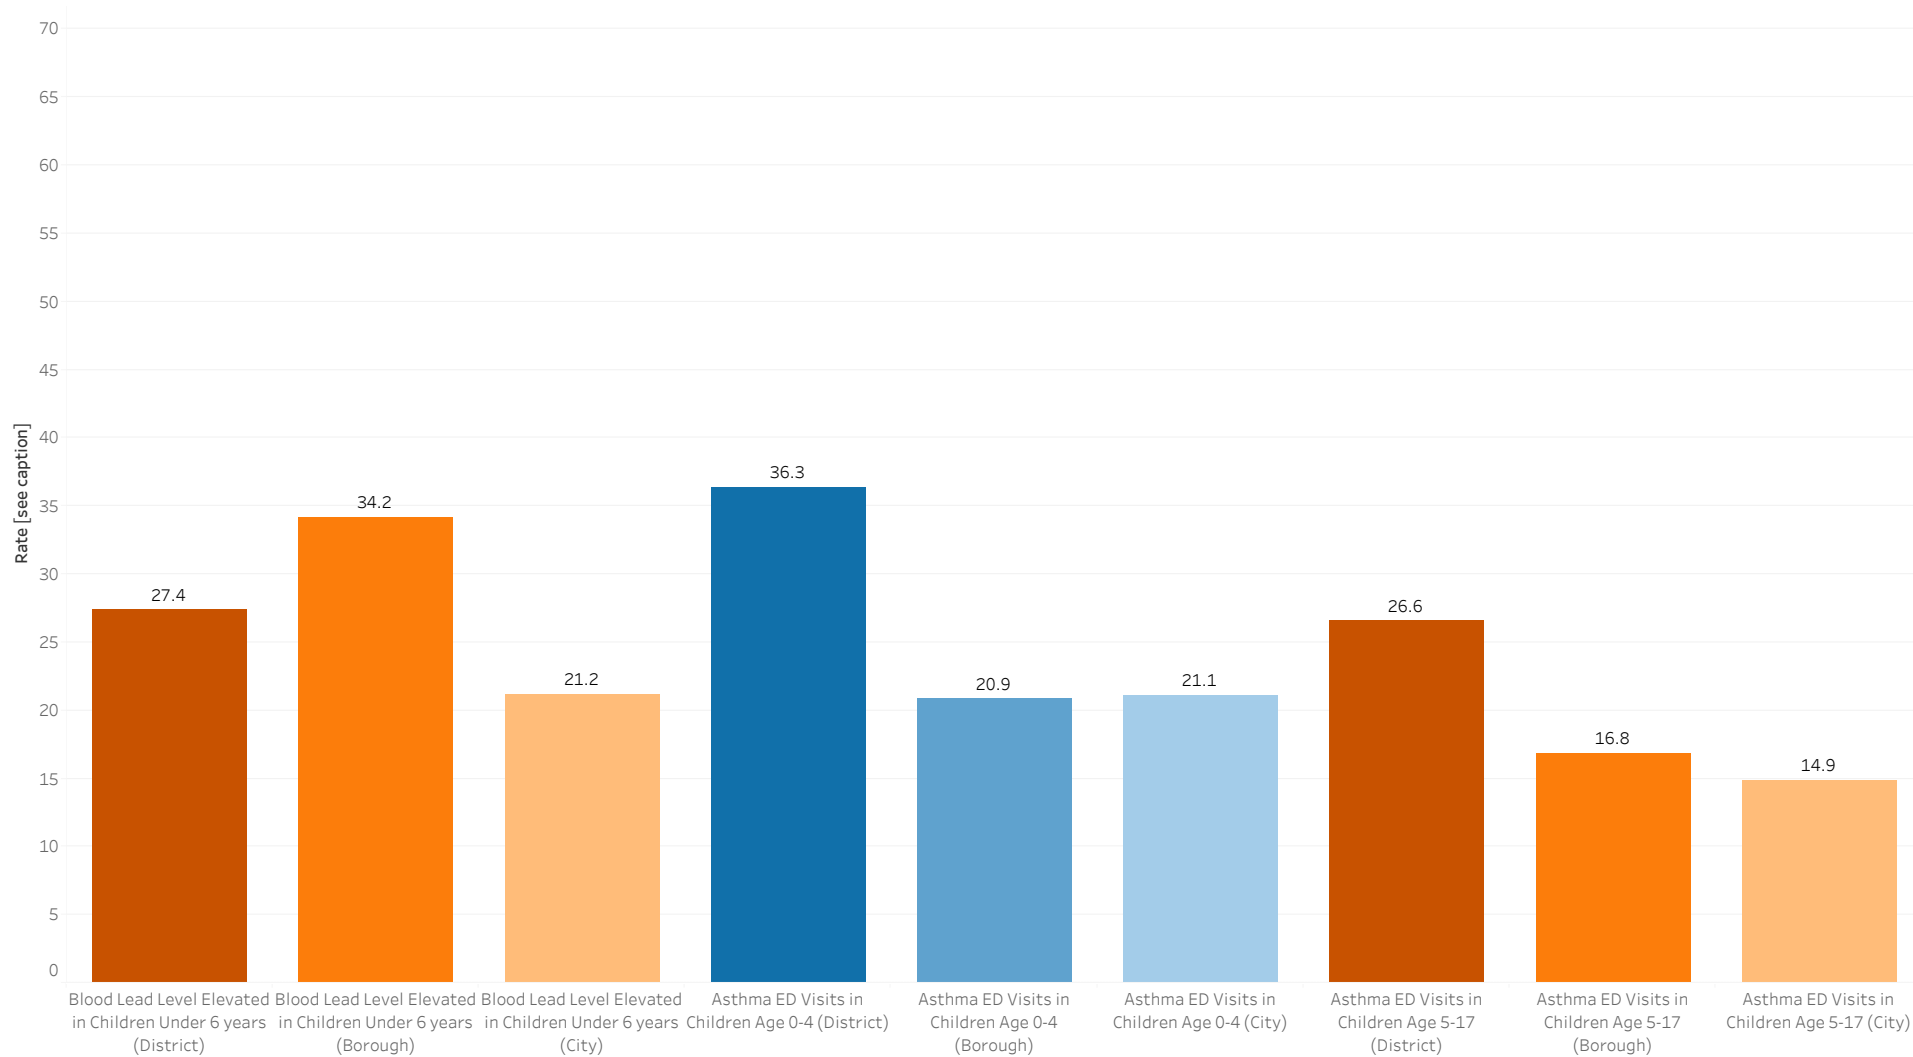

Blood lead level elevated (≥ 5 $\mu\text{g}/\text{dL}$) is presented as the average rate per 1,000 residents tested. Asthma Emergency Department visits are presented as average annual rate per 100,000 residents in the specified age group.

Childhood Asthma and Lead Exposure : School District #26 (Southeast Queens, Flushing - Clearview, Bayside - Little Neck, Washington Heights - Inwood, Fresh Meadows, and Rockaway), Queens

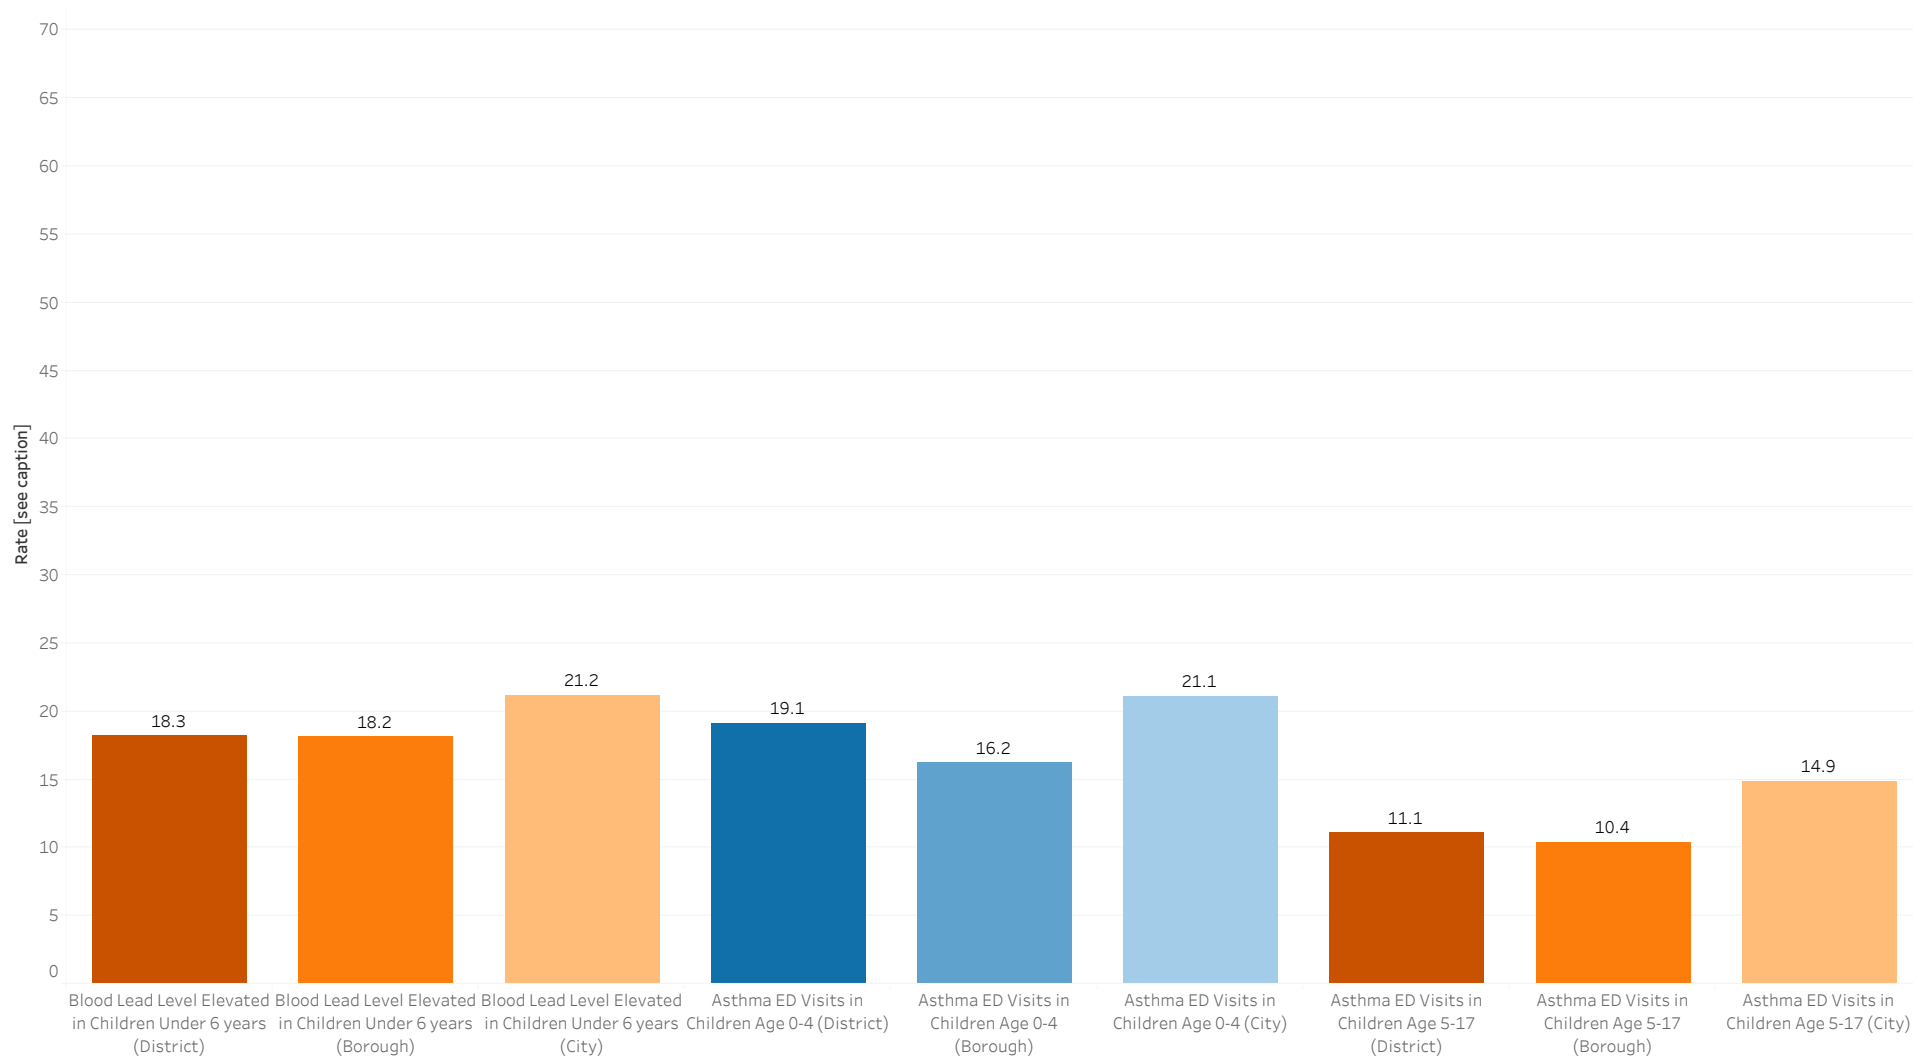

Blood lead level elevated (≥ 5 $\mu\text{g}/\text{dL}$) is presented as the average rate per 1,000 residents tested. Asthma Emergency Department visits are presented as average annual rate per 100,000 residents in the specified age group.

Childhood Asthma and Lead Exposure : School District #27 (Southeast Queens, East New York, Borough Park, West Queens, Southwest Queens, Rockaway, Jamaica, and Ridgewood - Forest Hills), Brooklyn

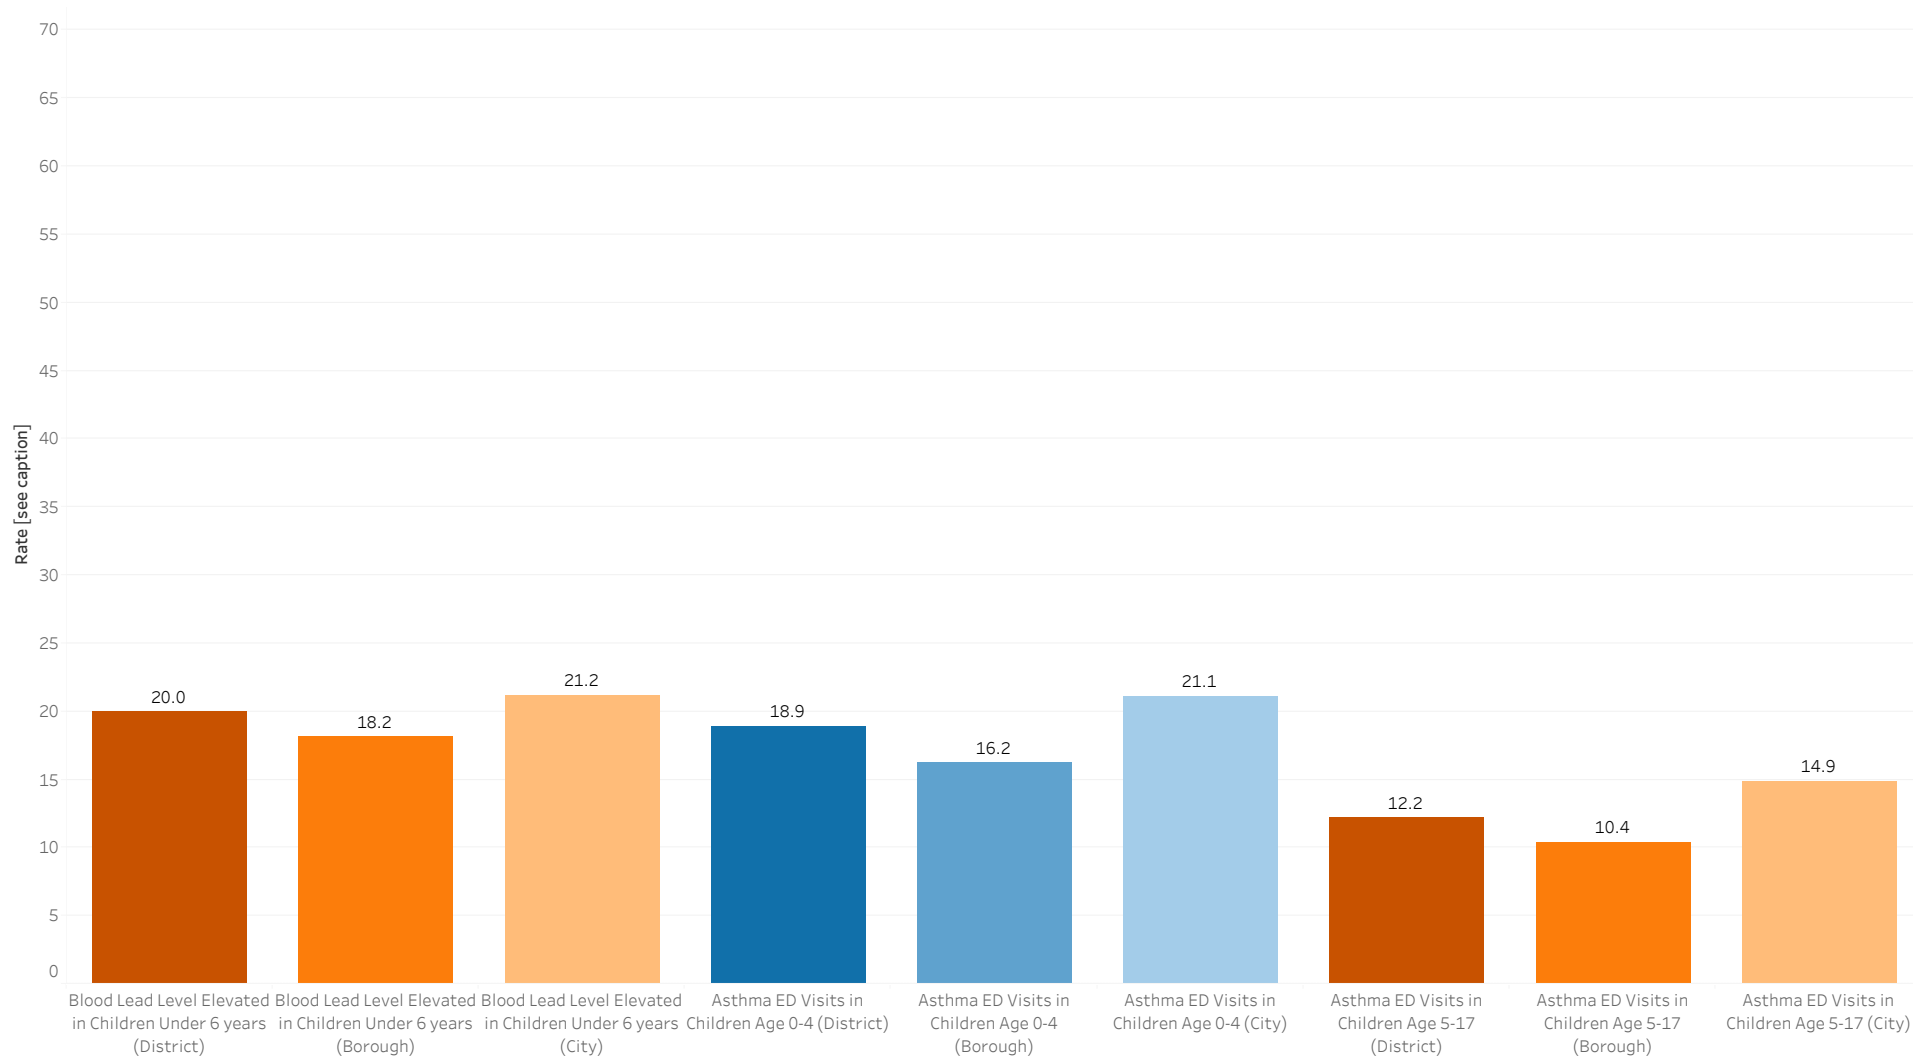

Blood lead level elevated (≥ 5 $\mu\text{g}/\text{dL}$) is presented as the average rate per 1,000 residents tested. Asthma Emergency Department visits are presented as average annual rate per 100,000 residents in the specified age group.

Childhood Asthma and Lead Exposure : School District #27 (Southeast Queens, East New York, Borough Park, West Queens, Southwest Queens, Rockaway, Jamaica, and Ridgewood - Forest Hills), Queens

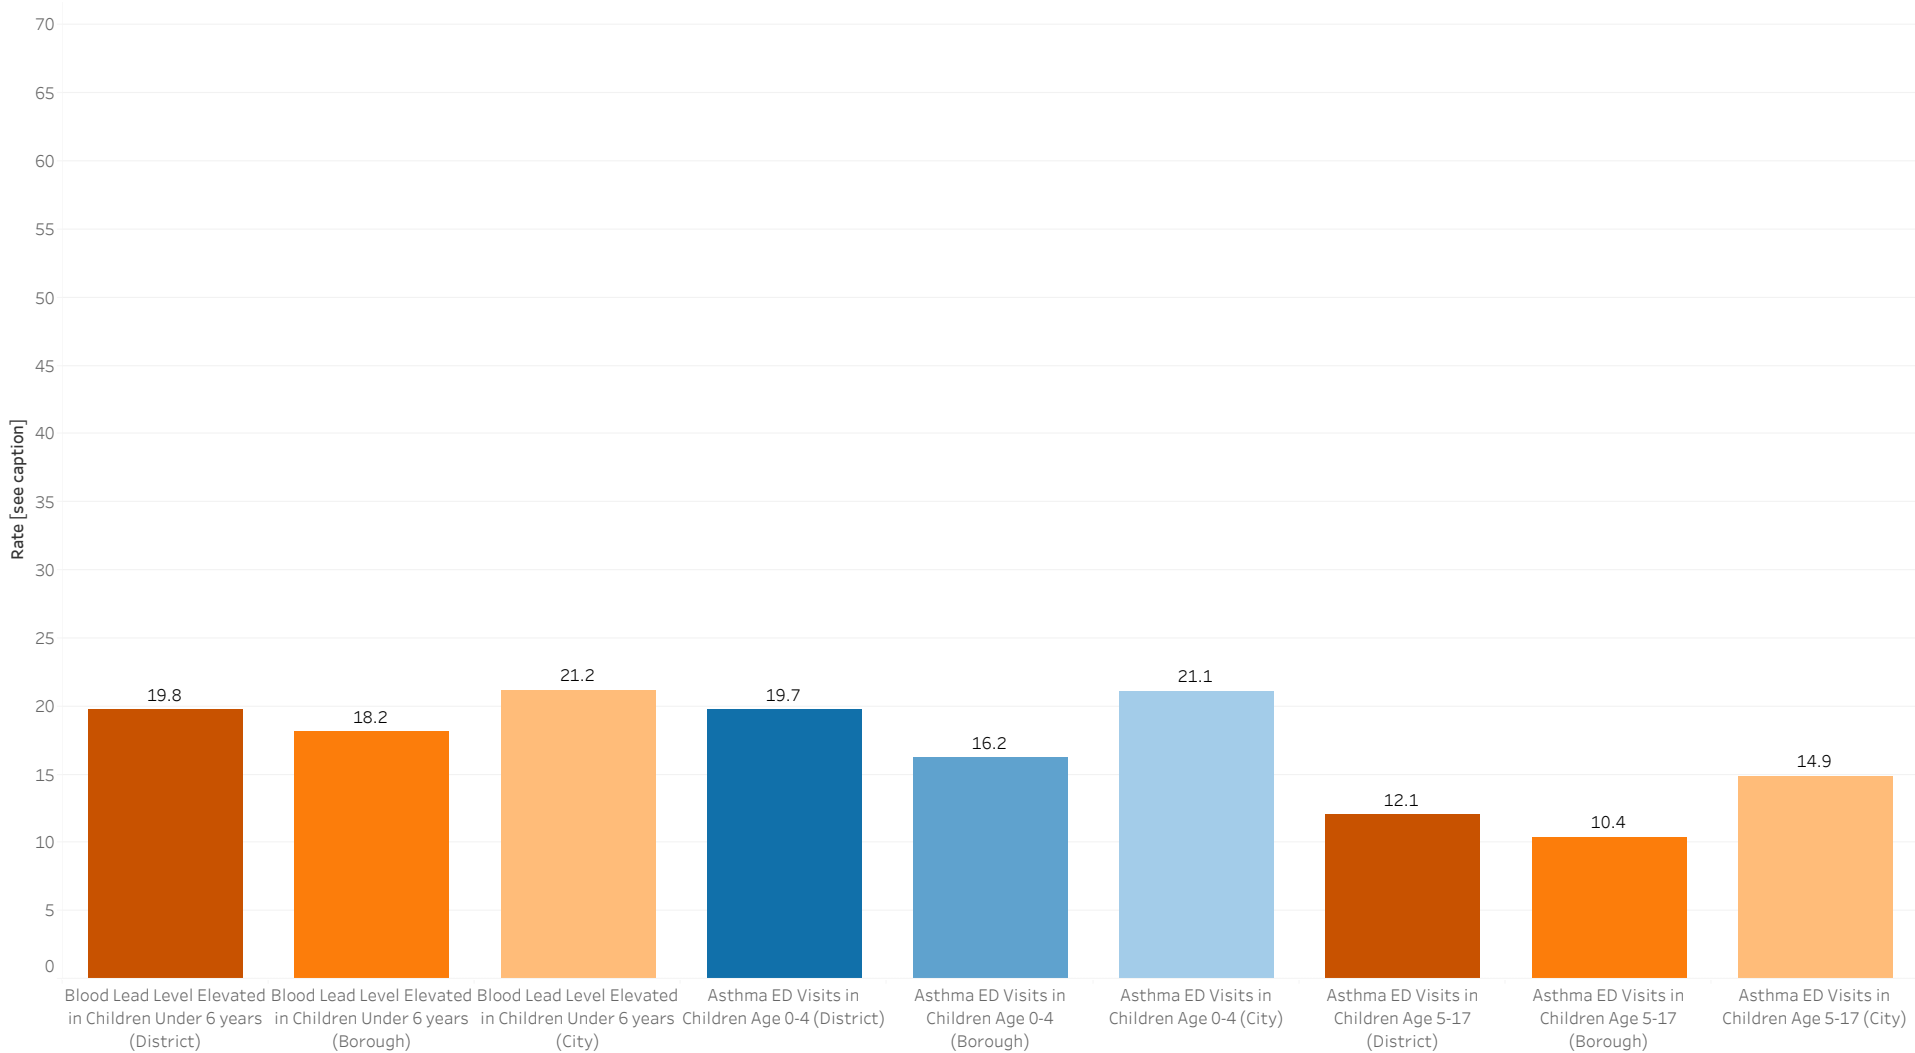

Blood lead level elevated (≥ 5 $\mu\text{g}/\text{dL}$) is presented as the average rate per 1,000 residents tested. Asthma Emergency Department visits are presented as average annual rate per 100,000 residents in the specified age group.

Childhood Asthma and Lead Exposure : School District #28 (Fresh Meadows, Flushing - Clearview, West Queens, Ridgewood - Forest Hills, Long Island City - Astoria, Jamaica, Southwest Queens, and Southeast Queens), Queens

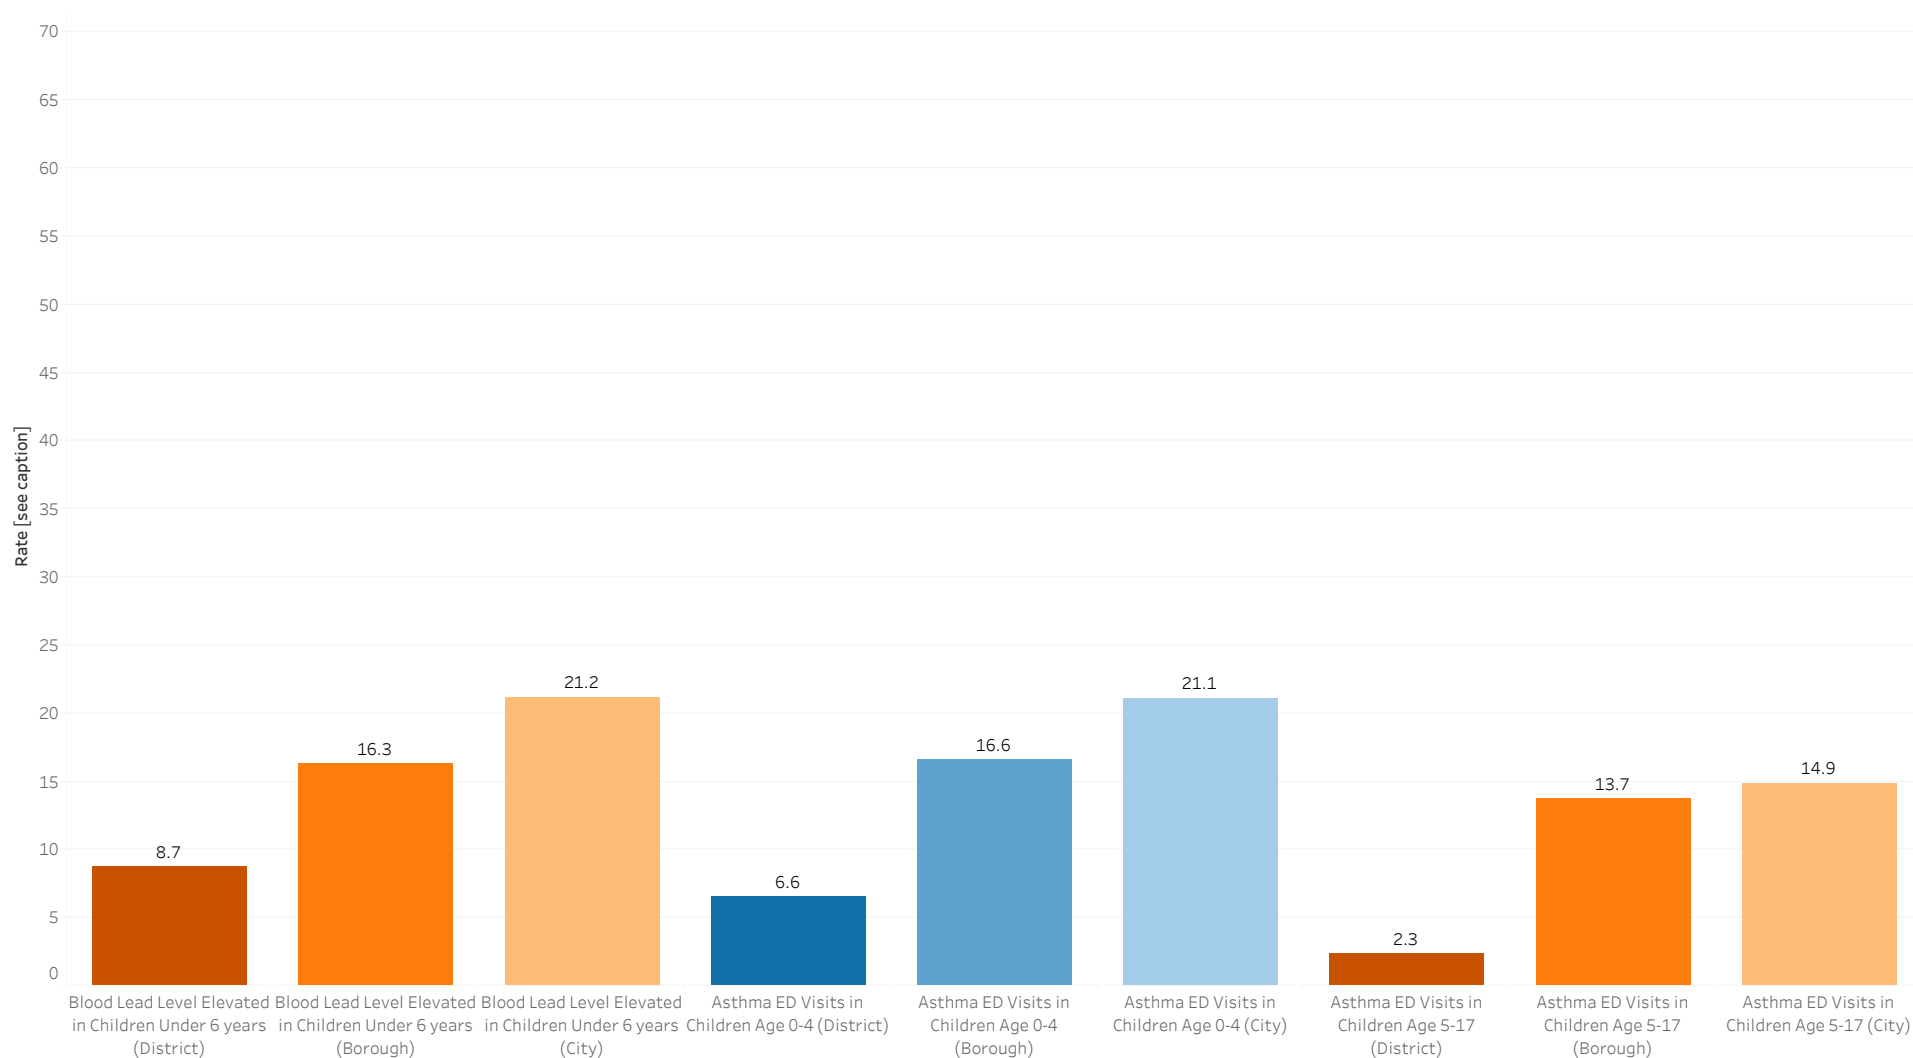

Blood lead level elevated (≥ 5 $\mu\text{g}/\text{dL}$) is presented as the average rate per 1,000 residents tested. Asthma Emergency Department visits are presented as average annual rate per 100,000 residents in the specified age group.

Childhood Asthma and Lead Exposure : School District #29 (Southeast Queens, Fresh Meadows, Flushing - Clearview, Rockaway, and Jamaica), Queens

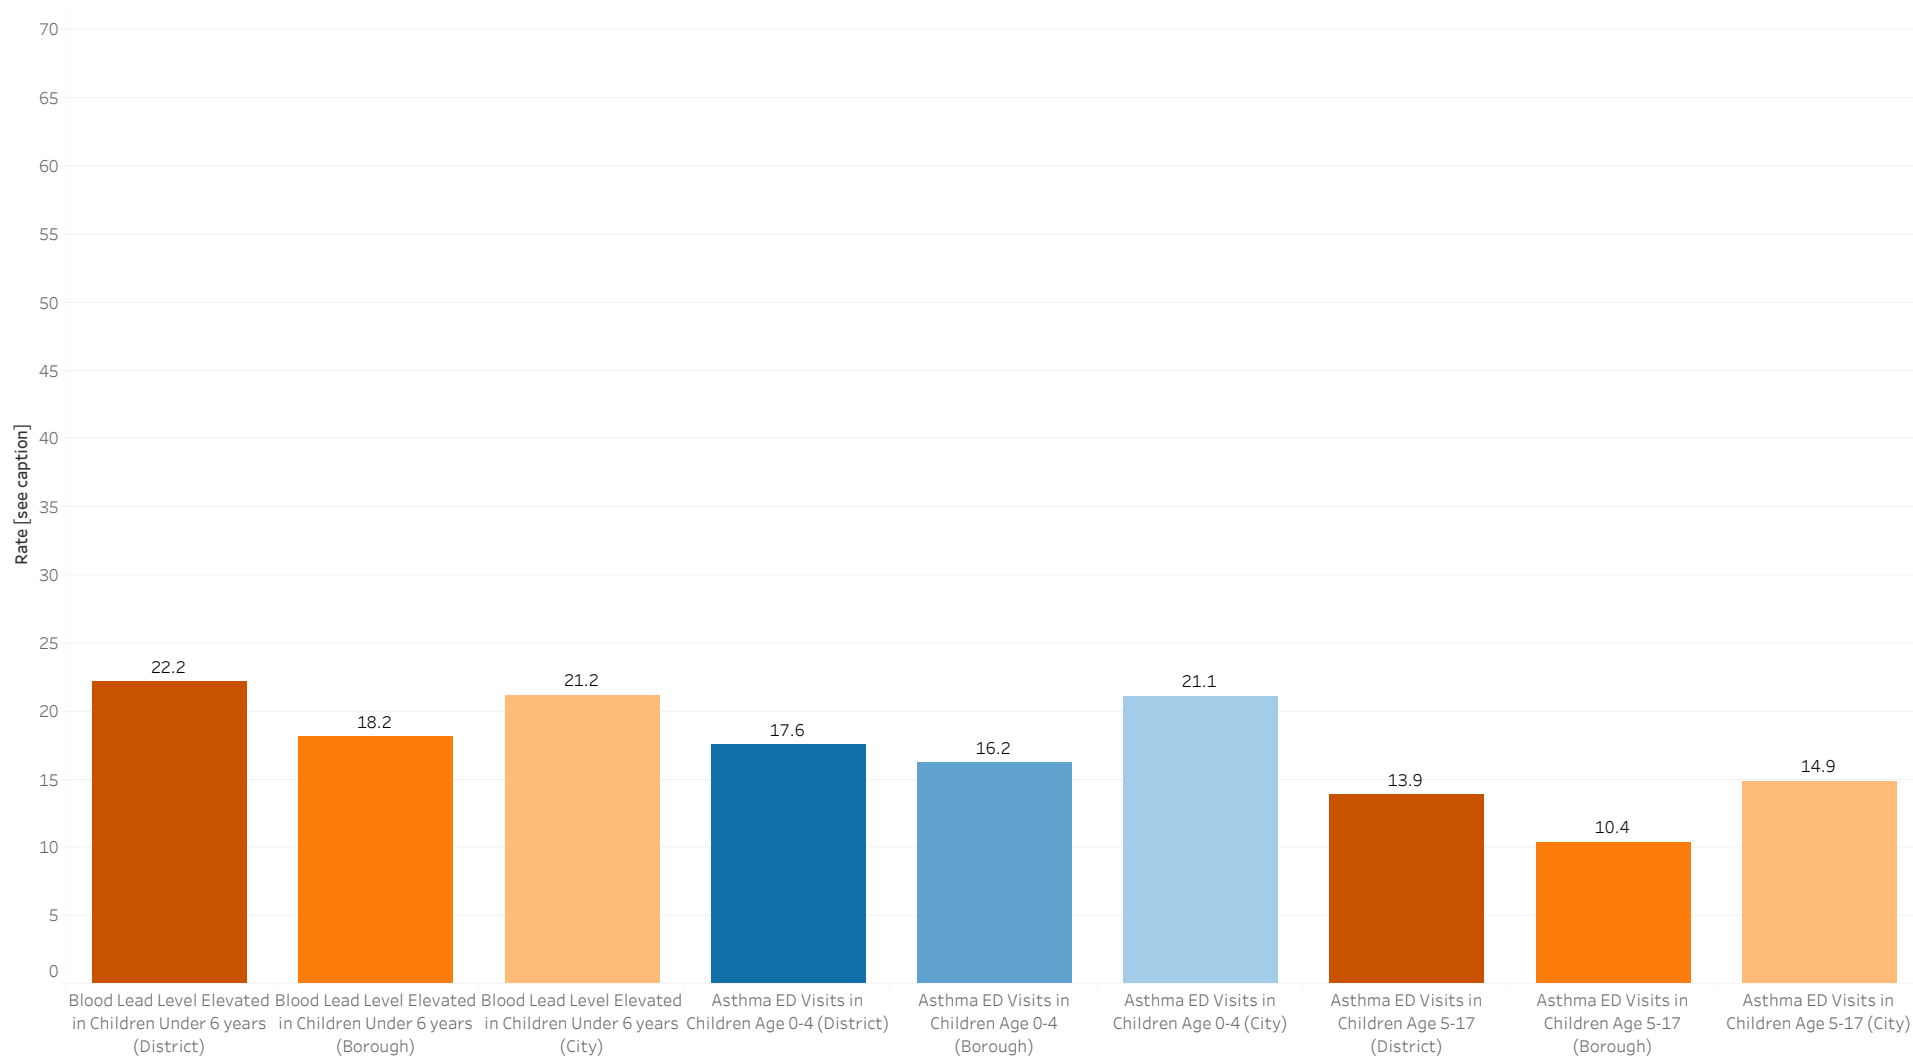

Blood lead level elevated (≥ 5 $\mu\text{g/dL}$) is presented as the average rate per 1,000 residents tested. Asthma Emergency Department visits are presented as average annual rate per 100,000 residents in the specified age group.

Childhood Asthma and Lead Exposure : School District #30 (Gramercy Park - Murray Hill, East Harlem, Southeast Queens, Long Island City - Astoria, Jamaica, Flushing - Clearview, Bayside - Little Neck, West Queens, Southwest Queens, and Rockaway), Manhattan

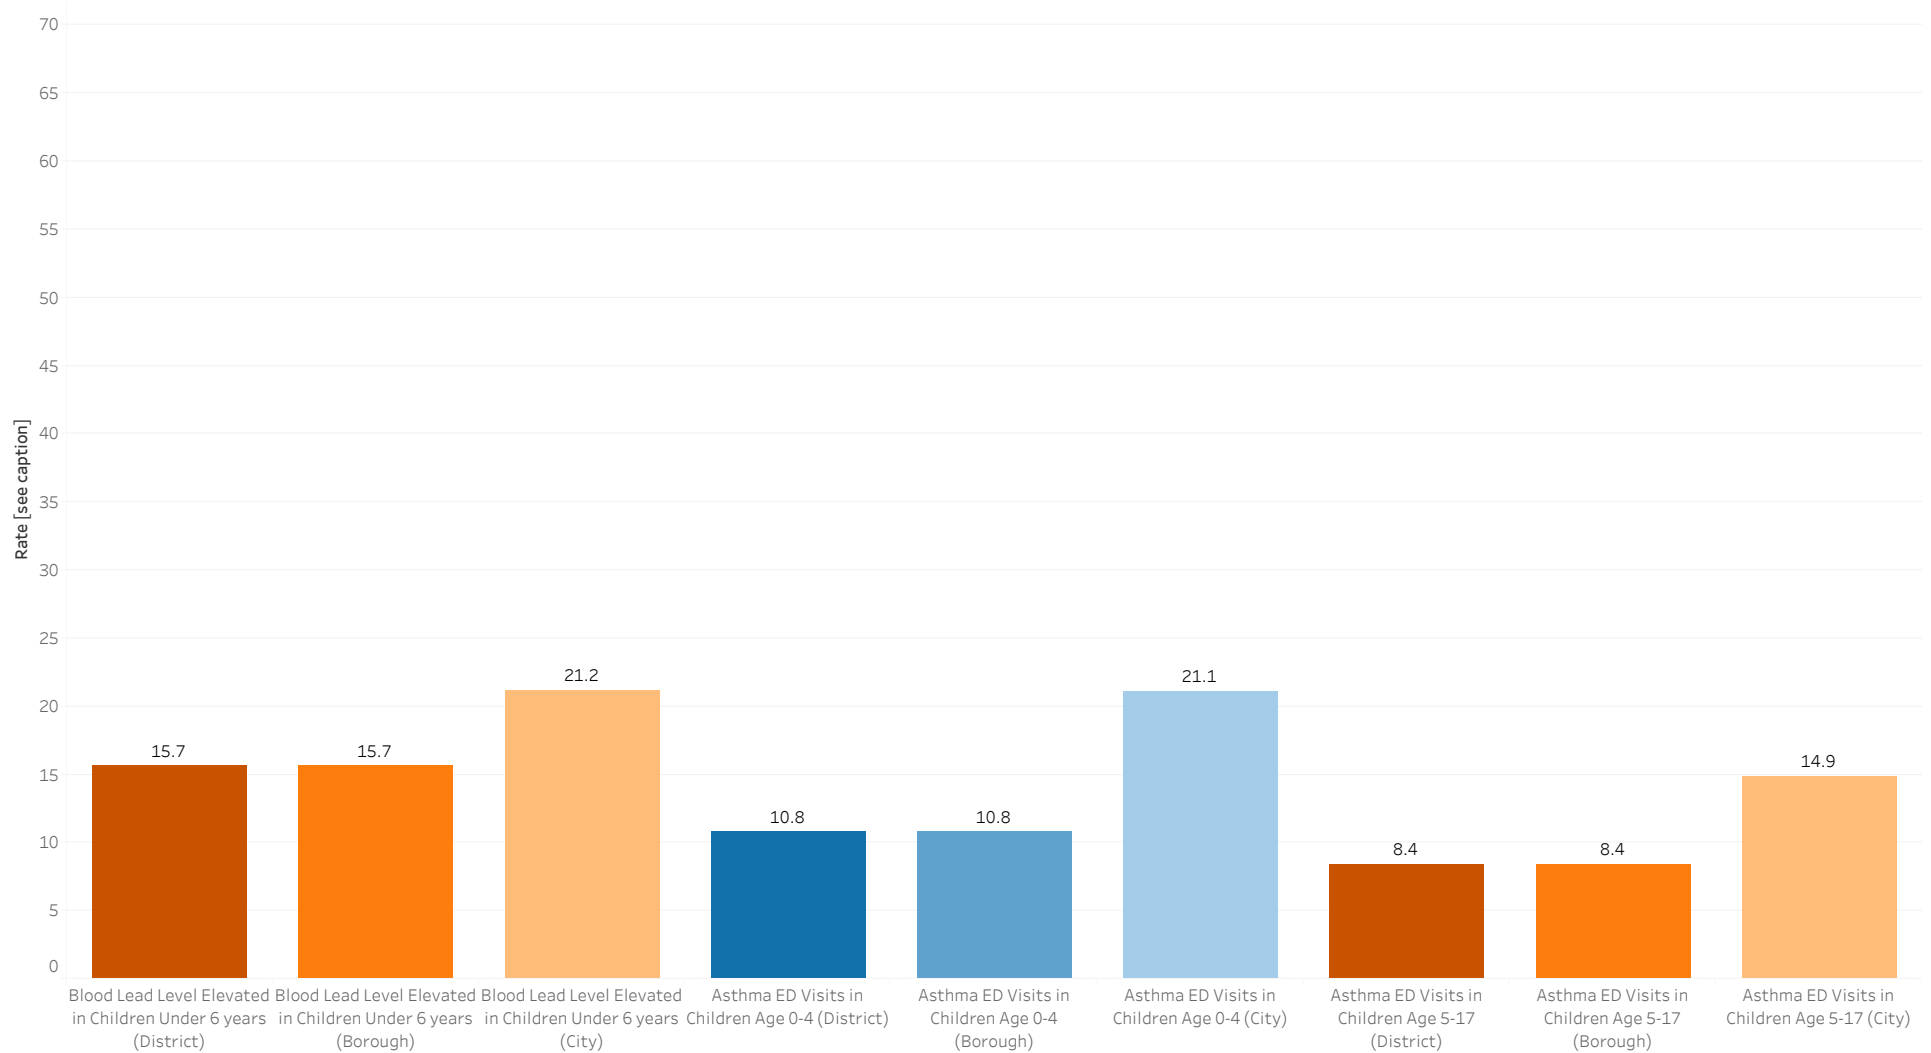

Blood lead level elevated (≥ 5 $\mu\text{g}/\text{dL}$) is presented as the average rate per 1,000 residents tested. Asthma Emergency Department visits are presented as average annual rate per 100,000 residents in the specified age group.

Childhood Asthma and Lead Exposure : School District #30 (Gramercy Park - Murray Hill, East Harlem, Southeast Queens, Long Island City - Astoria, Jamaica, Flushing - Clearview, Bayside - Little Neck, West Queens, Southwest Queens, and Rockaway), Queens

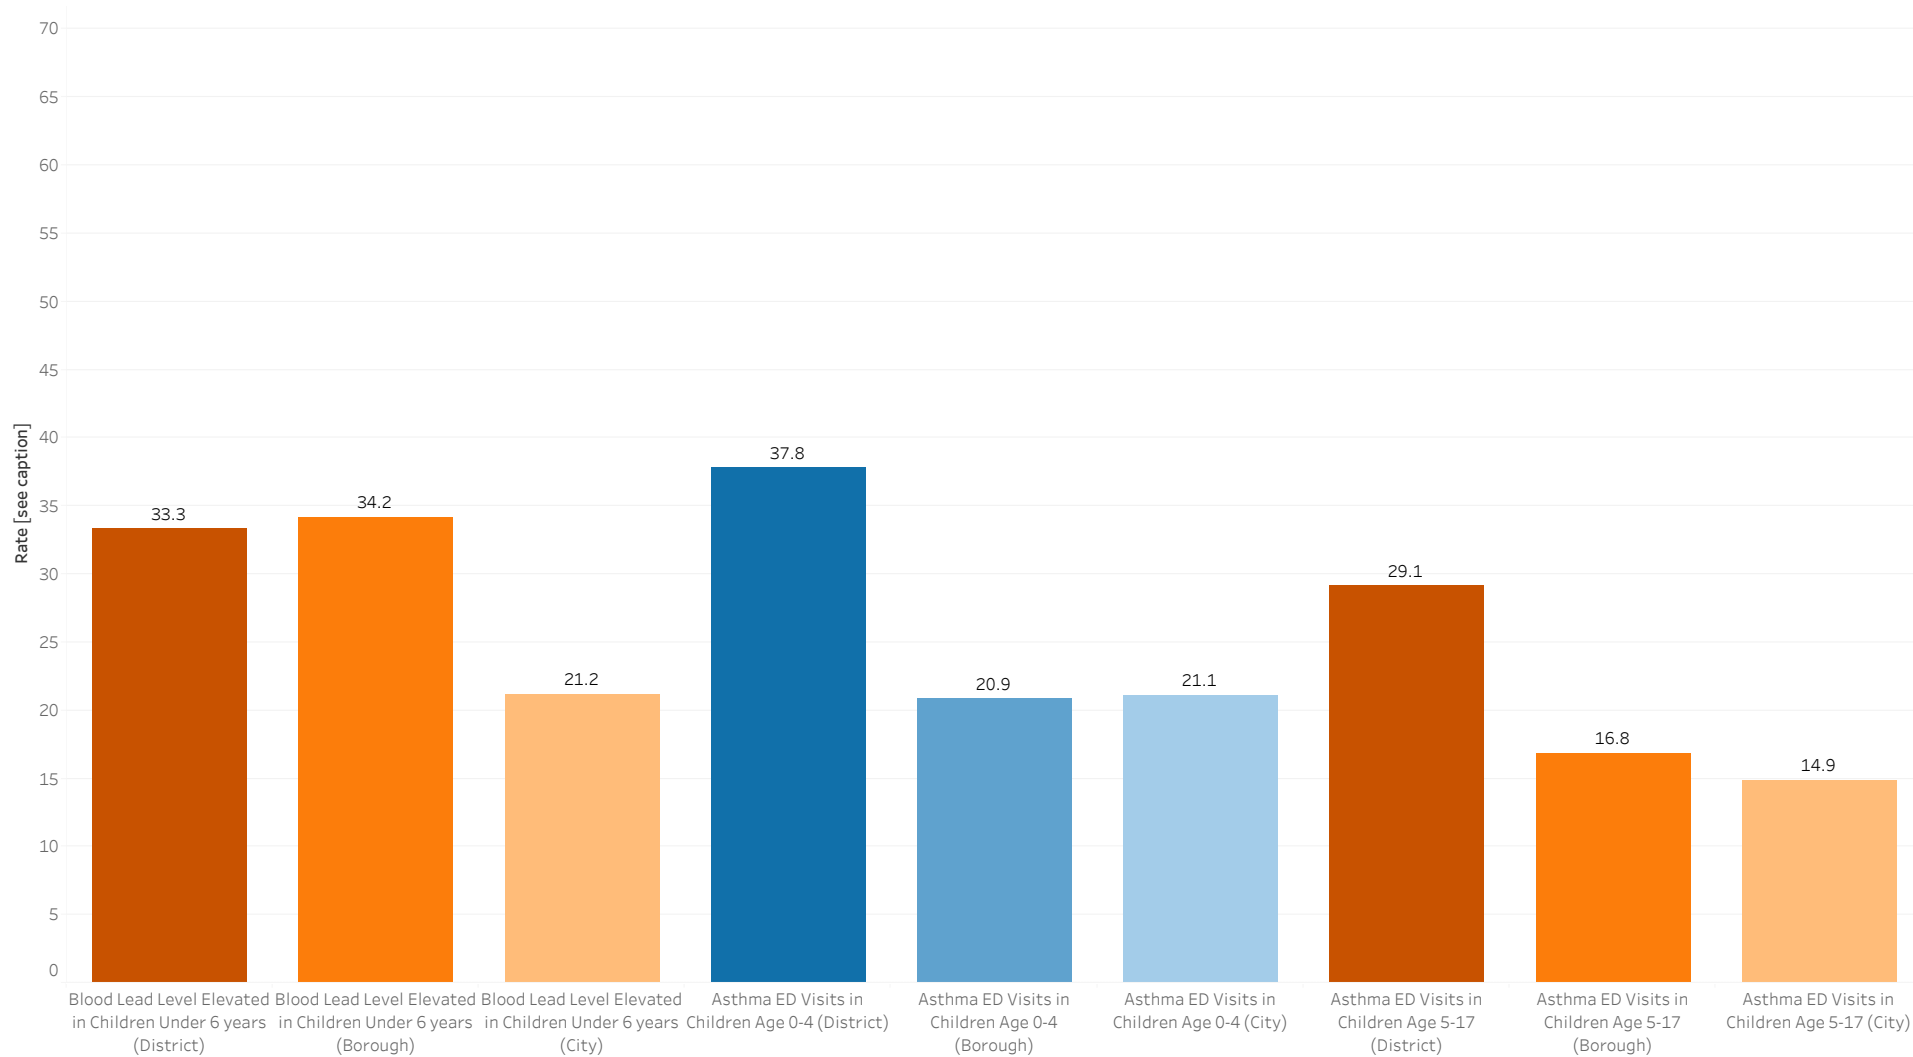

Blood lead level elevated (≥ 5 $\mu\text{g}/\text{dL}$) is presented as the average rate per 1,000 residents tested. Asthma Emergency Department visits are presented as average annual rate per 100,000 residents in the specified age group.

Childhood Asthma and Lead Exposure : School District #31 (Stapleton - St. George, Port Richmond, South Beach - Tottenville, West Queens, and Willowbrook), Staten Island

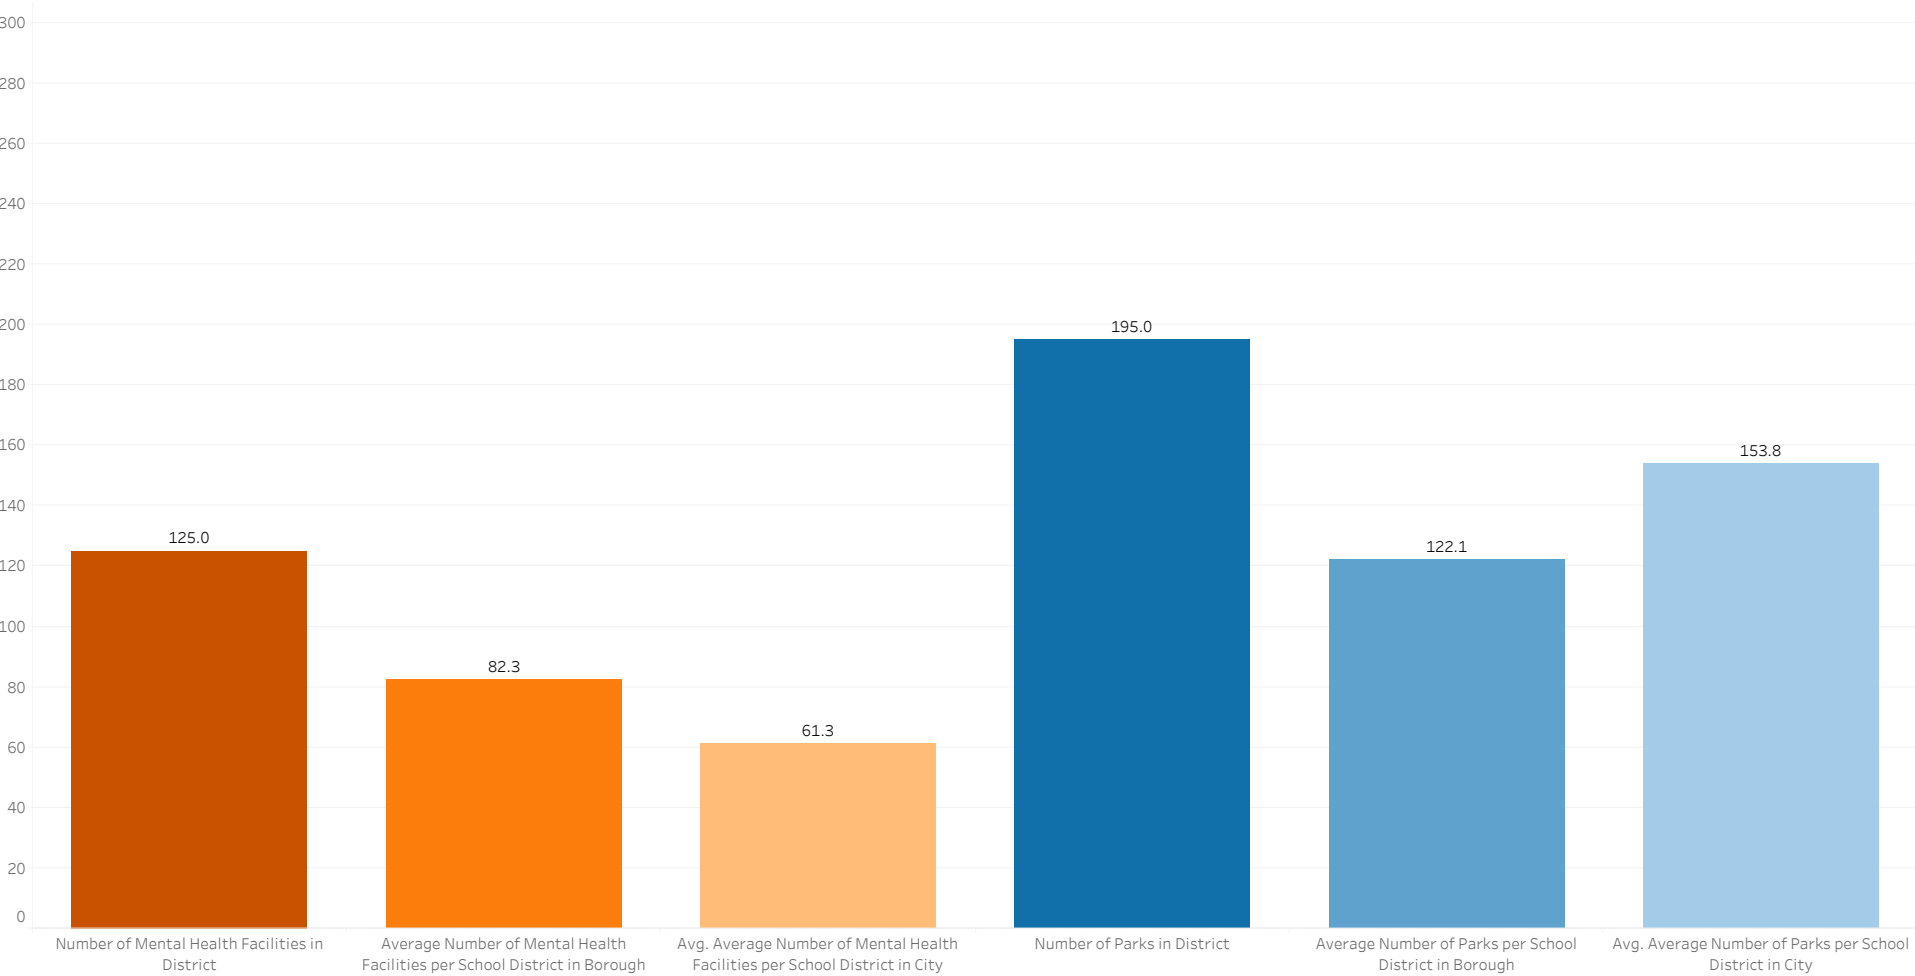

Blood lead level elevated (≥ 5 $\mu\text{g}/\text{dL}$) is presented as the average rate per 1,000 residents tested. Asthma Emergency Department visits are presented as average annual rate per 100,000 residents in the specified age group.

Childhood Asthma and Lead Exposure : School District #32 (Williamsburg - Bushwick, Bedford Stuyvesant - Crown Heights, Pelham - Throgs Neck, and Sunset Park), Brooklyn

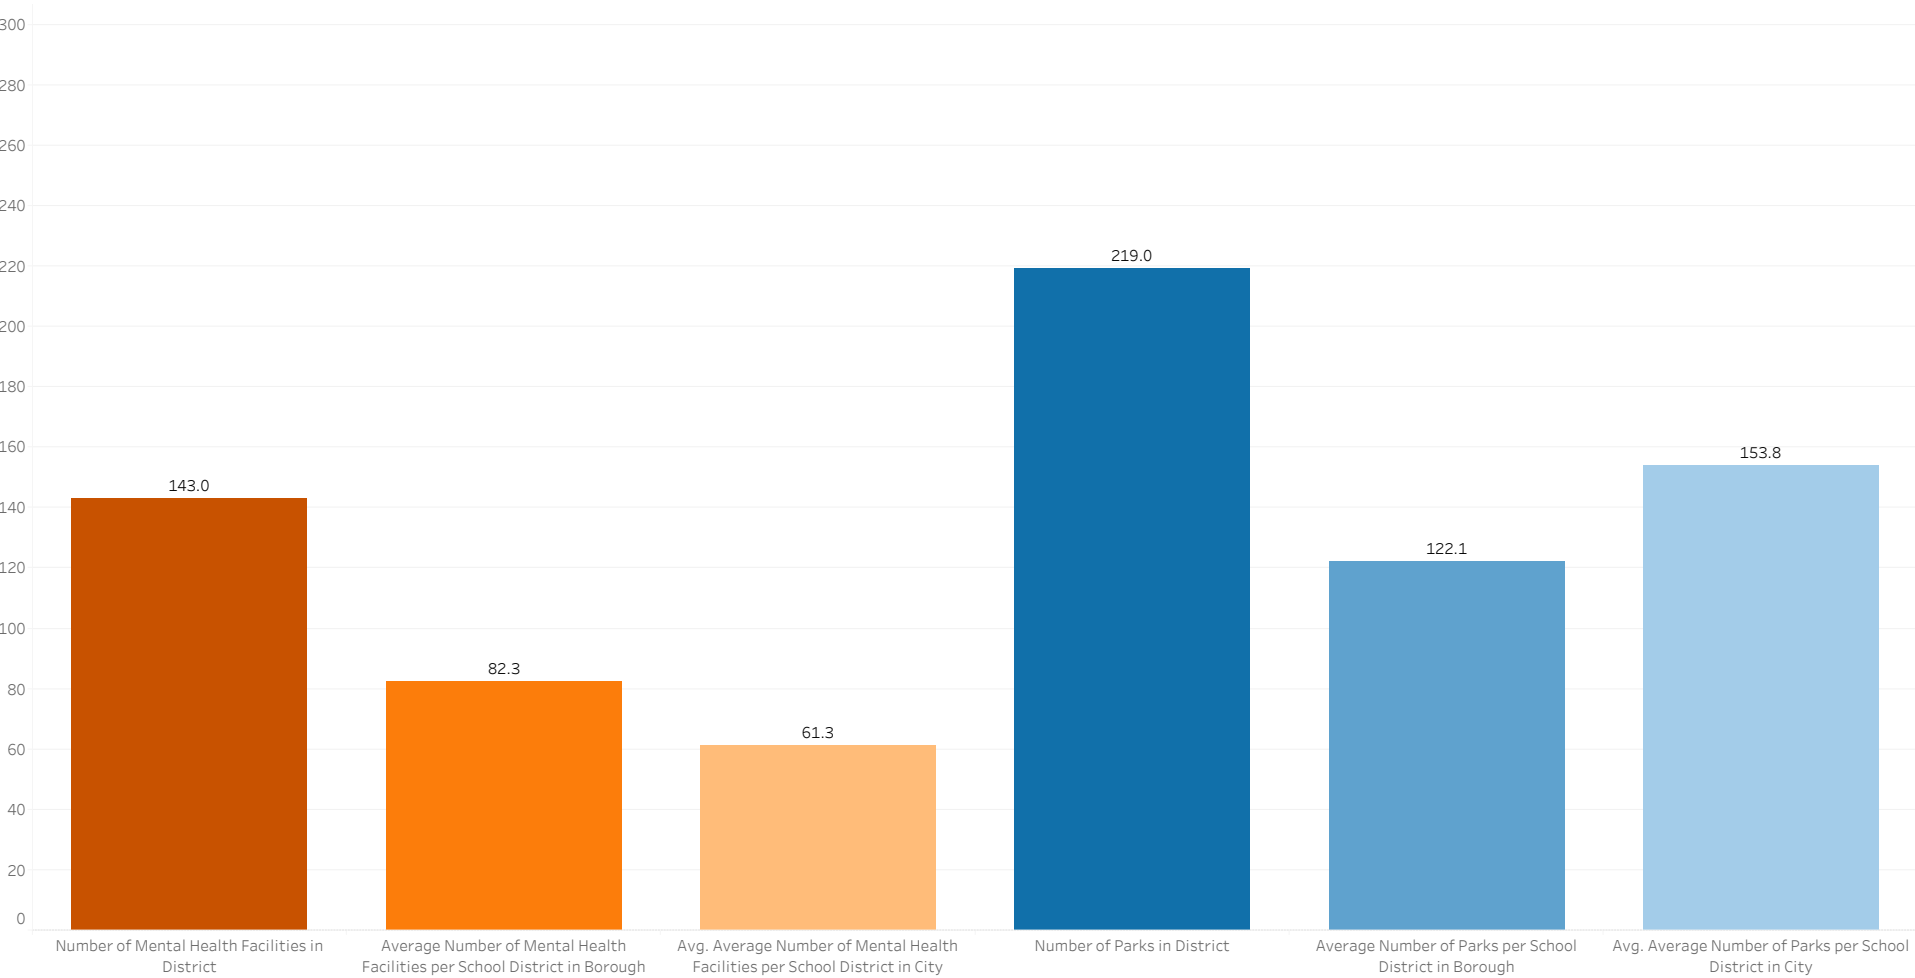

Blood lead level elevated (≥ 5 µg/dL) is presented as the average rate per 1,000 residents tested. Asthma Emergency Department visits are presented as average annual rate per 100,000 residents in the specified age group.

Mental Hygiene Resources : School District #1 (Chelsea - Clinton, Union Square - Lower East Side, Lower Manhattan, Greenwich Village - Soho, Gramercy Park - Murray Hill, East Harlem, and Central Harlem - Morningside Heights), Manhattan

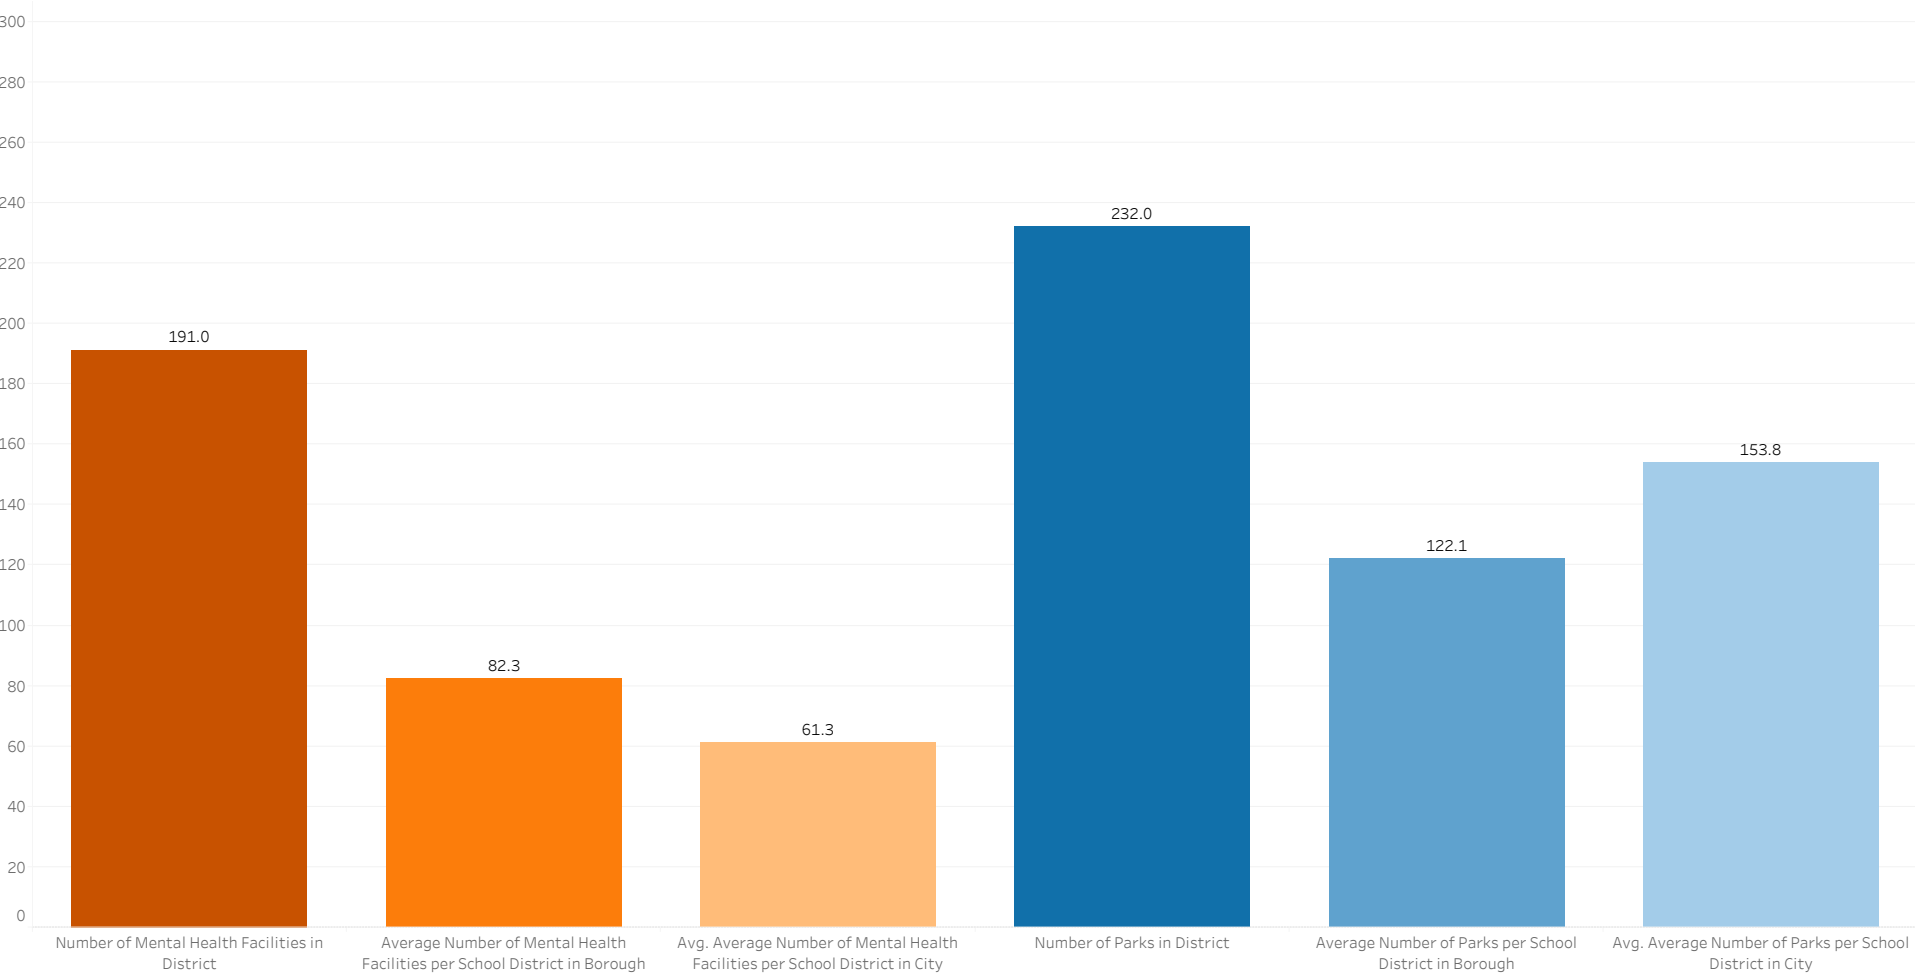

Mental Health Facilities in NYC include: outpatient mental health, inpatient mental health, crisis services mental health, emergency mental health, family support services, geriatric mental health, non-medical case management for currently incarcerated or recently released individuals living with HIV, non-medical case management general, psychosocial club, single point of access (SPOA), and “support mental health.”

Mental Hygiene Resources : School District #2 (Chelsea - Clinton, Union Square - Lower East Side, Lower Manhattan, Greenwich Village - Soho, Gramercy Park - Murray Hill, East Harlem, Central Harlem - Morningside Heights, and Upper East Side), Manhattan

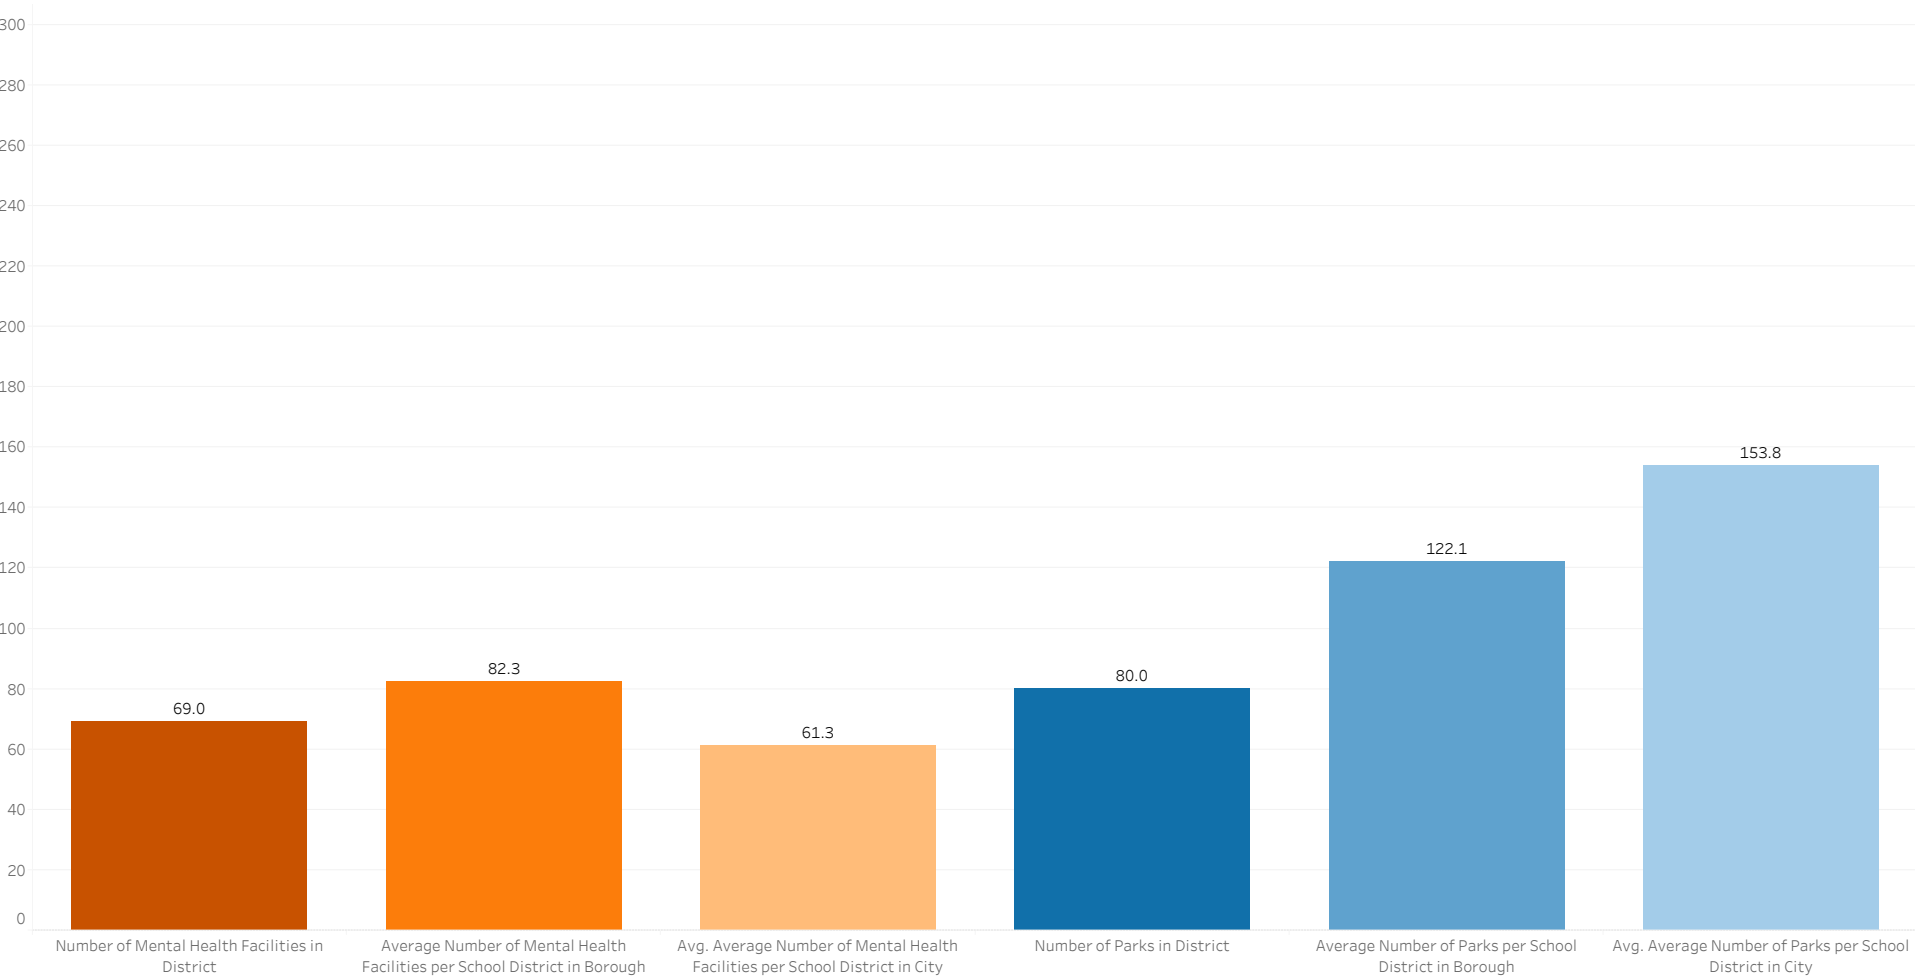

Mental Health Facilities in NYC include: outpatient mental health, inpatient mental health, crisis services mental health, emergency mental health, family support services, geriatric mental health, non-medical case management for currently incarcerated or recently released individuals living with HIV, non-medical case management general, psychosocial club, single point of access (SPOA), and "support mental health."

Mental Hygiene Resources : School District #3 (Chelsea - Clinton, Central Harlem - Morningside Heights, Upper East Side, Upper West Side, East Harlem, Williamsburg - Bushwick, Washington Heights - Inwood, and Union Square - Lower East Side), Manhattan

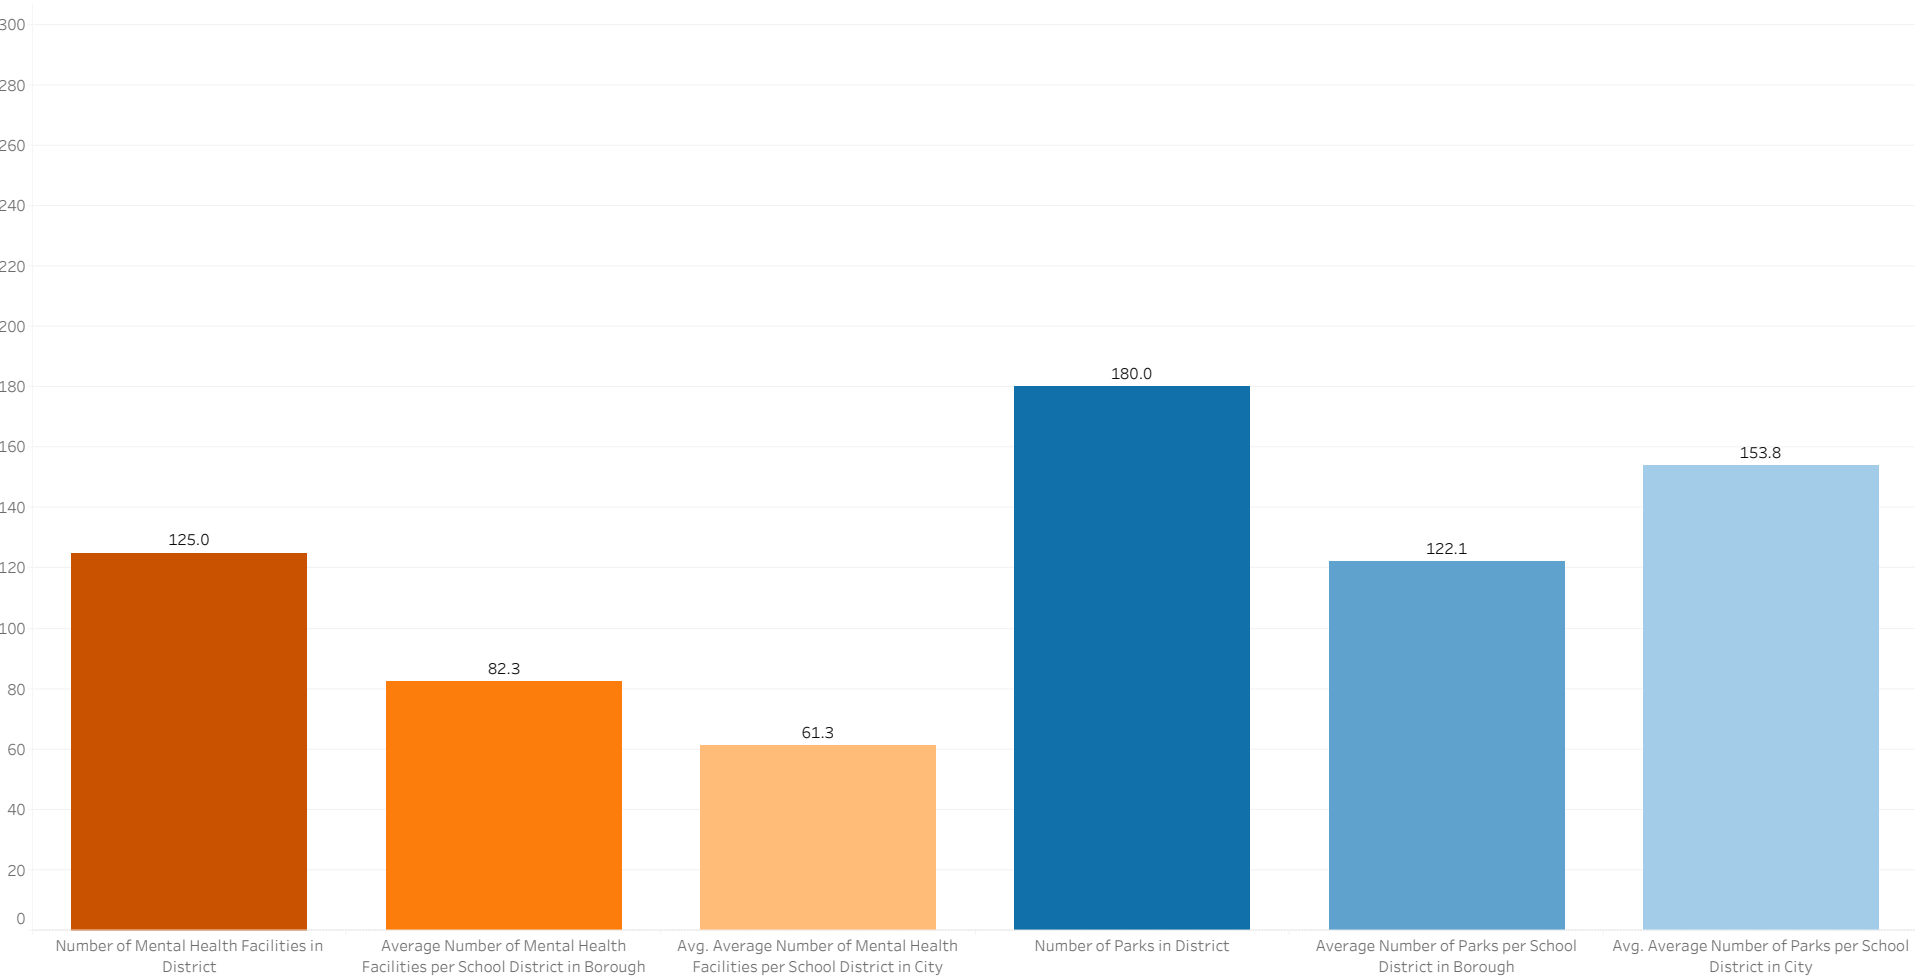

Mental Health Facilities in NYC include: outpatient mental health, inpatient mental health, crisis services mental health, emergency mental health, family support services, geriatric mental health, non-medical case management for currently incarcerated or recently released individuals living with HIV, non-medical case management general, psychosocial club, single point of access (SPOA), and “support mental health.”

Mental Hygiene Resources : School District #4 (Upper East Side, East Harlem, and Union Square - Lower East Side), Manhattan

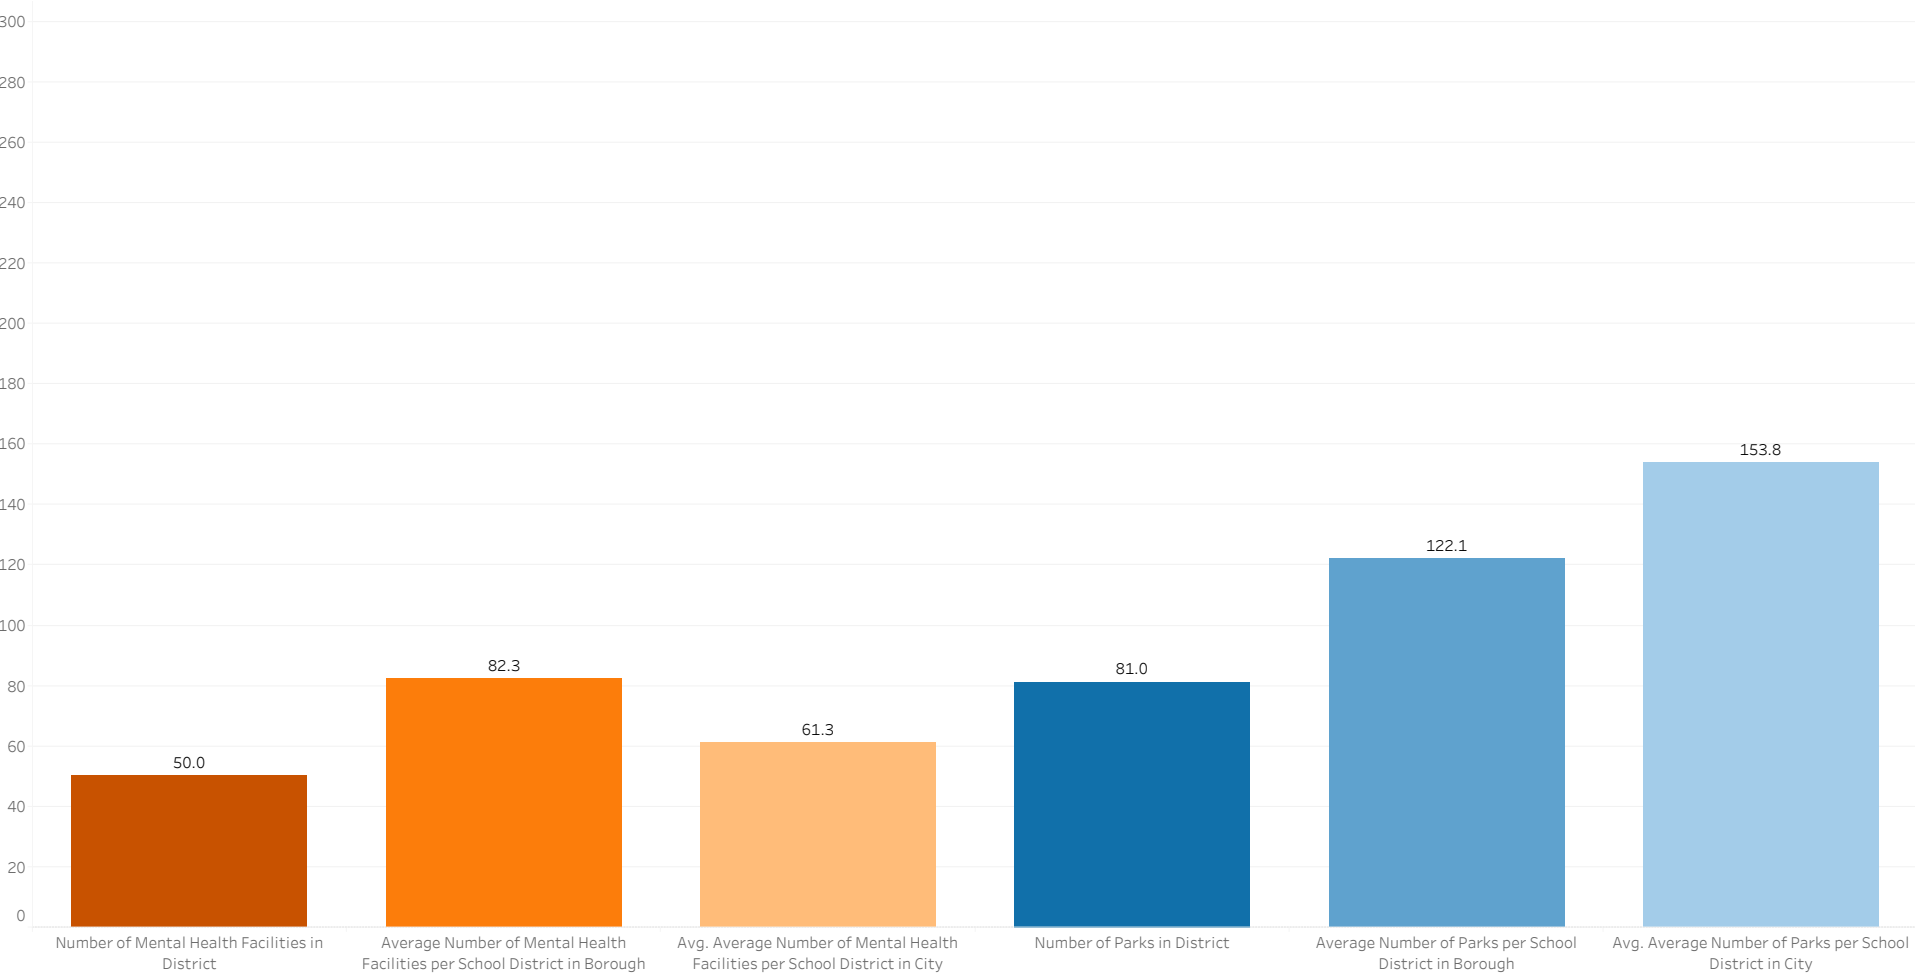

Mental Health Facilities in NYC include: outpatient mental health, inpatient mental health, crisis services mental health, emergency mental health, family support services, geriatric mental health, non-medical case management for currently incarcerated or recently released individuals living with HIV, non-medical case management general, psychosocial club, single point of access (SPOA), and “support mental health.”

Mental Hygiene Resources : School District #5 (Central Harlem - Morningside Heights, East Harlem, Williamsburg - Bushwick, Washington Heights - Inwood, and Upper West Side), Manhattan

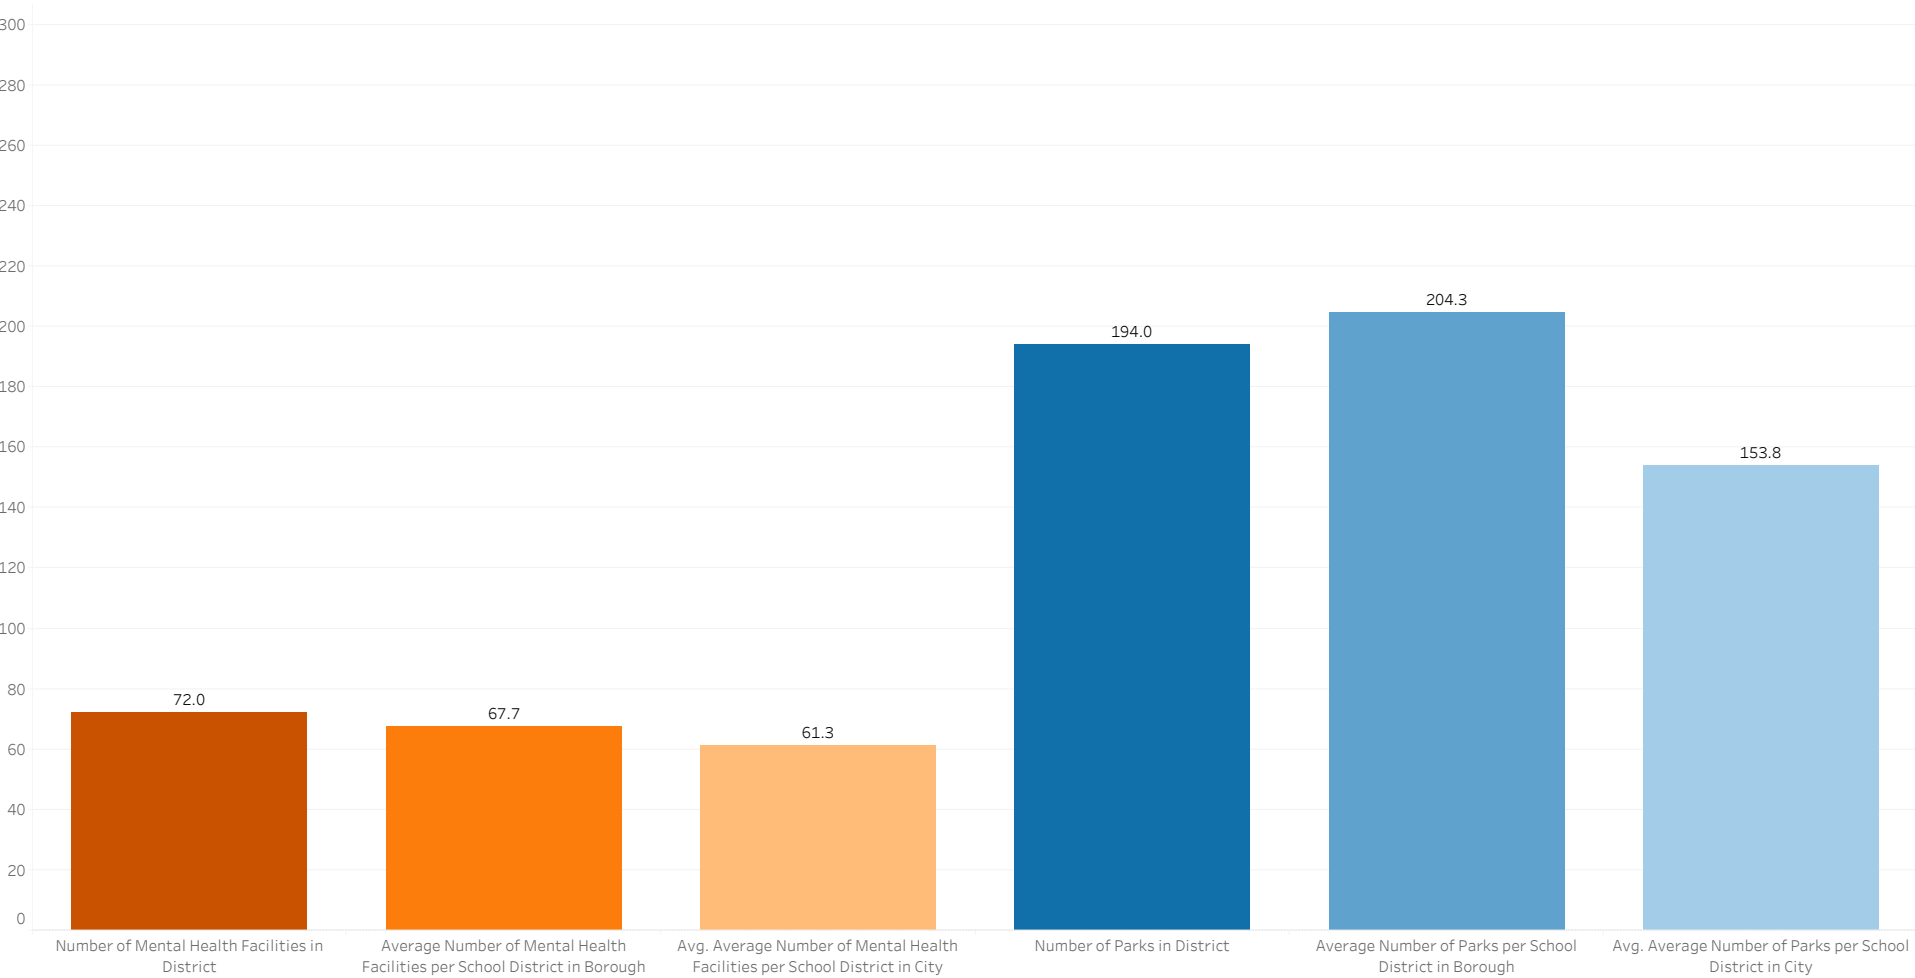

Mental Health Facilities in NYC include: outpatient mental health, inpatient mental health, crisis services mental health, emergency mental health, family support services, geriatric mental health, non-medical case management for currently incarcerated or recently released individuals living with HIV, non-medical case management general, psychosocial club, single point of access (SPOA), and "support mental health."

Mental Hygiene Resources : School District #6 (Central Harlem - Morningside Heights, Washington Heights - Inwood, and Upper West Side), Manhattan

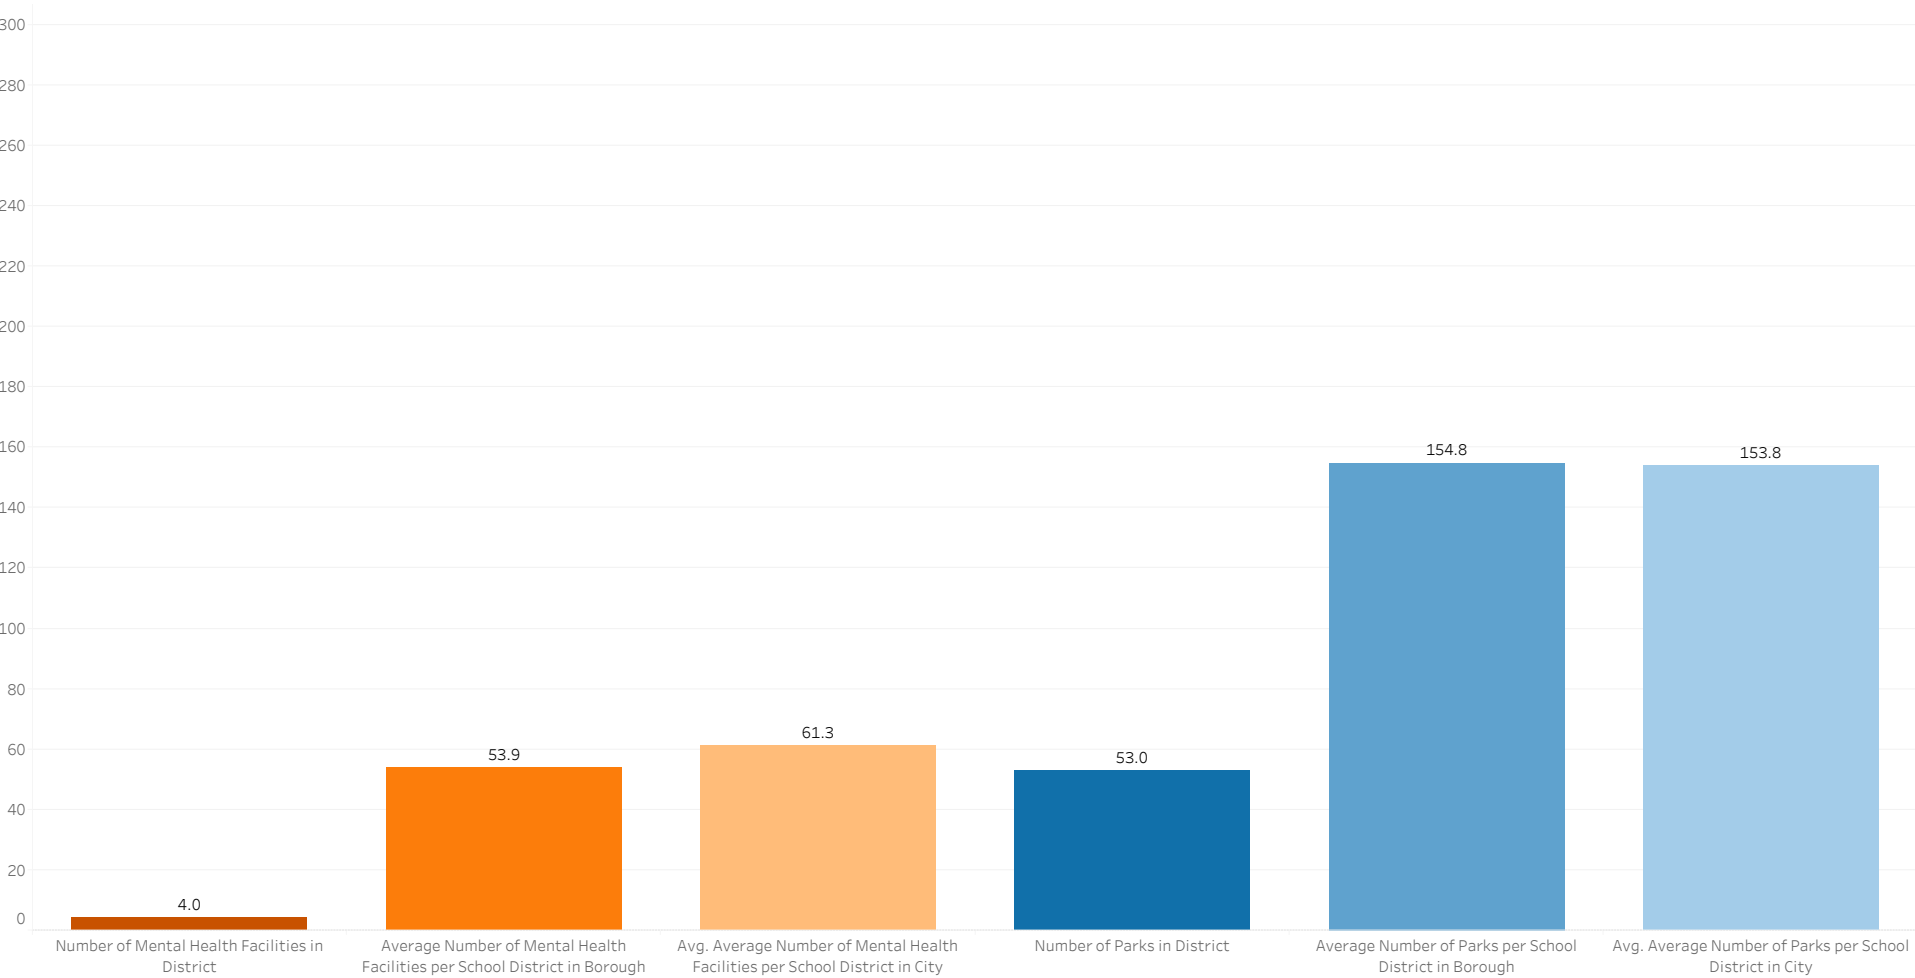

Mental Health Facilities in NYC include: outpatient mental health, inpatient mental health, crisis services mental health, emergency mental health, family support services, geriatric mental health, non-medical case management for currently incarcerated or recently released individuals living with HIV, non-medical case management general, psychosocial club, single point of access (SPOA), and "support mental health."

Mental Hygiene Resources : School District #7 (High Bridge - Morrisania, Hunts Point - Mott Haven, Fordham - Bronx Park, Willowbrook, Flushing - Clearview, and Bayside - Little Neck), Bronx

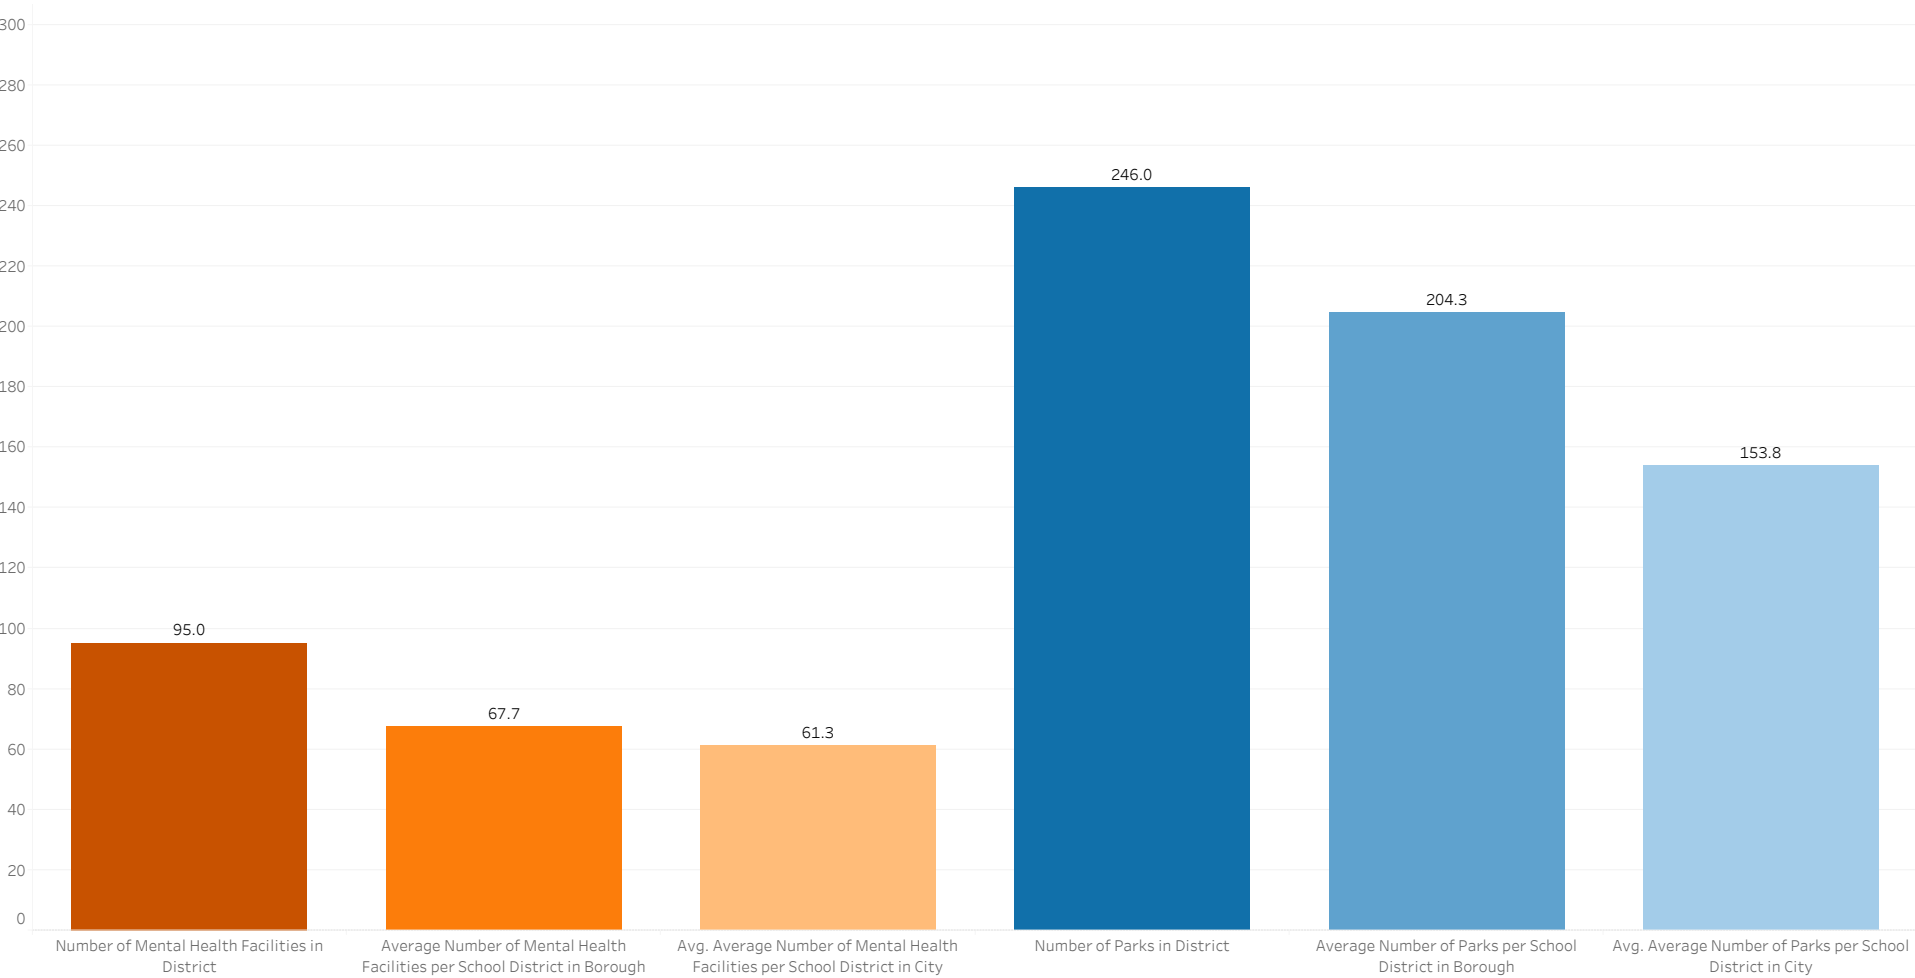

Mental Health Facilities in NYC include: outpatient mental health, inpatient mental health, crisis services mental health, emergency mental health, family support services, geriatric mental health, non-medical case management for currently incarcerated or recently released individuals living with HIV, non-medical case management general, psychosocial club, single point of access (SPOA), and “support mental health.”

Mental Hygiene Resources : School District #7 (High Bridge - Morrisania, Hunts Point - Mott Haven, Fordham - Bronx Park, Willowbrook, Flushing - Clearview, and Bayside - Little Neck), Queens

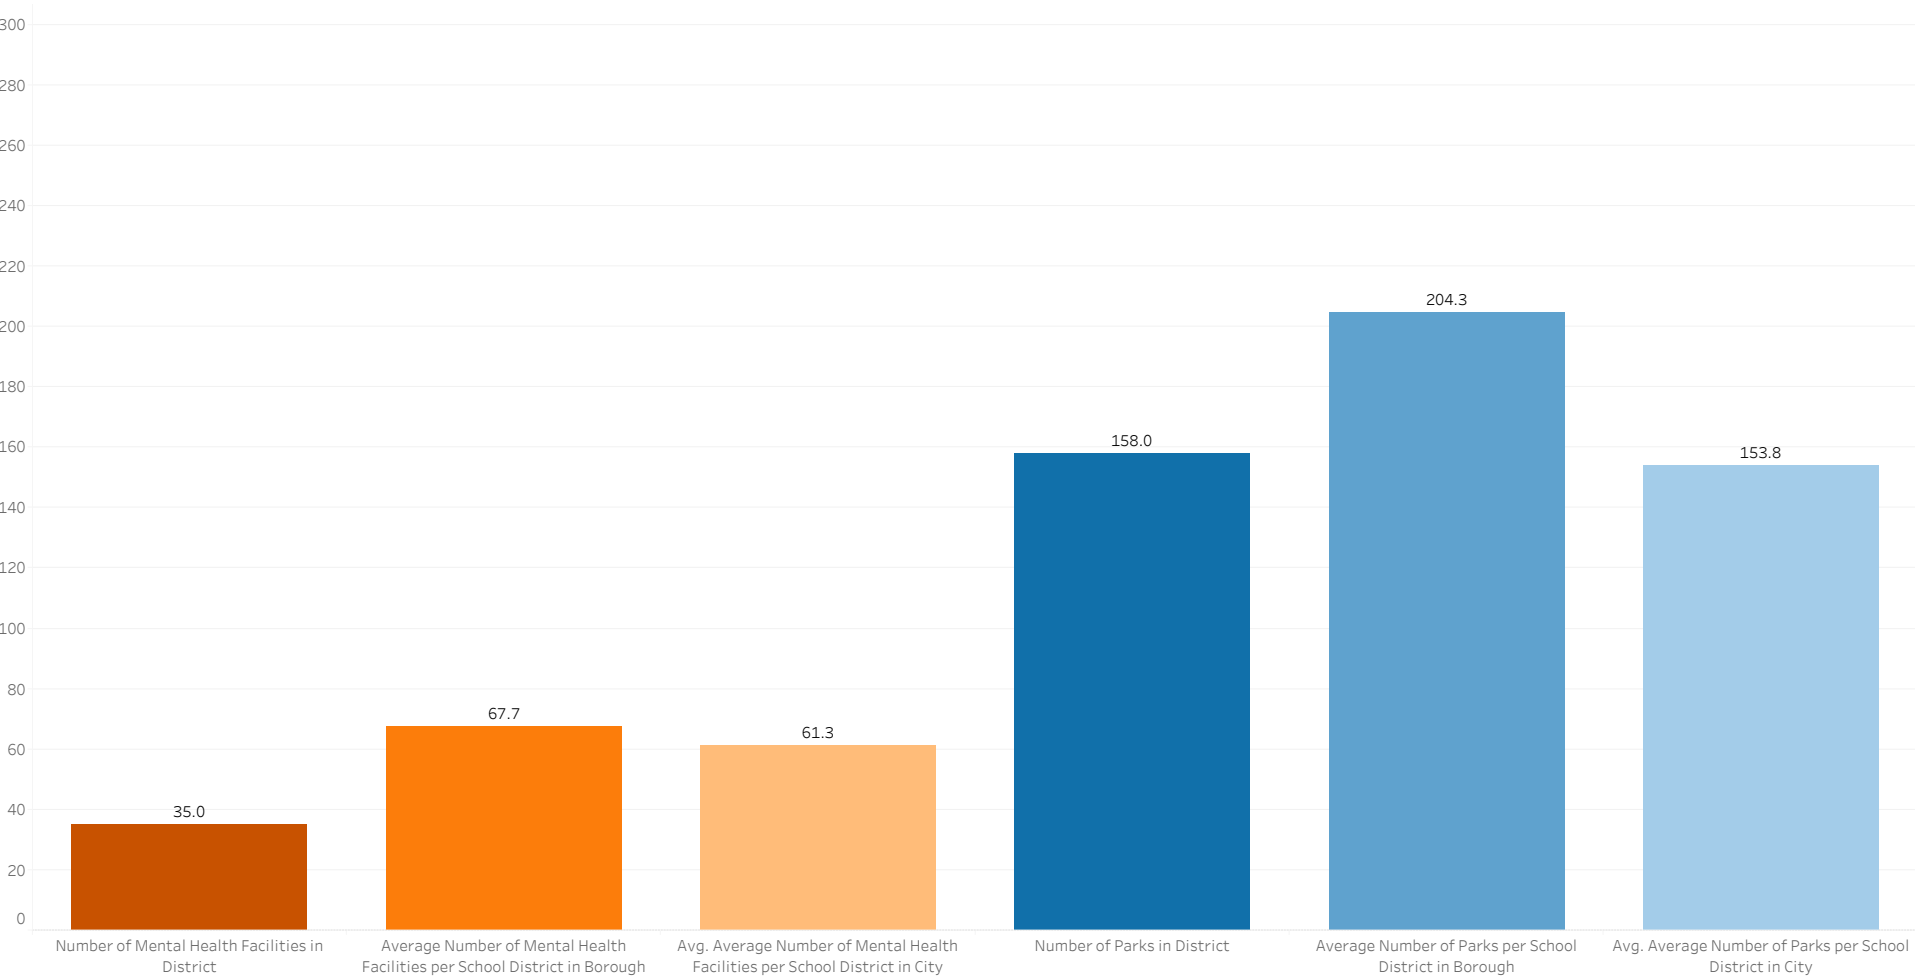

Mental Health Facilities in NYC include: outpatient mental health, inpatient mental health, crisis services mental health, emergency mental health, family support services, geriatric mental health, non-medical case management for currently incarcerated or recently released individuals living with HIV, non-medical case management general, psychosocial club, single point of access (SPOA), and "support mental health."

Mental Hygiene Resources : School District #8 (High Bridge - Morrisania, Hunts Point - Mott Haven, Fordham - Bronx Park, Willowbrook, Pelham - Throgs Neck, and Northeast Bronx), Bronx

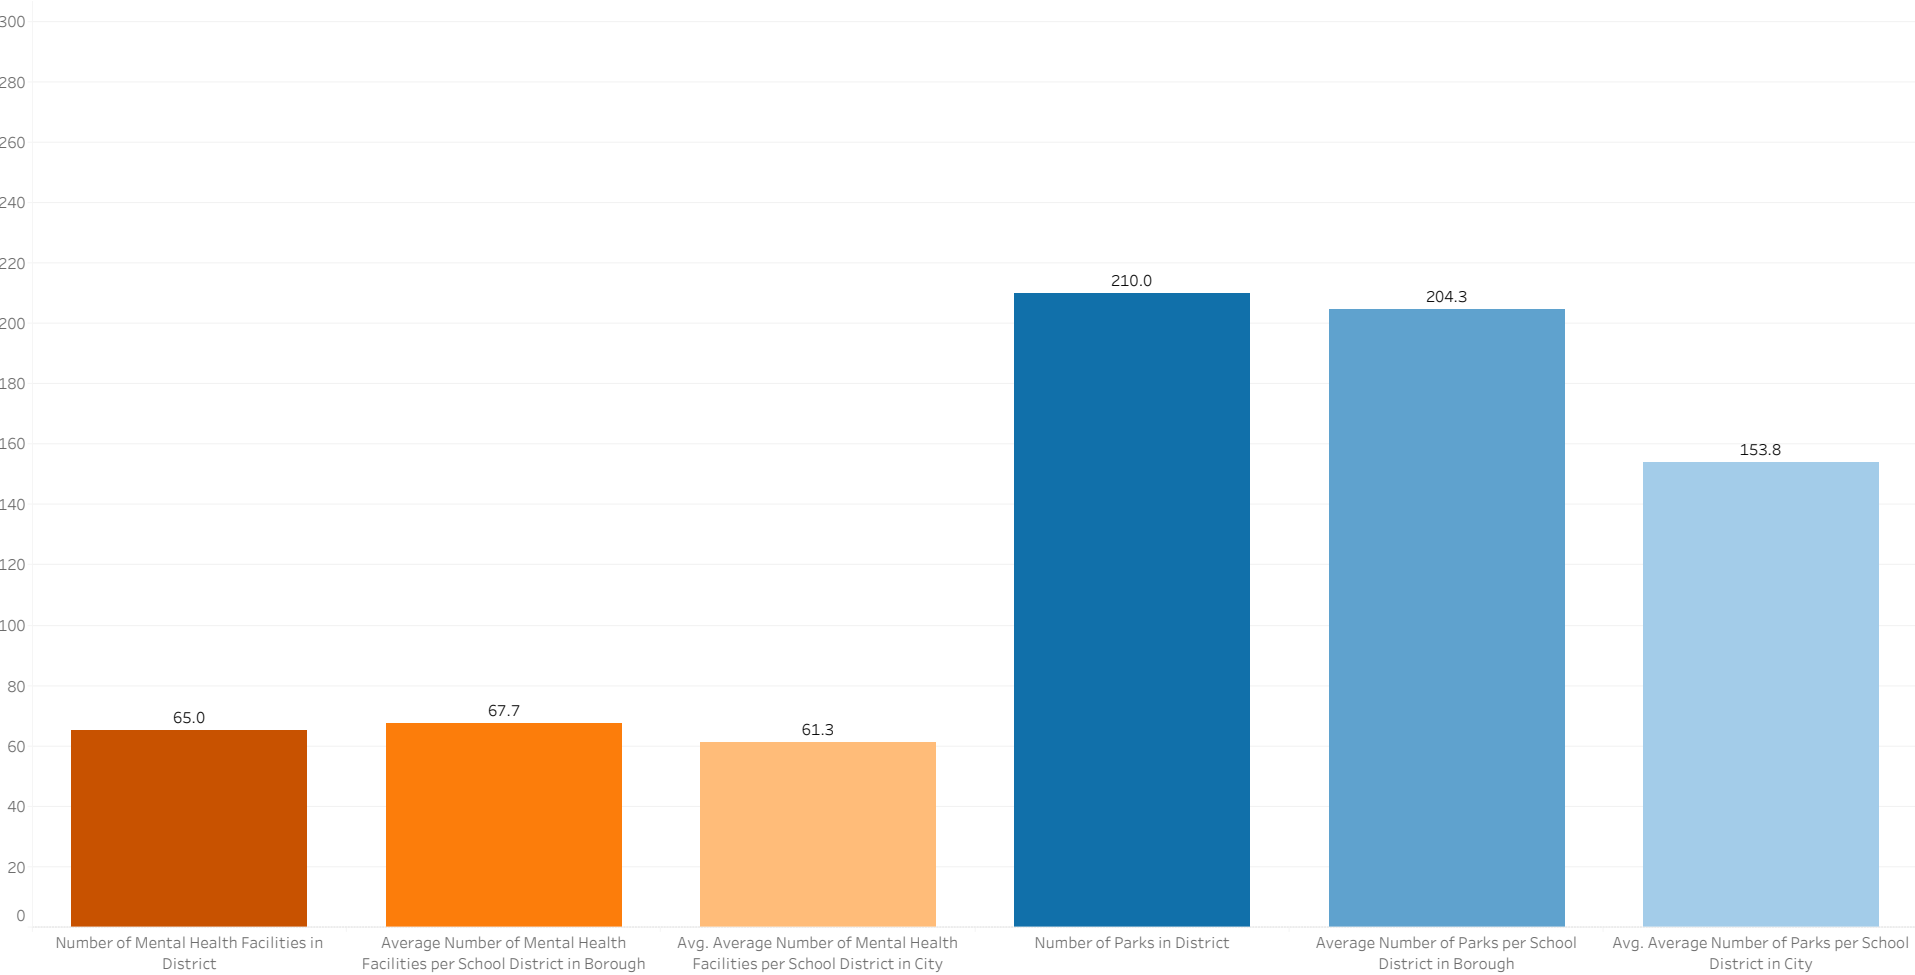

Mental Health Facilities in NYC include: outpatient mental health, inpatient mental health, crisis services mental health, emergency mental health, family support services, geriatric mental health, non-medical case management for currently incarcerated or recently released individuals living with HIV, non-medical case management general, psychosocial club, single point of access (SPOA), and “support mental health.”

Mental Hygiene Resources : School District #9 (High Bridge - Morrisania, Crotona - Tremont, Fordham - Bronx Park, and Willowbrook), Bronx

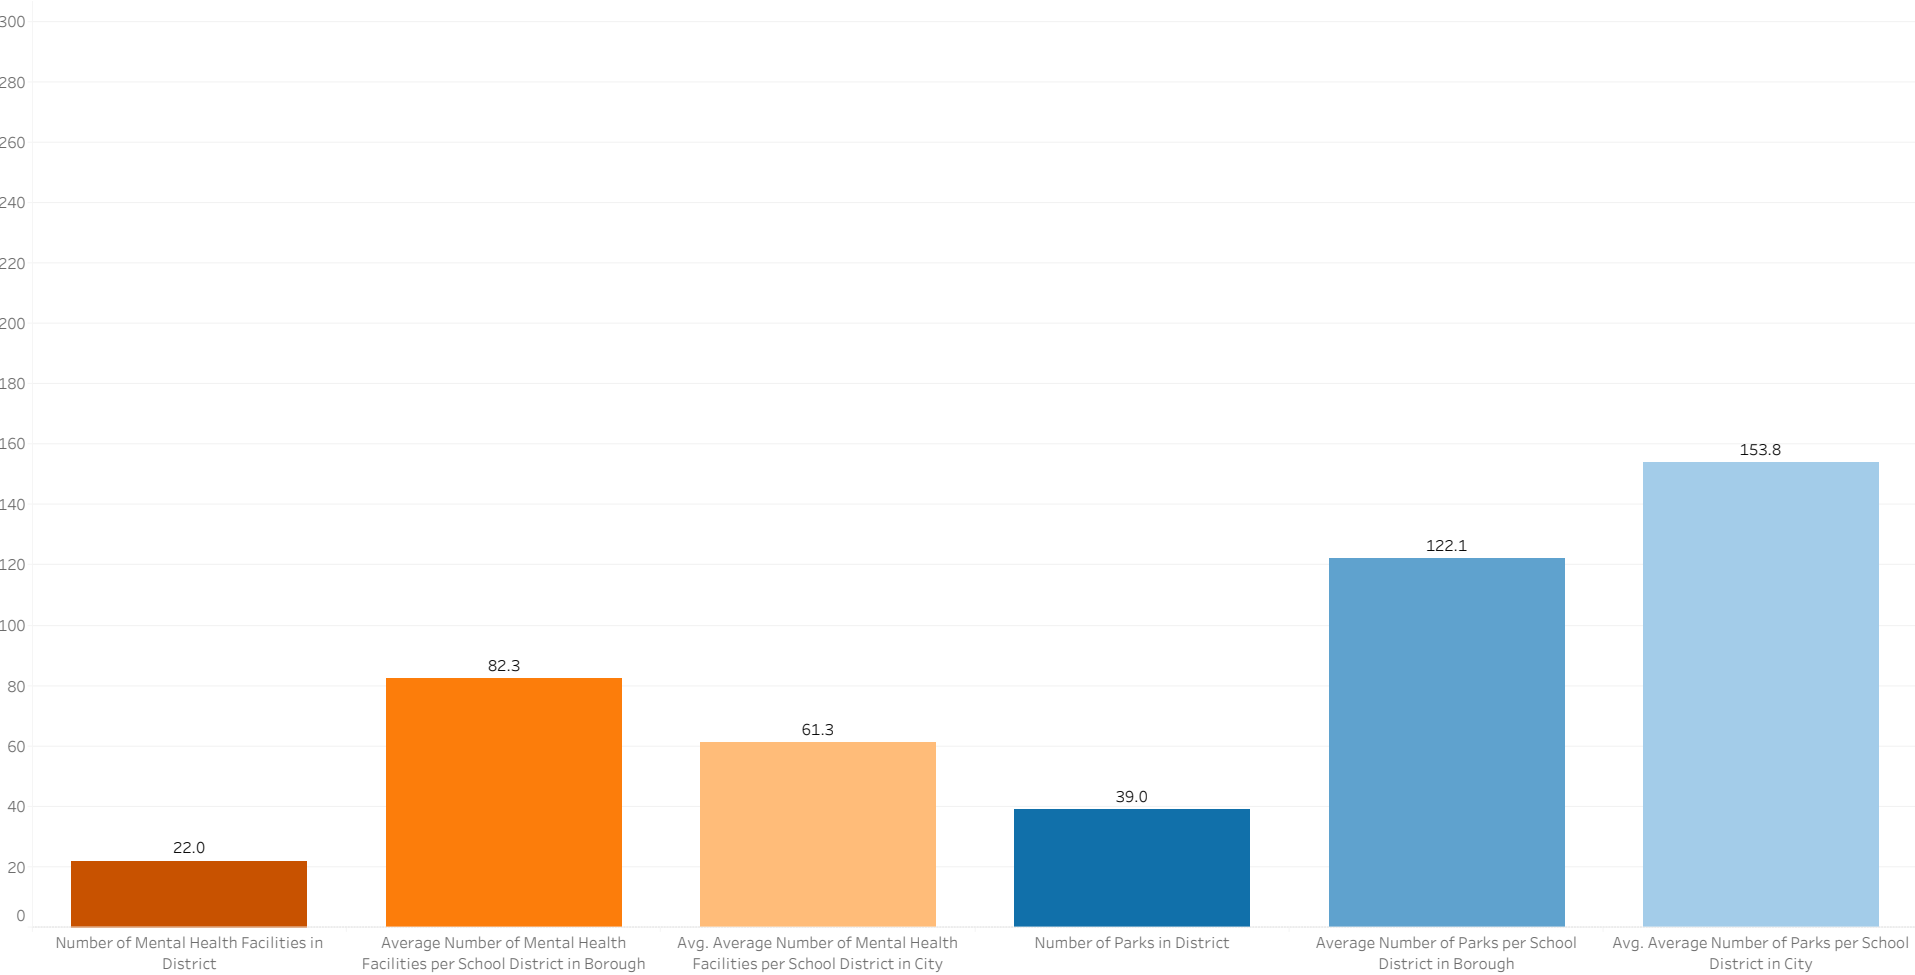

Mental Health Facilities in NYC include: outpatient mental health, inpatient mental health, crisis services mental health, emergency mental health, family support services, geriatric mental health, non-medical case management for currently incarcerated or recently released individuals living with HIV, non-medical case management general, psychosocial club, single point of access (SPOA), and "support mental health."

Mental Hygiene Resources : School District #10 (Washington Heights - Inwood, Upper West Side, Crotona - Tremont, Fordham - Bronx Park, Willowbrook, and Kingsbridge - Riverdale), Bronx

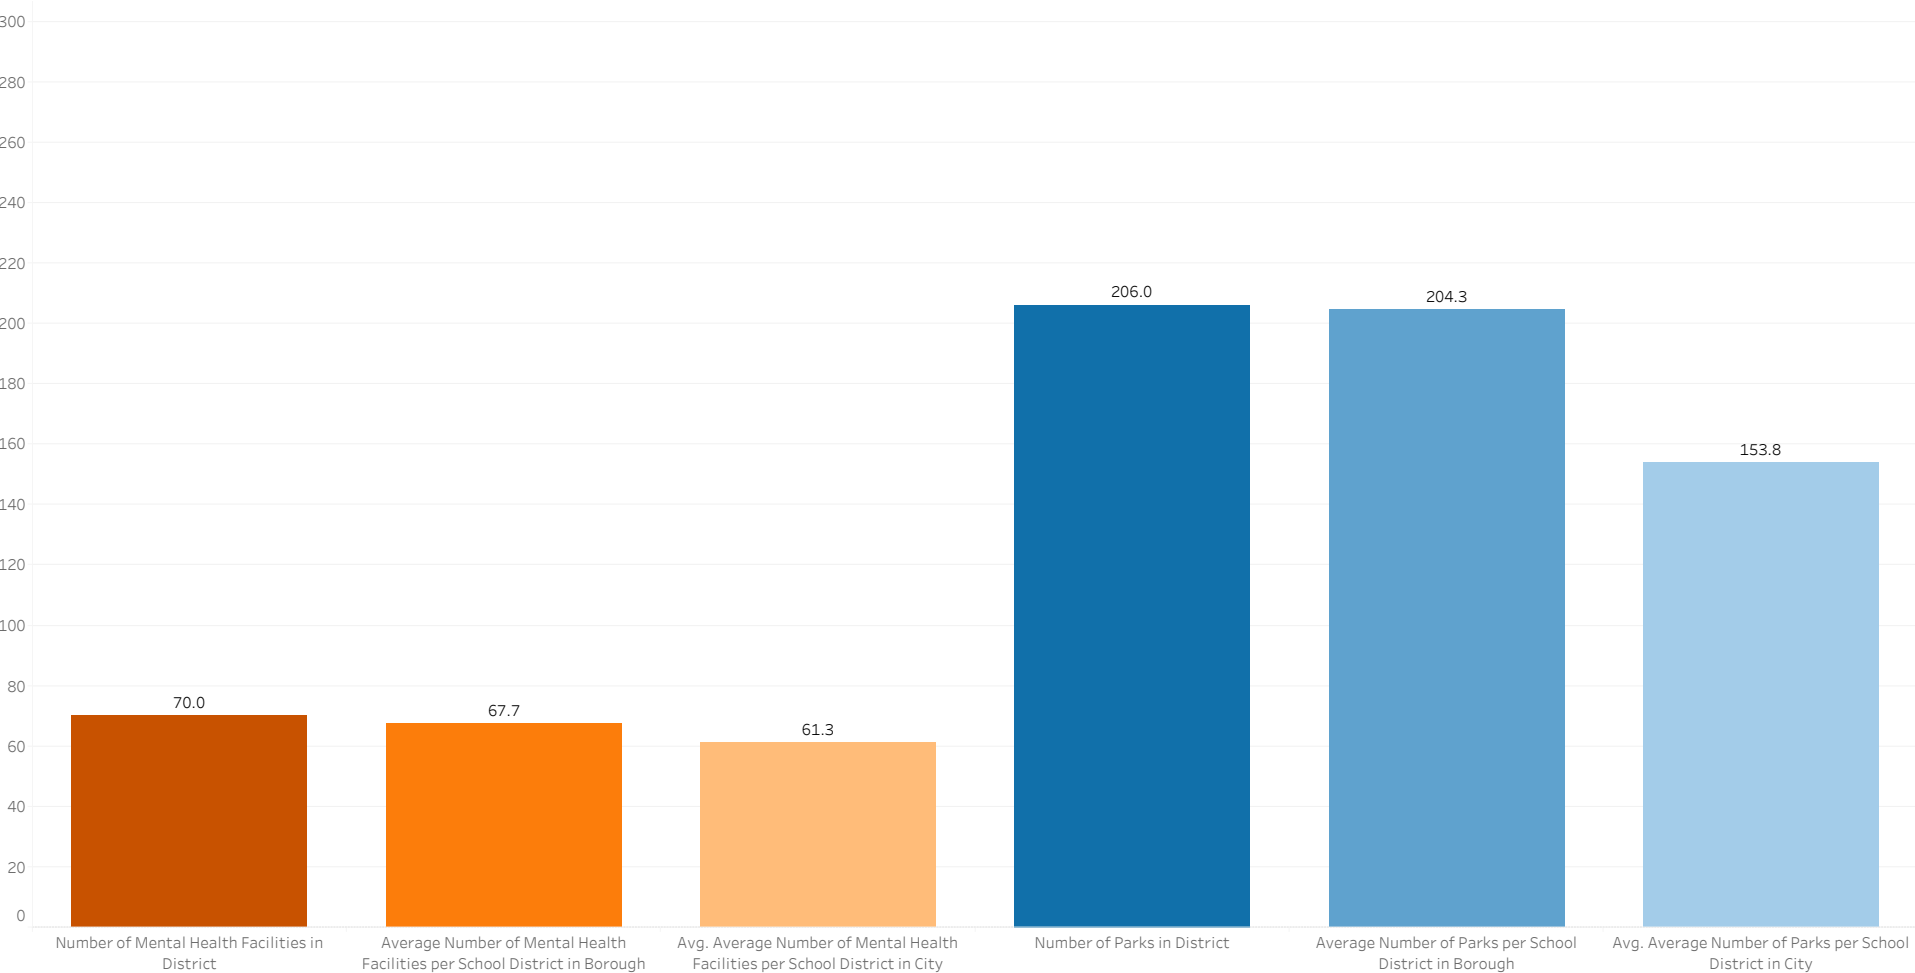

Mental Health Facilities in NYC include: outpatient mental health, inpatient mental health, crisis services mental health, emergency mental health, family support services, geriatric mental health, non-medical case management for currently incarcerated or recently released individuals living with HIV, non-medical case management general, psychosocial club, single point of access (SPOA), and “support mental health.”

Mental Hygiene Resources : School District #10 (Washington Heights - Inwood, Upper West Side, Crotona - Tremont, Fordham - Bronx Park, Willowbrook, and Kingsbridge - Riverdale), Manhattan
